Preparing for Blockade 1885-1914 Stephen Cobb,2016-04-08 Today, the First World War is remembered chiefly for the carnage of the Western Front, but at the time the Royal Navy's blockade of Germany was a more frequent source of debate. For, even at a time of war, there were influential voices in Britain who baulked at a concept of economic warfare that hindered the free passage of goods on the high seas, and brought German society to the brink of famine. To further our understanding of these issues, this book looks at the background to the blockade, and the effects of its implementation in 1914. It argues that there was a widely shared, but largely unwritten, strategic culture within British naval circles which accepted that in a war with a major maritime power the British response would be to attack enemy trade. This is demonstrated by the fact that from at least the late 1880s the Royal Navy planned for the use of armed merchantmen to enforce an economic blockade of an enemy. This it did by entering into detailed arrangements with major British shipping companies for the design and subsidy of liners with the potential for use as merchant cruisers, and stockpiling their prospective armament. In line with the contemporary, Corbettian, view that seapower depends upon free communications, the book concludes by asserting that the primary role of the Grand Fleet in the First World War was to guarantee the ability of the merchant cruisers on the Northern Patrol to interdict German seaborne trade, rather than to engage in large set-piece battles.

Story Dramas for Grades 4-6 Gretchen Courtney,Sarah Jossart,1998 The teacher, playing the role of a park ranger, takes an accident report to find out what students know about that nasty fall taken yesterday by Humpty Dumpty. Developing similar strategies for engaging students imaginations, these two books encourage students to respond to stories by discussing and analyzing story elements as preparation for writing or acting out scenes. In addition to each books step-by-step directions for staging 30 or more story dramas based on specific popular books, both books train teachers to develop dramas for their own favorite literature. Fun with Poems Irene Yates,2000 Fun with Poems contains over 70 poems specially written by well-known poets such as Moira Andrew, Gina Douthwaite, Irene Yates and Trevor Harvey. In addition the book contains some traditional poems so as to provide complete coverage of all types of poetry required by the National Literacy Strategy. All the poems may be photocopied, so you can make multiple copies, overhaead transparencies or even enlarge them to make your own big book! The detailed teacher's notes will enable you to make the most of the poems, but most of all, we hope you and your pupils will enjoy this wonderful collection!

Handbook of Arts-Based Research Patricia Leavy,2019-02-27 The handbook is heavy on methods chapters in different genres. There are chapters on actual methods that include methodological instruction and examples. There is also ample attention given to practical issues including evaluation, writing, ethics and publishing. With respect to writing style, contributors have made their chapters reader-friendly by limiting their use of jargon, providing methodological instruction when appropriate, and offering robust research examples from their own work and/or others.--

The Poisoned City Anna Clark,2018-07-10 When the people of Flint, Michigan, turned on their faucets in April 2014, the water pouring out was poisoned with lead and other toxins. Through a series of disastrous decisions, the state government had switched the city's water supply to a source that corroded Flint's aging lead pipes. Complaints about the foul-smelling water were dismissed: the

residents of Flint, mostly poor and African American, were not seen as credible, even in matters of their own lives. It took eighteen months of activism by city residents and a band of dogged outsiders to force the state to admit that the water was poisonous. By that time, twelve people had died and Flint's children had suffered irreparable harm. The long battle for accountability and a humane response to this man-made disaster has only just begun. In the first full account of this American tragedy, Anna Clark's *The Poisoned City* recounts the gripping story of Flint's poisoned water through the people who caused it, suffered from it, and exposed it. It is a chronicle of one town, but could also be about any American city, all made precarious by the neglect of infrastructure and the erosion of democratic decision making. Places like Flint are set up to fail—and for the people who live and work in them, the consequences can be fatal.
