**Standards for the English Language Arts** National Council of Teachers of English,1996 This book describes standards for the English language arts and defines what K-12 students should know about language and be able to do with language. The book presents the current consensus among literacy teachers and researchers about what students should learn in the English language arts--reading, writing, listening, speaking, viewing, and visually representing. The first chapter of the book (Setting Standards in the English Language Arts) addresses defining the standards and the need for standards. The second chapter (Perspectives Informing the English Language Arts Standards) discusses the content, purpose, development, and context of the standards. The third chapter presents the 12 standards in detail. The fourth chapter (Standards in the Classroom) presents elementary, middle-school, and high-school vignettes which illustrate how the standards might be implemented in the classroom. The book concludes that these standards represent not an end but a beginning--a starting point for discussion and action. A glossary (containing more than 100 terms), a list of participants, a history of the standards project, an overview of standards projects, state and international English language arts standards, a 115-item annotated list of resources for teachers, and a comment form are attached. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

*Health Issues in the Black Community* Ronald L. Braithwaite,Sandra E. Taylor,Henrie M. Treadwell,2009-10-22 Health Issues in the Black Community THIRD EDITION The outstanding editors and authors of Health Issues in the Black Community have placed in clear perspective the challenges and opportunities we face in working to achieve the goal of health equity in America. David Satcher, MD, PhD, 16th Surgeon General of the United States and director, Satcher Health Leadership Institute at Morehouse School of Medicine Eliminating health disparities must be a central goal of any forward thinking national health policy. Health Issues in the Black Community makes a valuable contribution to a much-needed dialogue by focusing on the challenges of the black community. Marc Morial, Esq., president, National Urban League Health Issues in the Black Community illuminates comprehensively the range of health conditions specifically affecting African Americans, and the health disparities both within the black community and between racial and ethnic groups. Each chapter, whether addressing the health of African Americans by age, gender, type of disease, condition or behavior, is well-detailed and tells an important story. Together, they offer practitioners, consumers, scholars, and policymakers a crucial roadmap to address and change the social determinants of health, reduce disparities, and create more equal treatment for all Americans. Risa Lavizzo-Mourey, MD, MBA, president, Robert Wood Johnson Foundation I recommend Health Issues in the Black Community as a must-read for anyone concerned about the future of the African American community. Health disparities continues to be one of the major issues confronting the black community. This book will help to highlight the issues and keep attention focused on the work to be done. Elsie Scott, PhD, president of the Congressional Black Caucus Foundation This book is the definitive examination of health issues in black America issues sadly overlooked and downplayed in our culture and society. I congratulate Drs. Braithwaite, Taylor, and Treadwell for their monumental book. Cornel West, PhD, professor, Princeton University

**Haunting Experiences** Diane Goldstein,Sylvia Grider,Jeannie Banks Thomas,2007-09-15 Ghosts and other supernatural phenomena are widely represented throughout modern culture. They can be found in any number of entertainment, commercial, and other contexts, but popular media or commodified representations of ghosts can be quite different from the beliefs people hold about them, based on tradition or direct experience. Personal belief and cultural tradition on the one hand, and popular and commercial representation on the other, nevertheless continually feed each other. They frequently share space in how people think about the supernatural. In Haunting Experiences, three well-known folklorists seek to broaden the discussion of ghost lore by examining it from a variety of angles in various modern contexts. Diane E. Goldstein, Sylvia Ann Grider, and Jeannie Banks Thomas take ghosts seriously, as they draw on contemporary scholarship that emphasizes both the basis of belief in experience (rather than mere fantasy) and the usefulness of ghost stories. They look closely at the narrative role of such lore in matters such as socialization and gender. And they unravel the complex mix of mass media, commodification, and popular culture that today puts old spirits into new contexts.
