**Biography of a Germ** Arno Karlen,2001-05-15 Arno Karlen, author of *Man and Microbes*, focuses on a single bacterium in *Biography of a Germ*, giving us an intimate view of a life that has been shaped by and is in turn transforming our own. *Borrelia burgdorferi* is the germ that causes Lyme disease. In existence for some hundred million years, it was discovered only recently. Exploring its evolution, its daily existence, and its journey from ticks to mice to deer to humans, Karlen lucidly examines the life and world of this recently prominent germ. He also describes how it attacks the human body, and how by changing the environment, people are now much more likely to come into contact with it. Charming and thorough and smart, this book is a wonderfully written biography of your not so typical biographical subject.

**Lesser Living Creatures of the Renaissance** Keith Botelho,Joseph Campana,2023-01-06 *Lesser Living Creatures* examines literary and cultural texts from early modern England in order to understand how people in that era thought about—and with—insect and arachnid life. The conversations in this two-volume set address the collaborative, multigenerational research that produced early modern natural history and provide new insights into the old question of what it means to be human in a world populated by beasts large and small. Volume 2, *Concepts*, explores ideas that cut across species, insect and otherwise, both

building on and invigorating critical vocabularies developed over nearly two decades of early modern animal studies. The contributors explore topics such as the medical and culinary consumption of insects; extermination campaigns; the auditory and emotive effects of a swarm; insects and politics; and notions of infestation, stinging, and creeping. Throughout, they illuminate how early modern science and literature worked as intersecting systems of knowledge production about the natural world and show definitively how insect life was, and remains, intimately entangled with human life. In addition to the editors, contributors to this volume include Lucinda Cole, Frances E. Dolan, Lowell Duckert, Andrew Fleck, Rebecca Laroche, Jennifer Munroe, Amy L. Tigner, Jessica Lynn Wolfe, Derek Woods, and Julian Yates.

*Spider Silk* Charley Marsh, 2017-07-17 Spider silk. Lighter than air. Indestructible. No wonder Rita King wears spider silk skinsuits and wants them for her crew. To get them Rita must give in to the Spider Woman's unusual demand. "Come to Kwaku." Kwaku. Home of the mysterious Spider Woman. Home to the giant silk spiders. Never before visited by an outsider. Why the invite now? *Spider Silk*, Book Six of the *Junkyard Dog* series, takes Rita King and her companions into the bizarre and deadly world of spider silk. A science fiction adventure mystery

**Spider Legs** Piers Anthony, Clifford A. Pickover, 2014-07-01 An ecological disaster spawns an eight-legged sea monster in this collaboration between the science fiction author and acclaimed nonfiction writer. Millions of readers have enjoyed the books of Piers Anthony, including (but certainly not limited to) his undeniably popular *Xanth* and *Blue Adept* series. Now, in collaboration with celebrated nonfiction author Clifford A. Pickover, he brings us a disturbing tale of our own world, and the strange creatures with

whom we share it. It is said, and truly, that there are more things under heaven and earth than there are almost anywhere else; true as well that many of them lurk, unsuspected, far below the surface of the planet's ocean. For thousands of years, mankind has simultaneously trusted in the sea's proverbial generosity and used it as a dumping ground, trusting that in its vastness his garbage will be swallowed up and forgotten. But that was never really true. And now, in an age when the overcrowded Earth swarms with hungry inhabitants whose waste chokes even the sea, whose greedy demands overtax its seemingly endless bounty, strange things are born in the ocean's deeps—strange things that the ocean throws back upon the land.
