The Gospel of Father Joe Greg Barrett,2008-06-20 Three decades ago in a cordoned-off corner of the developing world an angry Catholic priest armed only with pencil, paper, and crayons, declared a revolution. From a shanty school shared with Buddhists and Muslims in Bangkok's squatter slums, Father Joe Maier began his advance on abject poverty. Today, his Human Development Foundation and Mercy Centre charity is responsible for thirty-two preschools that have taught more than twenty thousand children how to read and write. Despite the crippling neglect found in impoverishment, he is raising international scholars and injecting a sense of purpose into shantytowns and squatter camps that used to have neither.

Clan Greg Barrett,Stephen Page,2013-11-01 2014 marks Bangarra Dance Theatre's twenty-fifth year. Clan honours this milestone and those people who have inspired Bangarra over the years. By having its feet in both worlds of old and modern, Bangarra creates contemporary theatrical experiences that are influenced by timeless stories and customs. The land shapes the people, the people shape the language, the language shapes the songs, and the songs then determine the dance - and the spirit flows through it all. This is the Bangarra Dance Theatre. Dancers communicate so profoundly with the mere flex of a foot or hand, a shift of focus, the roll of a head, the transfer of weight within their body. As the dancers move in and out of the space and light there is a momentum and energy, even with the smallest of steps. Greg Barrett and Stephen Page in a unique collaboration have beautifully and skilfully given shape to, and recorded, these magical, ephemeral moments. Clan's intimate and dramatic collection of photographs capture the personal, the professional and the sacred moments of artistic expression.

The White Father Julian Mitchell,2013-09-17 '[The White Father] was to be a State of the Nation novel, about the end of Empire, contrasting the last generation of men who'd served it, and the new one which was just breaking out from the long dullness of the post-war years, but didn't really know where it was going...' Julian Mitchell, from his new Preface Mitchell's fourth novel, published in 1964, earned him both the John Llewellyn Rhys Prize and the Somerset Maugham Award. Its protagonist Hugh Shrieve is District Officer in charge of the Ngulu, a small tribe in an African colony on the verge of independence. Fearing 'his' tribe will be overlooked in the politics of a constitutional conference set to take place in London, Hugh returns to England for the first time in years. But there he soon feels lost in his own country.

When the Balls Drop Brad Garrett,2015-05-05 A refreshingly candid and wickedly funny look at life's second half from Everybody Loves Raymond TV sitcom star and three-time Emmy Award-winning comic Brad Garrett. In this no-holds-barred book of comedic and personal essays, Brad Garrett divulges his hilarious-and irreverently honest-experiences with the many challenges and ultimately joys of middle age, as he advises us on how to best navigate the dreaded "second half" of life. Ranging in topics from genetics to genitals, sex to stereotypes, and alimony to addiction, Brad leaves no stone unturned in this raw, laugh-out-loud look at getting older. With pieces such as "No Scales in Heaven," in which Brad points out the essential pointlessness of overthinking diet and exercise, and "Celebrating Your E.D. (erectile dysfunction) During Your Mid-Life Crisis," the star comedian encourages you to forget the overwhelming concerns that accompany middle age and to welcome the laughs-even if you throw your back out doing it. Penned in the blunt, conversational, no-nonsense style that has cemented Brad's status as an icon in the comedy industry, this autobiographical book will help you accept that, no matter what, we all get old. So you might as well embrace it.

Broken Trust Samuel P. King,Randall W. Roth,2006-01-01 Princess Bernice Pauahi Bishop was the largest landowner and richest woman in the Hawaiian kingdom. Upon her death in 1884, she entrusted her property--known as Bishop Estate--to five trustees in order to create and maintain an institution that would benefit the children of Hawai'i: Kamehameha Schools. A century later, Bishop Estate controlled nearly one out of every nine acres in the state, a concentration of private land ownership rarely seen anywhere in the world. Then in August 1997 the unthinkable happened: Four revered kupuna (native Hawaiian elders) and a professor of trust-law publicly charged Bishop Estate trustees with gross incompetence and massive trust abuse. Entitled Broken Trust, the statement provided devastating details of rigged appointments, violated trusts, cynical manipulation of the trust's beneficiaries, and the shameful involvement of many of Hawai'i's powerful. No one is better qualified to examine the events and personalities surrounding the scandal than two of the original Broken Trust authors.Their comprehensive account together with historical background, brings to light information that has never before been

made public, including accounts of secret meetings and communications involving Supreme Court justices.

