## **SHADOW AND STINGER: Developing the AC119G/K Gunships in the Vietnam War**

William P. Head, 2007

**Helicopter Gunships** Wayne Mutza, 2010 U.S. Army aviators pioneered the first helicopter gun platforms in the early 1950s. Today, helicopter gunships are the most unique element of rotary-wing aviation, redefining the term close air support. As the ultimate development of the military helicopter, these largely U. S.-designed-and-built aircraft reign supreme as the premier attack platforms of modern aerial warfare. Helicopter Gunships begins with the Vietnam War as the ultimate proving ground that first utilized helicopter gunships and saw the development of other rotary-wing weapons systems as well. This book also explores fascinating post-war programs like the experimental Comanche, Blackhawk, and Apache. Through in-depth research and exclusive high-quality photos, noted author and helicopter expert Wayne Mutza examines in vivid detail the numerous weapon systems mated with a surprisingly wide variety of helicopters. Attention is also given to helicopter gunships developed by other Free World countries and Communist nations.

*Spectre Gunner* David M. Burns, 2013-01-31 This is the true story of Master Sergeant David M. Burns, an aerial gunner assigned to the deadliest squadron in air force history. Aboard the AC-130 Spectre gunship, he flew a total of 287 combat missions over Laos, South Vietnam, and Cambodia, in pursuit of the

truck traffic coming down the Ho Chi Minh Trail. His squadron destroyed more than fifteen thousand trucks loaded with war munitions destined for South Vietnam and Cambodia. Despite heavy and constant anti-aircraft and missile fire, the loss of six aircraft and the lives of fifty-two men, the crew never wavered in its dedication to the mission. Master Sergeant Burns has a distinguished military career that began in 1951 at the age of fifteen. He served one tour of duty in Phan Rang, South Vietnam, in 1967, and four tours of duty in the 16th Special Operations Squadron in Southeast Asia as an aerial gunner, lead gunner, and instructor gunner. He served in both the United States Navy and Air Force, earning three Distinguished Flying Crosses for heroism, twenty-seven Air Medals, as well as a Bronze Star, Purple Heart, Presidential Unit Citation, Armed Forces Expeditionary Medal, Vietnam Cross of Gallantry with Palm, Vietnam Service Medal with nine battle stars, and other decorations from the Korean War. He was wounded twice and is credited with saving the lives of fourteen crewmembers. This is his story.

**Gunships** Wayne Mutza, 2009 *Gunships: The Story of Spooky, Shadow, Stinger, and Spectre* tells the dramatic story of transforming military cargo transports into deadly ground-attack aircraft used by the U.S. and other countries in worldwide conflicts from the Vietnam War to the Middle East today. This comprehensive and detailed accounting of gunships begins with piston-powered, WWII-era C-47s and progresses to the four-engine turboprop C-130 Hercules, showing how gunships evolved from using 20mm miniguns to

105mm Howitzers with digital-age Battle Management Centers housed onboard. These highly effective airplanes made history by removing the safe haven of night operations from the enemy, and allowing strategic victory that might not have otherwise been possible. Author Wayne Mutza not only carefully researched all of these aircraft and their paths to reality, but also tells the tale of the brave and persevering men who believed in this unique weapon system and who saw its development through to the end. This book features a wealth of outstanding color photographs, many of which have never before been published, and also contains detailed appendices documenting gunship production data, combat units, and aircraft losses.

**Development and employment of fixed-wing gunships 1962-1972 ,**

**Development and Employment of Fixed-wing Gunships, 1962-1972** Jack S. Ballard, 1982

A-10 Thunderbolt II Units of Operation Enduring Freedom 2002-07 Gary Wetzel, 2013-06-20 The A-10 was never a favourite amongst the USAF's senior staff, and prior to Iraq's invasion of Kuwait in 1990 they had attempted to transfer the aircraft to the US Army and Marine Corps. Reprieved from premature retirement, the A-10 would see combat in the Balkans during the mid-1990s and over Iraq in Operations Northern Watch and Southern Watch until Operation Iraqi Freedom began in 2003. Following the 11 September 2001 attacks in the United States, the Bush administration responded with the instigation of Operation Enduring Freedom. A-10 aircraft first entered the

