Late Classical, Hellenistic, and Roman Pottery John W. Hayes, Kathleen Warner Slane, 2022-09-02 This volume presents the Late Classical through Roman pottery from the University of Chicago excavations at Isthmia (1952-1989). In a series of three chapters-on the Late Classical and Hellenistic pottery, the Roman pottery, and the pottery from the Palaimonion-a general discussion is followed by a catalog presenting datable contexts and then by a catalogue of other noteworthy pottery. Appendixes discuss the stratigraphy of the Palaimonion and observations on new and previously published lamps. Amphora stamps are the focus of a further appendix, followed by a catalogue of the Slavic and Byzantine pottery found in the sanctuary area. Although the pottery is sometimes fragmentary, the range of materials over this thousand-year period is typical of Corinthian sites. The finds presented here provide critical information about the history of the Panhellenic sanctuary of Poseidon and the ritual activities that took place there.

Terracotta Lamps II Birgitta Lindros Wohl, 2017-07-01 This volume discusses more than 400 lamps and lamp fragments dating from the Late Archaic to the Byzantine period found over several decades at the Sanctuary of Poseidon at Isthmia. These come from excavations undertaken by UCLA from 1967 to 1987 under the direction of Paul Clement and since then by OSU under the direction of Timothy Gregory. In addition to a detailed catalogue, the volume presents a commentary on the types of lamps used at the sanctuary that enriches our knowledge of their manufacture, use, and artistic evolution over time. The lamps also contribute to a better understanding of the site, as they reflect the various historical, political, and religious vicissitudes at Isthmia, and in the Corinthia in general, over the centuries.

Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including

both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the

Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents.
