Global Order Beyond Law Thomas Dietz, 2014-12-01
Well-functioning contract law is a crucial prerequisite for economic development. However, even though international trade has increased enormously in recent decades, we still know little about the contract enforcement mechanisms that exist in today's globalised markets. The aim of this work is to shed light on the governance of complex cross-border contracts by developing a comprehensive theoretical framework for understanding the relevance of both formal and informal institutions. This framework is then applied to an empirical study of cross-border software development contracts. Combining a unique data set of 41 qualitative expert interviews with statistical data and surveys, the author demonstrates that state contract laws show fundamental signs of dysfunction across borders. Companies engaged in globalised exchange therefore rarely use this mechanism. Even the European Union's supranational enforcement order is, in practice, insignificant. Against all expectations, international commercial arbitration also turns out to be limited in its ability to provide a workable legal infrastructure for global commerce. With global trade lacking a reliable formal legal order, companies have reacted by creating their own informal governance structures. This book explains how complex exchange in global markets has emerged in the absence of a global legal order.

The Blacklist - The Beekeeper Steven Piziks, 2016-11-29 A brand-new original The Blacklist novel. Raymond Reddington brings Elizabeth Keen a new Blacklister: the Bodysnatcher, an unnamed, unknown man who has turned kidnapping into an art form. But when Lizzie and the team move to intercept the Bodysnatcher, they discover that he is not their

real target. Their real target is much more sinister and it will take all their strength and dedication to resist him – and to discover what Reddington is really after.

The Blacklist – The Dead Ring Jon

McGoran, 2017-03-28 Raymond “Red” Reddington voluntarily surrenders to the FBI after eluding capture for decades. He has a list of the most dangerous criminals in the world and is willing to guide FBI operations in exchange for immunity. However, he insists on exclusively working with a rookie profiler by the name of Elizabeth Keen. A tragic warehouse fire in Turkey, a mine collapse in South Africa, a capsized ferry disaster in Indonesia: devastating mishaps, or something more sinister? Red knows these were collateral damage in a highly lucrative and deadly game known as the Dead Ring—anything but accidental. The only way to stop the ring is to destroy it from within. Keen must go undercover and play the game, knowing that in the Dead Ring there can only be one survivor.

Bedroom Blacklist Richard E. Geis, 2014-03-28 Until Jim Spencer's corporation rang in the lie-detector tests, what he and Mary did together in bed was their own business. But when Jim flunked the test, they found themselves exposed to their own world even though the results were supposed to be held strictly confidential. Everyone knew that Jim and Mary were "different." From then on, it was Nightmare Alley in a grotesque carnival House of Horrors, for Jim's career and their livelihood depended upon his job. And there appeared to be no way out of the dilemma....

Blacklist Jerry Ludwig, 2015-05-12 The last time the United States looked on its own citizens with suspicion, the results were ruined dreams,

shattered lives...and murder in Jerry Ludwig's Blacklist Today, people point fingers and shout, terrorist! Not long ago, the accusation was Communist! Many who testified before the House UnAmerican Activities Committee said they did so out of desperation and fear. Those who refused to speak were fired or blacklisted. Others fled rather than betray friends...or their belief in American liberty. David Weber and Jana Vardian were Hollywood's golden children; their fathers, successful screenwriters, mingled with stars and studio moguls. Then HUAC shattered their idyll, sending David and his parents into exile in Europe; Jana's father testified and soon became a famous director. Returning to Los Angeles as an adult to bury his father, David comes to the attention of FBI agent Brian McKenna, who is still eager for a big case. The somewhat jaded McKenna remains eager for a big case. Jana Vardian watched her father torture himself after testifying; David's return painfully reminds her that she once believed in love and loyalty. When people with ties to HUAC and to David's father begin turning up dead, long-buried secrets are dragged into the open. McKenna quickly tags David as the prime suspect, but in a world where special effects can turn a man into a beast, Hollywood's sheen of glamour cannot long mask its dark past.