fray during Operation Anaconda in March 2002. During Anaconda four A-10s flying from Pakistan provided 21 straight hours of FAC (A)/CAS coverage. The untold story of the A-10 in Enduring Freedom will be explored and presented as never before through first hand interviews and photography from those involved, along with official military achieves. This title is the first of three planned covering the combat experience of the USAF's A-10 Thunderbolt II units. Follow-on volumes will examine the role of the Warthog during Operation Desert Storm and Operation Iraqi Freedom.

**The Gunship Chronicles** Larry Barbee, 2019-08-07 This is the story of the AC-119K gunship and the Stinger 41 mission. Shadow and Stinger Pilot Roy Davis recently helped Larry publish his book titled The Gunship Chronicles: Stinger 41. Larry is donating all the profits from the sale of the book to the Association.

Huey Cobra Gunships Chris Bishop, 2006-08-29 The Bell Huey Cobra was the very first purpose-designed helicopter gunship to become operational and to see combat. Designed in the mid-1960s as an interim solution for an armed escort and close-support weapon to support the US Army in the Vietnam War, it is still being manufactured and improved in the 21st century, making it a success far beyond the wildest dreams of its creators. In this title Chris Bishop discusses the origins of the Huey Cobra, the innovations to its design throughout the years and its major combat uses in numerous theatres, including Vietnam, the Iran-Iraq War in the 1980s, US Persian Gulf escort

operations, Lebanon 1983, Panama 1989, the Gulf War 1991 and in the current conflict in Iraq.

*Ghostriders 1968-1975* William Walter, 2022-03-08 If necessity is the mother of invention, the AC-130 gunship was definitely her offspring. *Ghostriders: Mors De Caelis* is a comprehensive history of AC-130 gunship combat operations in Vietnam, Laos, and Cambodia. The story begins with the first AC-130 in 1968, and ends in 1975 at the end of the war in Vietnam. It tells the life and death stories of Spectre crews, who faced extreme danger while hunting trucks on the Ho Chi Minh Trail and providing fire support for US and allied ground forces. Though the AC-130 was credited with 10,000 trucks destroyed, this phenomenal achievement came with a hefty price. Fifty-two Spectre crewmen and six AC-130s were lost during combat operations in Laos and Vietnam. Written in third-person omniscient point of view by an experienced combat veteran and Spectre Historian, all aspects of the story are derived from official declassified records and personal interviews. The level of detail and context figuratively puts the reader in the aircraft as an observer, flying alongside a Spectre crew in combat. Above all, this is the story of Spectre—accurate, detailed, compelling, and unique.

I Flew With Heroes Thomas Waldron, 2012-07-11 During 1969-70, the author flew USAF Jolly Green rescue helicopters in Vietnam, Thailand, and Laos. Author was also a pilot on the Son Tay POW raid On 21Nov70 Col.Waldron flew on Apple3, the mission gunship.

Dragons in the Surf Michael Squires, 2010-05-31 China and Iran form an unholy alliance to dominate the world. This work of fiction reads like your everyday newspaper. See the future unfold before your eyes, and be afraid, very afraid as you watch your jobs and industries fall under China's control before the missiles start coming at you.....believe it. The next World War has already started and most of you haven't even noticed.

**Countdown: H Hour** Tom Kratman, 2012-08-01 #3 in the Countdown modern-day military adventure series. Welcome to the Philippines outback. It's a true garden spot, if you happen to like drug running, bush-bound revolutionary movements, Balkanized tribal warfare, illegal weapons trading, and kidnapping for fun and profit. It's hostage rescue time once again for Terry Welch's special operations company. But this is turning out to be one of those missions. Starting with no clue as to the hostage's whereabouts topped off by Welch and his crew having to endure a rifle company of hated competitors supposedly sent along for reinforcement. Part of the territory for Welch. But then an attack on both companies' home bases leaves families and friends under threat of death and any available support scurrying to defend. Worse, advance team members sent to reconnoiter have been taken hostage as well. No help, no backup, team members in the soup. Welch knows there's only one solution: do whatever it takes. This is H Hour. And the fight is on. At the publisher's request, this title is sold without DRM (Digital Rights Management).

