

Guardtek Inspector

United States. Department of Homeland Security. Office of Inspector General

The Inspectors General of the United States Army, 1777-1903 David A. Clary, Joseph W. A. Whitehorne, 1987 A study of the establishment of inspection practices in the United States Army told chronologically, in large part through the experiences of officers assigned to the inspection service. The record of the inspectorate illustrates those daily concerns that influenced the institutional development of the Inspector General Corps as a whole.

Audit of Airport Security, 1993 The official, highly controversial, highly critical, much publicized audit of the Federal Aviation Admin. (FAA) to evaluate the effectiveness of the FAA security program in monitoring of aircraft, passengers, and property in airport operating areas and terminals. Originally issued as a classified document, this is the edited copy released under a FOIA request.

The Inspectors General of the United States Army Joseph W. A. Whitehorne, 2015-01-22 The Inspectors General of the United States Army, 1903-1939, the companion volume to Joseph W. A. Whitehorne's earlier study of inspection practices and experiences during the formative years from 1777 to 1903, continues the saga of the Inspector General's Department and its corps of inspectors during the growth years from 1903 to 1939. This volume is a tribute to the exceptional group of dedicated soldiers who sustained a proud tradition, and those who carry it on will find much inspiration in reading about how the inspection system has evolved and why things are done the way they are.

Physical Security and the Inspection Process Carl Roper, 1997 Physical Security and The Inspection Process illustrates the basic concepts and procedures for development, implementation, and management of a physical security inspection program. It provides personnel with a model inspection procedure that can be specifically tailored to meet any company's reasonable minimum standards. With detailed checklists broken down by security subject area, the reader will be able to develop site-specific checklists to meet organizational needs. Physical Security and the Inspection Process is an important reference for security managers, physical security inspection team chiefs, team members, and others responsible for physical security. C. A. Roper is a security specialist and lead instructor with the Department of Defense Security Institute, where he provides general and specialized security training throughout the US, in Germany, and in Panama. Previously, Mr. Roper worked for the assistant chief of staff for intelligence, Department of the Army, and the Defense Communications Agency. He is a counter-intelligence technician with the US Army Reserve, was activated for Desert Shield/Desert Storm, and has provided training and other support to various

operations with the Army, Navy, and foreign national forces. The most comprehensive physical security inspection checklist available A model inspection procedure that can be specifically tailored to any organization Provides practical guidelines for ensuring compliance with standards of effectiveness

Aviation Security Jerald E. Levine,2009-05 This report was written in response to House Report 110-181, accompanying H.R. 2638, the Department of Homeland Security Appropriations Bill, 2008. This is a report on the operation of the Transportation Security Inspector (TSI) program, including the size of the TSI workforce, the roles and responsibilities of TSIs, and the extent to which Transportation Security Admin. has a reasonable basis for determining the size of the workforce needed to achieve inspection goals. Self-Inspection Handbook for Nisp Contractors Cdse,2016-05-23 Contractors shall review their security system on a continuing basis and shall also conduct a formal self-inspection at intervals consistent with risk management principles. NISPOM The National Industrial Security Program Operating Manual (NISPOM) requires all participants in the National Industrial Security Program (NISP) to conduct their own security reviews (self-inspections). This Self-Inspection Handbook is designed as a job aid to assist you in complying with this requirement. It is not intended to be used as a checklist only. Rather it is intended to assist you in developing a viable self-inspection program specifically tailored to the classified needs of your cleared company. You will also find we have included various techniques that will help enhance the overall quality of your self-inspection. To be most effective it is suggested that you look at your self-inspection as a three-step process: 1) pre-inspection 2) self-inspection 3) post-inspection This printed version includes plenty of notes pages for gathering data from inspections and interviews and performing analysis.

wonder how to prepare for the annual Defense Counterintelligence and Security Agency (DCSA)? Well this book is a step by step manual on how to conduct a self-assessment and prepare for the review. The National Industrial Security Program Operating Manual (NISPOM) requires all participants in the National Industrial Security Program (NISP) to conduct their own self-inspections to include an insider threat self-assessment. This Self-Inspection Handbook is designed as a job aid to assist you in complying with these requirements. It is not intended to be used as a checklist only; rather, it is intended to assist you in developing a viable self-inspection program specifically tailored to the classified needs of your cleared company. You will also find we have included various techniques that will help enhance the overall quality of your self-inspection. Each topic of the self-inspection crosswalks against the NISPOM to ensure all required areas are addressed. This book is full of inspection topics, questions and ideas to improve your security program. It makes a great training aide for security professionals and helps cleared defense contractors remain successful. Purpose of a Self-Inspection Self-inspections provide insight into your security program. It provides you an opportunity to look at the security procedures established at your company and validate that they not only meet NISPOM requirements but they are being effectively implemented by your cleared employees. This is your chance to take an honest look at what your company is doing to protect our national security: to see what is working, what is working well and what you may need to change. Remember you should not be conducting your self-inspection just because the NISPOM requires you to. You should be conducting your self-inspection to ensure the continued protection of our national security, our country, its citizens, and most importantly our military service men and women. This book provides and excellent way to set up your security program, conduct a risk assessment and check results. Click the Buy Now button and get started.
