My Growth Journal Marlene Shiple,2018-01-20 This book -- My Growth Journal: The Art of Journaling for Personal Growth! -- is a journal specifically designed as a guide to your individual growth. Since your subconscious mind creates what you are thinking -- in the manner in which you are thinking it -- it is vital that you set positive goals for your personal growth. This journal aims at helping you create a growth mindset. Journaling is an instrument of creative expression. It allows you, the reader, to write your private thoughts and ideas, feelings, insights, areas of awareness, etc. It is intended as a safe place for expressing yourself. It allows you the opportunity to record your fondest hopes, aspirations, feelings, and dreams ... and your journey on your path to Growth. Regular, consistent use of My Growth Journal: The Art of Journaling for Personal Growth! creates a practice that can lead to major growth and contentment. In addition, it can provide a pathway to self-understanding. Consistency in using your journal can provide the chance to observe -- over time -- patterns in your life that haven't been working well and, thus, need to be changed; e.g., the habits of disorganization and procrastination. Keeping a journal-routine can also allow reflection about what IS working ... and, in addition, what needs to be refined and continued; e.g., the action practices that encourage personal growth. Some of the amazing outcomes of journaling include: * crystallizing growth goals* releasing pain from stagnation* soul-deep contentment from growth success * increasing awareness of areas for additional growthTo get solid benefits from your journaling practice, it is important to be accepting of your writing. It is crucial to dismiss the judge and jury -- to allow a non-judgmental attitude toward your written-expression. It is advisable to view your journal as a work-in-progress, a tool -- not as a destination, but, rather, as a journey-through-life. When you use this journal -- My Growth Journal: The Art of Journaling for Personal Growth! -- prepare for adventure. Get ready for an Adventure into the realms of Growth Awareness and Focused Striving and Self-discovery. Then, proceed to go out and live Your Growth Adventure!

The Personal Growth Journal Emily Calabresi,2021-02-23 Have you ever found yourself staring at a blank page in your journal wondering what to write about? Then you need to keep reading... We've all been there...you have a brand new journal and are so excited to start writing in it. You sit down and open it up just to be utterly intimidated by that first blank page staring back at you. You have no idea what to write or how to get started. Don't worry this book can help you fill up all those blank pages AND help you start accessing your full potential along the way. I love journaling and have been journaling for years now after staring at my own blank journals sitting in my bedroom bookcase year after year. Though it wasn't until I was in my late 20s in the midst of a separation from my husband, deeply unhappy and looking for answers anywhere I could find them, that I found my way back to journaling. Journaling helped me ... A LOT. Both to process all the emotions I was going through and with my overall personal growth. With journaling not only can you experience the daily benefits of consciously directing your thoughts to accomplish your goals but I've found that even more insightful has been what you learn by reviewing your journals at the end of the year. You are able to proudly witness first hand your personal growth throughout the year with the story of your life told by you in your own voice. I know how beneficial journaling has been for my life and can be for yours and want to share that with you. Journaling can boost your mood, increase your immunity, make you happier, improve your problem-solving, enhance your sense of well-being, improve your memory, reduce anxiety and stress, increase your emotional awareness, improve your mental wellness, and increase your focus just to name a few. I promise journaling will help you improve your life and the time you invest into your journal and your personal growth will be well worth it. The more you use your journal the more you will enjoy it, make new discoveries about yourself, accomplish your goals, understand your emotions and find solutions to your problems. Inside this book you'll discover: Quick and easy journaling techniques for self-improvement How to set goals you'llactually follow in your journal The secret to emotional health and happiness
