The bulk of the book is made up of well-organized, accessible sections covering such topics as symptoms for use in diagnosis, corrective measures for emergencies and other easily diagnosed complaints, and a detailed listing of sixty homeopathic remedies and their uses. The Homeopathy Bible Ambika Wauters,2007-04 Like cures like” is a natural principle first expounded by Hippocrates, the ancient founder of medicine. Centuries later, inspired by that idea, German physician Samuel Hahnemann found that some of the very substances that cause illness could also be used as cures--a discovery that led to the holistic healing system known as homeopathy. And the procedures he developed keep growing in popularity. Those who want to understand and apply homeopathy now have a comprehensive and authoritative reference that recounts its history, explains its enlightened principles, and--best of all--includes a full A-to-Z encyclopedia of remedies. So it's simple to find safe, dependable treatments for colds, digestive ailments, skin irritation, sensory and nervous complaints, and many other diseases and conditions.

The Family Health Guide to Homeopathy Barry Rose,1995 From the Publisher: Safe, gentle, and effective--these three words sum up why the study and practice of homeopathy has enjoyed steadily increasing popularity during the last decade. While pharmaceuticals merely suppress symptoms, often with unpleasant side effects, homeopathy works with the body's own defenses, whether alone or combined with more traditional medicines. The Family Health Guide to Homeopathy offers clear, authoritative guidelines for diagnosing and treating over 200 common ailments. Each area of the body is covered in detail with separate sections on first aid, dealing with emergencies, pregnancy, health problems in children, and infectious diseases. Beautifully presented and delightfully illustrated, with a foreword by Sir Yehudi Menuhin, this is an indispensable reference for every family library.

The Complete Guide to Homeopathy Andrew Lockie,Nicola Geddes,1995 The Complete Guide to Homeopathy reveals the key principles of homeopathy, including the way we are categorized into constitutional types according to our physical and emotional characteristics.