**Vietnam Chronicles** Lewis Sorley, 2004 During the four years General Creighton W. Abrams was commander in Vietnam, he and his staff made more than 455 tape recordings of briefings and meetings. In 1994, with government approval, Lewis Sorley began transcribing and analyzing the tapes. Sorley's laborious, time-consuming effort has produced a picture of the senior U.S. commander in Vietnam and his associates working to prosecute a complex and challenging military campaign in an equally complex and difficult political context. The concept of the nature of the war and the way it was conducted changed during Abrams's command. The progressive buildup of U.S. forces was reversed, and Abrams became responsible for turning the war back to the South Vietnamese. The edited transcriptions in this volume clearly reflect those changes in policy and strategy. They include briefings called the Weekly Intelligence Estimate Updates as well as meetings with such visitors as the secretary of defense, the chairman of the Joint Chiefs of Staff, and other high-ranking officials. In Vietnam Chronicles we see, for the first time, the difficult task that Creighton Abrams accomplished with tact and skill.

**World War II US Gunships** William Wolf, 2020-11-26 The XB-40 and XB-41 were secret, little-known experimental modifications of the B-17F and B-24D, respectively, into heavily-armed bomber gunships sometimes referred to as "bomber escorts". They were developed during early World War II in response to the lack of a USAAF long-range fighter aircraft able to escort and protect regular B-17 formations making the round trip from Britain deep into Germany.

Using many formerly-classified documents from his large microfilm collection, William Wolf presents their previously-unpublished history. It describes in depth for the first time the politics and development and associated problems of both escorter types. Unfortunately, these “protectors” were found wanting in several ways - after the addition of guns and ammunition they became overweight and tail-heavy causing center of gravity problems and each encountered numerous delays in the development and delivery of their various armament additions and improvements, particularly the Bendix chin turret. In the end, the YB-40 participated in only 14 lackluster operational service test missions during mid-1943 before being withdrawn from service. The XB-41 Liberator never saw operational testing before also being cancelled for its poor performance. The failure of the gunship concept left a huge hole in the capabilities of the Eighth Air Force. Their failure, however, spurred the adoption of the Merlin-powered P-51 Mustang, the outstanding escort fighter that was key to Allied victory in the air war over Europe.

*Night Hunters* William Pace Head, 2014-03-18 In *Night Hunters*, air power historian William P. Head provides the first detailed study of the development and deployment of the AC-130 gunship. While other airframes and other types of close air support (CAS) and interdiction weapon systems preceded or flew with the AC-130s, this four-engine cargo airframe proved to be not only the longest serving fixed-wing gunship but also the most effective by far. During the Vietnam War, the US military developed new

tactics and weapons systems to counter a diversity of enemy tactics and geographic features, the difficult climate, and the shifting diplomatic context. One of the most important was the development of the AC-130. Its ability to transport heavier payloads at higher altitudes across longer distances made it the logical choice to be the final Vietnam-era fixed-wing gunship and the only one that continues to fly missions in the twenty-first century. In addition, it employed many of the most advanced weapons, sensors, targeting devices, and fire control systems of the 1970s or of any era. By recounting both the technical development and the combat operations of the plane, and by looking at the proposed alternatives for its use in the War on Terror, Night Hunters offers a clear view of the role of gunships and of close air support in US wars. In today's never-ending brushfire wars, the AC-130s continue to uphold their reputation for excellence.

