**Giving Up the Gun** Noel Perrin, 1979 Lord Hideyoshi, the regent of Japan at the time, took the first step toward the control of firearms. It was a very small step, and it was not taken simply to protect feudal lords from being shot at by peasants but to get all weapons out of the hands of civilians. He said nothing about arms control. Instead, he announced that he was going to build a statue of Buddha that would make all existing statues look like midgets. It would be so enormous (the figure was about twice the scale of the Statue of Liberty), that many tons of iron would be needed just for the braces and bolts. Still more was required to erect the accompanying temple, which was to cover a piece of ground something over an eighth of a mile square. All farmers, ji-samurai, and monks were invited to contribute their swords and guns to the cause. They were, in fact, required to. -- from publisher description.

**Guns in America** Donald J. Campbell, 2021-08-09 This work provides readers with an authoritative resource for understanding the true extent and nature of gun violence in America, examining the veracity of claims and counterclaims about mass shootings, gun laws, and public attitudes about gun control. This particular volume examines beliefs, claims, and myths about gun violence, gun laws, and gun rights in the United States. Issues covered in the book include trends in firearm violence, mass shootings, the impact of gun ownership on rates and types of crime, regulations and Supreme Court decisions

regarding gun control and the Second Amendment, and the activities and influence of organizations ranging from the National Rifle Association to Everytown for Gun Safety. All of these topics are examined in individualized entries, with objective responses grounded in up-to-date evidence.