Twelve Feet Tall Tony Ward,2015-11-19 Ireland may be a powerhouse in international rugby in 2015, with its club teams of Leinster, Munster and Ulster perennially performing brilliantly in Europe, but to many people of a certain age the late 1970s and early 1980s were a golden period, too. Even though the sport was thrillingly amateurish in spirit as well as organisation, their most famous club win, arguably, was a thrilling performance from a Munster team led by Tony Ward who defeated the mighty All Blacks in 1979 at Thormond Park - ranked as a classic and still the only time an Irish team have beaten the Kiwis. Ireland would then enjoy their first Triple Crown success for thirty-three years in 1982 with Ward jostling with the other great Irish fly-half, Ollie Campbell, to lead the team. Ward was a mercurial talent. Much like the maligned Danny Cipriani today, his self-belief and unique way of playing the game he wanted his team to, marked him out as a rare talent. In the days of limited internationals, and few far-flung tours, he would only amass nineteen caps for his country, as well as single a tour of South Africa with the British and Irish Lions in 1980. Although the Lions lost the series 1-4, Ward would set the record for a Lion, scoring 18 points in a Test, which still stands today. He will now tell his story, of the triumphs and disappointments, as well as the great friendships he made, and greatest matches he played in. He will equally be forthright in what he thinks of the game today, and how Ireland will fair in the Rugby World Cup and beyond to the Six Nations in 2016. For any fan of Irish rugby, at whatever level you play, this is an elegiac memoir to cherish.

Bullyocracy Donald Jeffries,2020-01-03 Bestselling author Donald Jeffries turns his critical eye onto the topic of bullying to show how teachers, principals, and other school officials invariably side with the bullies in the most egregious cases, instead of protecting the victims. He also shows how many so-called anti-bullying activists and nearly all the professional experts excuse bullying and in fact laud sociopathic behavior in general. As Jeffries demonstrates, this curious phenomenon is due to the power and influence of the social hierarchy, and it revolves to a great extent around the enduring popularity of sports. Jeffries talked to parents who'd battled a system that logically should have been working for them, some of whom lost a child to bullycide, the term for children who kill themselves over bullying. His investigation into what has become one of the most talked about issues in America is as explosive and controversial as anything he has written.

The Folklore of the Freeway Eric Avila,2014-05-01 When the interstate highway program connected America's cities, it also divided them, cutting through and destroying countless communities. Affluent and predominantly white residents fought back in a much heralded "freeway revolt," saving such historic neighborhoods as Greenwich Village and New Orleans's French Quarter. This book tells of the other revolt, a movement of creative opposition, commemoration, and preservation staged on behalf of the mostly minority urban neighborhoods that lacked the political and economic power to resist the onslaught of highway construction. Within the context of the larger historical forces of the 1960s and 1970s, Eric Avila maps the creative strategies devised by urban communities to document and protest the damage that highways wrought. The works of Chicanas and other women of color—from the commemorative poetry of Patricia Preciado Martin and Lorna Dee Cervantes to the fiction of Helena Maria Viramontes to the underpass murals of Judy Baca—expose highway construction as not only a racist but also a sexist enterprise. In colorful paintings, East Los Angeles artists such as David Botello, Carlos Almaraz, and Frank Romero satirize, criticize, and aestheticize the structure of the freeway. Local artists paint murals on the concrete piers of a highway interchange in San Diego's Chicano Park. The Rondo Days Festival in St. Paul, Minnesota, and the Black Archives, History, and Research Foundation in the Overtown neighborhood of Miami preserve and celebrate the memories of historic African American communities lost to the freeway. Bringing such efforts to the fore in the story of the freeway revolt, *The Folklore of the Freeway* moves beyond a simplistic narrative of victimization. Losers, perhaps, in their fight against the freeway, the diverse communities at the center of the book nonetheless generate powerful cultural forces that shape our understanding of the urban landscape and influence the shifting priorities of contemporary urban policy.

For example, How could two motorcyclists collide head-on in a broad day light and die? He has recommended 15 Commandments for both motorists and non-motorists to observe. In Montgomery County, pedestrians and teen drivers fatalities got the most attentionsending policymakers and traffic engineers to work. Driving in America today is overwhelmingrapid population growth, new technologies and equipment in vehicles and over 150 million registered vehicles on the roadways, impact of alcohol and drugs.
