*Translation in Russian Contexts* Brian James Baer,Susanna Witt,2017-07-28 This volume represents the first large-scale effort to address topics of translation in Russian contexts across the disciplinary boundaries of Slavic Studies and Translation Studies, thus opening up new perspectives for both fields. Leading scholars from Eastern and Western Europe offer a comprehensive overview of Russian translation history examining a variety of domains, including literature, philosophy and religion. Divided into three parts, this book highlights Russian contributions to translation theory and demonstrates how theoretical perspectives developed within the field help conceptualize relevant problems in cultural context in pre-Soviet, Soviet, and post-Soviet Russia. This transdisciplinary volume is a valuable addition to an under-researched area of translation studies and will appeal to a broad audience of scholars and students across the fields of Translation Studies, Slavic Studies, and Russian and Soviet history. Chapter 1 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution-Non Commercial-No Derivatives 4.0 license available at <http://www.taylorfrancis.com/books/e/9781315305356>.

Russian Writers on Translation Brian James Baer,Natalia Olshanskaya,2014-07-16 Since the early eighteenth century, following Peter the Great’s policy of forced westernization, translation in Russia has been a very visible and much-discussed practice. Generally perceived as an important service to the state and the nation, translation was also viewed as a high art, leading many Russian poets and writers to engage in literary translation in a serious and sustained manner. As a result, translations were generally regarded as an integral part of an author’s oeuvre and of Russian literature as a whole. This volume brings together Russian writings on translation from the mid-18th century until today and presents them in chronological order, providing valuable insights into the theory and practice of translation in Russia. Authored by some of Russia’s leading writers, such as Aleksandr Pushkin, Fedor Dostoevskii, Lev Tolstoi, Maksim Gorkii, and Anna Akhmatova, many of these texts are translated into English for the first time. They are accompanied by extensive annotation and biographical sketches of the authors, and reveal Russian translation discourse to be a sophisticated and often politicized exploration of Russian national identity, as well as the nature of the modern subject. Russian Writers on Translation fills a persistent gap in the literature on alternative translation traditions, highlighting the vibrant and intense culture of translation on Europe’s ‘periphery’. Viewed in a broad cultural context, the selected texts reflect a nuanced understanding of the Russian response to world literature and highlight the attempts of Russian writers to promote Russia as an all-inclusive cultural model.

27000+ Greek - Russian Russian - Greek Vocabulary Gilad Soffer, 27000+ Greek - Russian Russian - Greek Vocabulary - is a list of more than 27000 words translated from Greek to Russian, as well as translated from Russian to Greek. Easy to use- great for tourists and Greek speakers interested in learning Russian. As well as Russian speakers interested in learning Greek.

*Seferis and Elytis as Translators* Irene Loulakaki-Moore,2010 George Seferis and Odysseus Elytis gave the Modern Greek language a substantial corpus of translations from poets working in French, Italian, Spanish, Russian, English and Ancient Greek. However, the translation practices of these two Nobel Prize-winning poets have long been inadequately observed. The present volume provides a close examination of Seferis' and Elytis' inter- and intra-lingual verse translations with the aim of discovering their translating techniques and their personal and public goals in pursuing the act of translation. Similarities and differences between the two poets are highlighted comparatively. The methodological approach, informed by recent findings in the field of descriptive translation studies and polysystem theories, investigates the function of translation in the target culture and the relation of translation to original poetic production. Throughout the book the study of translation is shown to be a powerful tool for the study of Modern Greek literature and its relation to other literatures and movements of the time, while the task of the translator and the task of the writer unfold as two components of the same endeavour.

**Russia and the Making of Modern Greek Identity, 1821-1844** Lucien J. Frary,2015 Lucien J. Frary explores how Russian politics and religion were instrumental in the shaping of modern Greece, providing a broad understanding of 19th-century Russian foreign policy and religious enterprise, as well as the relationship between religion, nationalism, and state-building.

**Multilingual Routes in Translation** Maria Sidiropoulou,Tatiana Borisova,2022-04-07 This book tackles the interface between translation and pragmatics. It comprises case studies in English, Greek, Russian and Chinese translation practice, which highlight the potential of translation to interact with pragmatics and reshape meaning making in a target language in various pragmatically relevant ways. Fiction and non-fiction genres merge to suggest a rich inventory of interlingual transfer instances which can broaden our perception of what may be shifting in translation transfer. Authors use an emic approach (in addition to an etic one) to confirm results which they often present graphically. The book has a didactic perspective in that it shows how pragmatic awareness can regulate translator behaviour and is also useful in foreign language teaching, because it shows how important implicit knowledge can be, in shaping the message in a foreign language.

**A History of Russian Economic Thought** John M. Letiche,2023-11-10 This title is part of UC Press's Voices Revived program, which commemorates University of California Press’s mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Drawing on a backlist dating to 1893, Voices Revived makes high-quality, peer-reviewed scholarship accessible once again using print-on-demand technology. This title was originally published in 1964.