*Gunship Pilot* Robert F. Hartley, 2015-02-24 It was 1968 and Robert Hartley was on his first combat mission in Vietnam as copilot of a helicopter gunship. As he and his platoon leader flew over the A Shau Valley, a Chinook helicopter engulfed in flames suddenly came into view. Hartley noticed tiny black smoking objects exiting the tail ramp of the aircraft. Seconds later, he realized those objects were men escaping the flames and plunging to their deaths. It was in that moment that he silently wondered, "How the hell did I get here?" Mr. Hartley was still wet behind the ears when he was tossed into the cauldron of America's most unpopular war as an attack helicopter gunship

pilot. As he shares a gripping, birds-eye view of battles that took him from the Demilitarized Zone in the north to the Mekong Delta in the south, Mr. Hartley compellingly details how he learned to rely on his superior training and equipment to follow through with his mission to kill the enemy and save the lives of his fellow soldiers below. Gunship Pilot provides an unforgettable glimpse into two combat tours of duty in Vietnam as a helicopter pilot soaring high above rice paddies and jungles attempts to fulfill his duty of protecting America's warriors on the ground.

**Secret Green Beret Commandos in Cambodia** LTC Fred S. Lindsey, 2012-11-12 We could call this book Special Operations Recon Mission Impossible. A small group of highly trained, resourceful US Special Forces (SF) men is asked to go in teams behind the enemy lines to gather intelligence on the North Vietnamese Army units that had infiltrated through Laos and Cambodia down the Ho Chi Minh trails to their secret bases inside the Cambodian border west of South Vietnam. The covert reconnaissance teams, of only two or three SF men with four or five experienced indigenous mercenaries each, were tasked to go into enemy target areas by foot or helicopter insertion. They could be 15 kilometers beyond any other friendly forces, with no artillery support. In sterile uniforms - with no insignia or identification, if they were killed or captured, their government would deny their military connection. The enemy had placed a price on their heads and had spies in their Top Secret headquarters known as SOG. SOG had three identical recon ground units along

the border areas. This book tells the history of Command and Control Detachment South (CCS). The CCS volunteer warriors and its Air Partners the Army and Air Force helicopter transport and gunship crews who lived and fought together and sometimes died together. This is the first published history of CCS as compiled by its last living commander, some forty years after they were disbanded. It tells of the struggles and intrigue involved in SOGs development as the modern-day legacy of our modern Special Operations Commands. Forbidden to tell of their experiences for over twenty years; their After Action Reports destroyed even before they were declassified surviving veterans team together to tell how Recon men wounded averaged 100 percent; and SOG became the most highly decorated unit in Vietnam and all were awarded the Presidential Unit Citation.

**UH-1 Huey Gunship vs NVA/VC Forces** Peter E. Davies,2021-08-19 Often described as the US Army's aerial jeep the UH-1 Iroquois ('Huey') was the general-purpose vehicle that provided mobility in a hostile jungle environment which made rapid troop movement extremely challenging by any other means. Hueys airlifted troops, evacuated casualties, rescued downed

pilots, transported cargo externally and enabled rapid transit of commanders in the field. Although 'vertical aviation' had only become a practical reality during the Korean War helicopters evolved rapidly in the decade before Vietnam and by 1965 the US Army and US Marines relied on them as primary combat tools. This was principally because North Vietnam's armed forces had long experience of jungle operations, camouflage and evasion. Generally avoiding set-piece pitched battles they relied on rapid, frequent strikes and withdrew using routes that were generally inaccessible to US vehicles. They commonly relied on darkness and bad weather to make their moves, often rendering them immune to conventional air attack. Gunship helicopters, sometimes equipped with Firefly searchlights and early night vision light intensifiers, were more able to track and attack the enemy. Innovative tactics were required for this unfamiliar combat scenario and for a US Army that was more prepared for conventional operations in a European-type setting. One of the most valuable new initiatives was the UH-1C 'Huey Hog' or 'Frog' gunship, conceived in 1960 and offering more power and agility than the UH-1B that pioneered gunship use in combat. Heavily armed with guns and rockets and easily transportable by air these helicopters became available in large numbers and they became a major problem for the insurgent forces throughout the war. Covering fascinating details of the innovations in tactics and combat introduced by gunship helicopters, this book offers an analysis of their adaptability and usefulness in a variety of operations,

while exploring the insurgent forces' responses to the advent of 'vertical aviation'.
