**Green Like God** Jonathan Merritt,2010-04-21 In GREEN LIKE GOD, Jonathan Merritt gently and insightfully observes that the bible has a lot to say about environmental problems like unclean water, material waste, over consumption, air pollution, and global warming. In fact, Jonathan writes that in the book of Genesis, God went green and never looked back. Relying heavily on scripture, Jonathan gives the case for green living, but not because it's trendy and hip. Rather, it's part of living rightly as a believer. It's an act of obedience to our Creator-God. GREEN LIKE GOD is at once practical, prescriptive, and conversational in tone. The author looks at a number of trends with tips to help the reader wade into the world of creation care living. An appendix includes suggestions of things we can do. In addition, the book includes interviews with everyday Christians to tell the story of the journey to environmental stewardship among people of faith. This is the book that Christians are longing for and need today. Written for a new generation of Christians who are struggling with how to deal with the important issue of creation-care and green living, GREEN LIKE GOD is both highly relevant and theologically sound. It will have a profound impact on how Christians live and interact with the world today.

These time-tested design principles provide a basic framework for developing a visual literacy. **Cartography and Art** William Cartwright,Georg Gartner,Antje Lehn,2009-02-26 This book is the fruition of work from contributors to the Art and Cartography: Cartography and Art symposium held in Vienna in February 2008. This meeting brought together cartographers who were interested in the design and aesthetics elements of cartography and artists who use maps as the basis for their art or who incorporate place and space in their expressions. The outcome of bringing together these like minds culminated in a wonderful event, spanning three evenings and two days in the Austrian capital. Papers, exhibitions and installations provided a forum for appreciating the endeavors of artists and cartographers and their representations of geography. As well as indulging in an expansive and expressive occasion attendees were able to reflect on their own work and discuss similar elements in each other's work. It also allowed cartographers and artists to discuss the potential for collaboration in future research and development. To recognise the significance of this event, paper authors were invited to further develop their work and contribute chapters to this book. We believe that this book marks both a significant occasion in Vienna and a starting point for future collaborative efforts between artists and cartographers. The editors would like to acknowledge the work of Manuela Schmidt and Felix Ortig, who undertook the task of the design and layout of the chapters.
