

# Gun Royal

Lauren Gardner

The King's Royal Rifle Corps Chronicle ,1908

**Holland and Holland** Donald Dallas,2014-12-03 In 1885, Holland & Holland advertised their new trademark, 'The Royal', intended to apply to their best guns and rifles only. 'Royal' guns and rifles have been in production since that date, symbolizing excellence. This brand new edition brings the history of the company up to date. \* Written with the full approval and cooperation of Holland & Holland, this is the authoritative history of the company \* Appendices cover all 51 patents, the dating of Holland serial numbers from 1855 to the present day, illustrations of trade labels, and the development of the rifle cartridges, including the .700 Nitro Express. \* Beautifully illustrated throughout with new photographs \* Foreword by Daryl Greatrex, Managing Director of Holland & Holland

The King's Royal Rifle Corps Chronicle Great Britain. Army. King's Royal Rifle Corps Regiment, 1881-1958,1902

Field Gun Jack Versus The Boers Tony Bridgland,1997-09-05 War broke out in 1899 between the British and South African settlers of Dutch descent, the Boers, or Afrikaners as they are usually called today. Despite previous clashes, the British seriously underestimated their opponents. Although dressed in battered civilian clothes and made up entirely of volunteers, Boer troops were all mounted on horses and had very up-to-date German rifles. An even more unpleasant surprise than the mounted riflemen were the Boer artillery units. They were the only Boer troops to wear uniforms, were organized on a full-time basis, and were equipped with excellent German field pieces. The British artillery soon found itself out-gunned and out-ranged. Some British officers, however, were capable of adapting to the new conditions in South Africa. Royal Naval vessels anchored off the Cape had powerful, long-range cannons. It was decided to try bringing these guns ashore and mounting them on improvised carriages for field use. Naval infantry brigades had served in some previous campaigns, and proved capable of accompanying the army as gun crews, their straw hats and naval leggings identifiable in many wartime photographs. Although they were depicted in many wartime drawings and photographs, no serious study of the naval artillery has ever been done. Tony Bridgland has spent many years researching the topic and has produced a study of the technical problems involved in this unique operation, as well as a colourful narrative of naval personnel pressed into hazardous service far from the sea.

The Gatling Gun Peter Smithurst,2015-05-20 A unique chapter in the history of firearms, the multibarrel, hand-cranked Gatling gun was one of the first practical rapid-fire weapons ever to be used in battle. It changed warfare by introducing the capability to project deadly, high-intensity fire on the battlefield, and portended the devastation that automatic weapons would wreak in World War I. During its 50-year career, it saw widespread service with US, British, and other forces on a host of battlefields through conflicts in Zululand and the American West, to the Spanish-American War. Although it saw widespread use in the hands of industrialized nations against various groups of indigenous native warriors, it was famously left behind by Custer at the battle of the Little Bighorn, where some argue it could have made all the difference. Featuring full-colour artwork plus contemporary and close-up photographs, this engaging study investigates the origins, development, combat use, and lasting influence of the formidable Gatling gun.

Sniper Rifles Martin Pegler,2011-03-15 A technical outline of the history of the sniper rifle, from its introduction in warfare during the Napoleonic wars, through the US Civil War to its current apogee as the most frequently used combat rifle in Iraq and Afghanistan. This book details the development of ammunition, different weapons types including single shot, magazine loading and semi-automatic, as well as the introduction and use of optical sights. Martin Pegler, a leading expert on the history of sniping and former Senior Curator of Firearms at the Royal Armouries Leeds, also details the current advances in technology, such as laser range-finding sights and night vision devices. Using first-hand accounts, the book brings the dangerous world of the sniper to life revealing their training and concealment techniques as well as their mastering of their weapon of choice.

**The Field Gun for India. A Paper Read at the Royal United Service Institution** Henry Hamilton MAXWELL,1870

*The Pattern 1853 Enfield Rifle* Peter Smithurst,2011-07-20 The Pattern 1853 Enfield Rifle was the first rifled firearm issued to every soldier in the British Army, and gave the infantry a revolutionary increase in firepower. First issued in 1853, the Enfield proved itself worthy during both the Crimean War and the Indian Mutiny, where its long range, durability, and interchangeable parts made it a perfect campaign rifle. However, it was during the American Civil War that the Enfield saw the greatest use, with over a million rifles being sold to the armies of both the North and South. This title takes an in-depth look at the design, the history, the mechanics, and the use of one of the most important firearms of the 19th century.

Manual of standing gun drill, for the Royal regiment of artillery T R. Griffiths,1854

*Treatise on the Construction and Manufacture of Ordnance in the British Service. Prepared in the Royal Gun Factory* Great Britain. War Office,1877

**The Annals of the King's Royal Rifle Corps** Lewis William George Butler,1923

**The Royal Gunroom at Sandringham** David J. Baker,1989-01-01

**Her Majesty's Top Gun: and the Decline of the Royal Navy** 'Sharkey' Ward,2020-08-27

**The Sterling Submachine Gun** Matthew Moss,2018-11-29 Designed by a motorcycle racer turned small-arms engineer, George Patchett, the submachine gun that eventually became known as the Sterling was developed during World War II. Some suggest it first saw action during Operation Infatuate with No. 4 Commando, before becoming fully adopted by the British Army in 1953 as the Sterling Machine Carbine (L2A1). It was centre stage for many of Britain's post-colonial conflicts from Malaya to Kenya and from Yemen to Northern Ireland. The silenced L34A1 Sterling-Patchett entered service in 1966 and first saw action deep in the jungles of Vietnam in the hands of the elite special forces of Australia, New Zealand and the United States during prisoner snatches and reconnaissance patrols. Employing first-hand accounts and painstaking technical analysis, this engaging account features carefully selected archive photography and specially commissioned colour artwork depicting the submachine gun that armed British and other forces for nearly 60 years.

**Manual of Standing Gun Drill, for the Royal Regiment of Artillery** T R Griffiths,2023-07-18 A detailed guide to the training and execution of gun drills for the Royal Regiment of Artillery. Includes diagrams and instructions covering both field and siege artillery. This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

**Six-Gun** Winter Travers,2020-12-22 No one ever messes with the Royal Bastards. At least they never have before. Spilled blood. A president gone rogue. A killer on the loose. Who is going to put all of the pieces back together?

**Six-gun** Winter Travers,2020

**Minutes of Proceedings [of The] Royal Artillery Institution** ,1858

**Machine Gun** Anthony Smith,2004-11-02 The machine gun is a uniquely American invention that revolutionized the way in which war was waged. This first look in more than 30 years at its social and historical impact also profiles the inventors responsible for the creation of the weapon. Martin's Press.

**Official Reports and description of the Royal York Gun-lock. Invented by G. D.** George DODD (Civil Engineer),1804

As recognized, adventure as well as experience not quite lesson, amusement, as capably as pact can be gotten by just checking out a ebook **Gun Royal** in addition to it is not directly done, you could bow to even more concerning this life, approximately the world.

We manage to pay for you this proper as without difficulty as simple artifice to get those all. We present Gun Royal and numerous ebook collections from fictions to scientific research in any way. in the midst of them is this Gun Royal that can be your partner.

## Table of Contents Gun Royal

1. Understanding the eBook Gun Royal
  - The Rise of Digital Reading Gun Royal
  - Advantages of eBooks Over Traditional Books
