Each game focuses on a particular skill: language, spatial recognition, concentration, logic, structure, associative thinking, general knowledge, and more. Put seven mixed-up letters in the right order to create the correct word. Pick out the pair of planes that do not fit into a square. Try to remember the pattern in which eight roses are laid out--then turn the page and find the ninth rose that has been added. Not only are these drills memory-boosting, they're fun!
