Green Screen David Ingram,2004 This is a study of Hollywood cinema and environmentalism. Ingram argues that Hollywood cinema has largely perpetuated romantic attitudes to nature and has played an important ideological role in the 'greenwashing' of ecological discourses.

Green Screen David Ingram,2000 This book combines film studies with environmental history and politics, aiming to establish a cultural criticism informed by 'green' thought. David Ingram argues that Hollywood cinema has largely perpetuated romantic attitudes to nature and has played an important ideological role in the 'greenwashing' of ecological discourses. The book accounts for the rise of environmental concerns in Hollywood cinema and explores the ways in which attitudes to nature and the environment are constructed in a number of movies. It is divided into three sections: Wilderness in Hollywood Cinema, Wild Animals in Hollywood Cinema, and Development and the Politics of Land Use.

Edie on the Green Screen Beth Lisick,2020-03-26 Fiction. California Interest. In late '90s San Francisco, Edie Wunderlich was the It girl, on the covers of the city's alt-weeklies, repping the freak party scene on the eve of the first dot-com boom. Fast-forward twenty years, and Edie hasn't changed, but San Francisco has. Still a bartender in the Mission, Edie now serves a seemingly never-ending stream of tech bros while the punk rock parties of the millennium's end are long gone. When her mother dies, leaving her Silicon Valley home to Edie, she finds herself mourning her loss in the heart of the Bay Area's tech monoculture, and embarks on a last-ditch quest to hold on to her rebel heart. New York Times bestseller Beth Lisick's first novel EDIE ON THE GREEN SCREEN chronicles Silicon Valley's rapidly changing culture with biting observational humor, an insider's wisdom, and disarming pathos, while asking, What comes after It?

Green Screen Glamour Photography Made Easy Jack Watson,2011 This is an essential book for all photographers and digital video professionals. Professional celebrity/glamour photographer Jack Watson shows new and old glamour/fashion photographers how to take their creative visions to a new level using FXhome PhotoKey 3 Pro(TM) keying software and a vivid imagination. Starting with a definitive description of green screen photography, he immerses you in this fascinating technology that allows you to create remarkable images with as little as a digital camera, green fabric screen, a beautiful model, and a favorite background image. While the focus is on digital still photography, the lighting setups and composition techniques are equally applicable to digital video photography. The book has almost 200 glamour image examples that Watson photographed against a green screen. Utilizing FXHome PhotoKey 3 Pro(TM) software, he shows you step by step how he created the book's photos by compositing them with amazing background images. Additionally, he shares his secrets and insight about creating most of the images in the book. The companion DVD is included with the print version of this book; however is not available for download with the electronic version. It may be obtained separately by contacting Atlantic Publishing Group at sales@atlantic-pub.com Atlantic Publishing is a small, independent publishing company based in Ocala, Florida. A Framework to Guide Selection of Chemical Alternatives National Research Council,Division on Earth and Life Studies,Board on Environmental Studies and Toxicology,Board on Chemical Sciences and Technology,Committee on the Design and Evaluation of Safer Chemical Substitutions: A Framework to Inform Government and Industry Decisions,2014-10-29 Historically, regulations governing chemical use have often focused on widely used chemicals and acute human health effects of exposure to them, as well as their potential to cause cancer and other adverse health effects. As scientific knowledge has expanded there has been an increased awareness of the mechanisms through which chemicals may exert harmful effects on human health, as well as their effects on other species and ecosystems. Identification of high-priority chemicals and other chemicals of concern has prompted a growing number of state and local governments, as well as major companies, to take steps beyond existing hazardous chemical federal legislation. Interest in approaches and policies that ensure that any new substances substituted for chemicals of concern are assessed as carefully and thoroughly as possible has also burgeoned. The overarching goal of these approaches is to avoid regrettable substitutions, which occur when a toxic chemical is replaced by another chemical that later proved unsuitable because of persistence, bioaccumulation, toxicity, or other concerns. Chemical alternative assessments are tools designed to facilitate consideration of these factors to assist stakeholders in identifying chemicals that may have the greatest likelihood of harm to human and ecological health, and to provide guidance on how the industry may develop and adopt safer alternatives. A Framework to Guide Selection of Chemical Alternatives develops and demonstrates a decision framework for evaluating potentially safer substitute chemicals as primarily determined by human health and ecological risks. This new framework is informed by previous efforts by regulatory agencies, academic institutions, and others to develop alternative assessment frameworks that could be operationalized. In addition to hazard assessments, the framework incorporates steps for life-cycle thinking - which considers possible impacts of a chemical at all stages including production, use, and disposal - as well as steps for performance and economic assessments. The report also highlights how modern information sources such as computational modeling can supplement traditional toxicology data in the assessment process. This new framework allows the evaluation of the full range of benefits and shortcomings of substitutes, and examination of tradeoffs between these risks and factors such as product functionality, product efficacy, process safety, and resource use. Through case studies, this report demonstrates how different users in contrasting decision contexts with diverse priorities can apply the framework. This report will be an essential resource to the chemical industry, environmentalists, ecologists, and state and local governments.

The Green Screen Blake Madden,2015-01-16 American teenager Floyd longs for a movie life of fast action, fiery romance, and happy endings. But two years in a South African high school have played more like a straight-to-video dud than a cinema classic. His so-called friends have turned on him. He's been dumped...and mugged. Fed up on his last day in the country, Floyd swears he'll manufacture the happy ending he's always wanted, or die trying. Following a last-day script that is part Ferris Bueller's Day Off and part Fear and Loathing in Las Vegas, he'll recruit his hapless sidekick Thibault to help him weather bad drugs, engage in gratuitous vomiting and Star Wars references, befriend aliens and hyenas (he thinks), and find a mythical Jimi Hendrix cassette...if they can escape the tragic ending Floyd's foreign film keeps hinting at.

Video and Filmmaking as Psychotherapy Joshua L. Cohen,J. Lauren Johnson,Penny Orr,2015-02-11 While film and video has long been used within psychological practice, researchers and practitioners have only just begun to explore the benefits of film and video production as therapy. This volume describes a burgeoning area of psychotherapy which employs the art of filmmaking and digital storytelling as a means of healing victims of trauma and abuse. It explores the ethical considerations behind this process, as well as its cultural and developmental implications within clinical psychology. Grounded in clinical theory and methodology, this multidisciplinary volume draws on perspectives from anthropology, psychiatry, psychology, and art therapy which support the use and integration of film/video-based therapy in practice.

Universal Access in Human-Computer Interaction: Applications and Services for Quality of Life Constantine Stephanidis,Margherita Antona,2013-07-01 The three-volume set LNCS 8009-8011 constitutes the refereed proceedings of the 7th International Conference on Universal Access in Human-Computer Interaction, UAHCI 2013, held as part of the 15th International Conference on Human-Computer Interaction, HCII 2013, held in Las Vegas, USA in July 2013, jointly with 12 other thematically similar conferences. The total of 1666 papers and 303 posters presented at the HCII 2013 conferences was carefully reviewed and selected from 5210 submissions. These papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. The papers accepted for presentation thoroughly cover the entire field of human-computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The total of 230 contributions included in the UAHCI proceedings were carefully reviewed and selected for inclusion in this three-volume set. The 78 papers included in this volume are organized in the following topical sections: universal access to smart environments and ambient assisted living; universal access to learning and education; universal access to text, books, ebooks and digital libraries; health, well-being, rehabilitation and medical applications; access to mobile interaction.