**Routledge Encyclopedia of Translation Studies** Mona Baker,Kirsten Malmkjær,1998-01 The Routledge Encyclopedia of Translation Studies has been the standard reference in the field since it first appeared in 1998. The second, extensively revised and extended edition brings this unique resource up to date and offers a thorough, critical and authoritative account of one of the fastest growing disciplines in the humanities. The Encyclopedia is divided into two parts and alphabetically ordered for ease of reference: Part I (General) covers the conceptual framework and core concerns of the discipline. Categories of entries include: \* central issues in translation theory (e.g. equivalence, translatability, unit of translation) \* key concepts (e.g. culture, norms, ethics, ideology, shifts, quality) \* approaches to translation and interpreting (e.g. sociological, linguistic, functionalist) \* types of translation (e.g. literary, audiovisual, scientific and technical) \* types of interpreting (e.g. signed language, dialogue, court) New additions in this section include entries on globalisation, mobility, localization, gender and sexuality, censorship, comics, advertising and retranslation, among many others. Part II (History and Traditions) covers the history of translation in major linguistic and cultural communities. It is arranged alphabetically by linguistic region. There are entries on a wide range of languages which include Russian, French, Arabic, Japanese, Chinese and Finnish, and regions including Brazil, Canada and India. Many of the entries in this section are based on hitherto unpublished research. This section includes one new entry: Southeast Asian tradition. Drawing on the expertise of over ninety contributors from thirty countries and an international panel of consultant editors, this volume offers a comprehensive overview of translation studies as an academic discipline and anticipates new directions in the field.

**Josephus' Jewish War and its Slavonic Version** Henry Leeming,Kate Leeming,2018-11-26 This volume presents in English translation the Slavonic version of Josephus Flavius' Jewish War, long inaccessible to Anglophone readers, according to N.A. Meščerskij's scholarly edition, together with his erudite and wide-ranging study of literary, historical and philological aspects of the work, a textological apparatus and commentary. The synoptic layout of the Slavonic and Greek versions in parallel columns enables the reader to compare their content in detail. It will be seen that the divergences are far more extensive than those indicated hitherto.

**Contexts, Subtexts and Pretexts** Brian James Baer,2011-04-13 This volume presents Eastern Europe and Russia as a distinctive translation zone, despite significant internal differences in language, religion and history. The persistence of large multilingual empires, which produced bilingual and even polyglot readers, the shared experience of “belated modernity” and the longstanding practice of repressive censorship produced an incredibly vibrant, profoundly politicized, and highly visible culture of translation throughout the region as a whole. The individual contributors to this volume examine diverse manifestations of this shared translation culture from the Romantic Age to the present day, revealing literary translation to be at times an embarrassing reminder of the region’s cultural marginalization and reliance on the West and at other times a mode of resistance and a metaphor for cultural supercession. This volume demonstrates the relevance of this region to the current scholarship on alternative translation traditions and exposes some of the Western assumptions that have left the region underrepresented in the field of Translation Studies.

*Translation and the Westernization of Eighteenth-Century Russia* Sergey Tyulenev,2012-09-03 The book considers the role of translation in the reformation of Russia along Western European lines in the eighteenth century. Translation is presented as a key social-systemic factor in the dynamics of the relationship between the system and its environment — between Russia and Western Europe. The author draws on contemporary historiography and social theory, primarily Niklas Luhmann’s social systems theory, but also concepts of other sociologists and historians, such as Gumilev, Bourdieu, Habermas, Jameson, amongst others. This allows the author to conduct a comprehensive analysis of social involvements of translation. Importantly, this case study aspires to pave the way for research of the social role of translation of universal validity.

*Virgil and his Translators* Susanna Braund,Zara Martirosova Torlone,2018-10-04 This is the first volume to offer a critical overview of the long and complicated history of translations of Virgil from the early modern period to the present day, transcending traditional studies of single translations or particular national traditions in isolation to offer an insightful comparative perspective. The twenty-nine essays in the collection cover numerous European languages - from English, French, and German, to Greek, Irish, Italian, Norwegian, Slovenian, and Spanish - but also look well beyond Europe to include discussion of Brazilian, Chinese, Esperanto, Russian, and Turkish translations of Virgil. While the opening two contributions lay down a broad theoretical and comparative framework, the majority conduct comparisons within a particular language and combine detailed case studies with in-depth contextualization and theoretical background, showing how the translations discussed are embedded in their own cultures and historical moments. The final two essays are written from the perspective of contemporary translators, closing out the volume with a profound assessment not only of the influence exerted by the major Roman poet on later literature, but also why translation of a canonical author such as Virgil matters, not only as a national and transnational cultural phenomenon, but as a personal engagement with a literature of enduring power and relevance.
