Guns for Hire Tony Geraghty, 2008 Warfare & defence.

Helmut Newton, Archives de Nuit Helmut Newton, 1993 This book gets its name from 60 unusually dark and cryptic photographs. When Newton opened his Archives of the Night in the 90's, gloomy images emerged like flocks of bats. His famous Domestic Nudes appeared in pairs and tableaux together with sinister landscapes. Palace architecture was displayed next to morbid vanitas paintings as were bodies cut open from an anatomical museum of wax figures, placed on show alongside a portrait of a Dracula star putting on his make-up. With the Archives, Newton, who decided on the placement of these works himself, showed us his dark side. But at the same time, he was amusing himself with grey areas - also typical for Newton. The juxtaposition of seemingly disparate motifs created new and enigmatic relationships that oscillate between satire and poetry, brutality and gentleness, irony and pathos.

Guns for Hire Kersplebedeb, 2005 A collector's item from the anti-colonial struggles of the seventies. This text details how the US military and CIA colluded with *Solider of Fortune* magazine and others to send white mercenaries to fight for the Ian Smith regime in Rhodesia. While the nitty gritty details are mainly of historical significance, given the heavy reliance on contractors in Iraq and elsewhere, the broad outlines of this work remain relevant today. Originally published in the 1970s, this new introduction has an introduction written in 2005. From the introduction by Jon Dough: Although the CIA's mercenary operation for Zimbabwe had failed in the end, the machinery remains as a covert weapon that can be restarted and put to use in new imperialist interventions and wars in the Global South. That's why this investigative report still has useful knowledge for everyone tracking the bloody footprints of the u.s. empire.

Licensed to Kill Robert Young Pelton,2007-08-28 Robert Young Pelton first became aware of the phenomenon of hired guns in the War on Terror when he met a covert team of contractors on the Afghanistan/Pakistan border in the fall of 2003. Pelton soon embarked on a globe-spanning odyssey to penetrate and understand this shadowy world, ultimately delivering stunning insights into the way private soldiers are used. Enter a blood-soaked world of South African mercenaries and tribal fighters backed by ruthless financiers. Drop into Baghdad’s Green Zone, strap on body armor, and take a daily high-speed ride with a doomed crew of security contractors who dodge car bombs and snipers just to get their charges to the airport. Share a drink in a chic hotel bar with wealthy owners of private armies who debate the best way to stay alive in war zones. Licensed to Kill spans four continents and three years, taking us inside the CIA’s dirty wars; the brutal contractor murders in Fallujah and the Alamo-like sieges in Najaf and Al Kut; the Deep South contractor training camps where ex–Special Operations soldiers and even small town cops learn the ropes; the contractor conventions where macho attendees swap bullet-punctuated tales and discuss upcoming gigs; and the grim Central African prison where contractors turned failed mercenaries pay a steep price. The United States has encouraged the use of the private sector in all facets of the War on Terror, placing contractors outside the bounds of functional legal constraints. With the shocking clarity that can come only from firsthand observation, Licensed to Kill painstakingly deconstructs the most controversial events and introduces the pivotal players. Most disturbingly, it shows that there are indeed thousands of contractors—with hundreds more being produced every month—who’ve been given a license to kill, their services available to the highest bidder.
