There are many fun facts about hamsters. There are over 25 different hamsters in the world but only five can be kept as pets. The biggest hamster is 34 cm or 12 inches long and the smallest hamster is about 5 1/2 cm or 2 inches long. Hamsters are easy to take care of. The oldest hamsters live up to four years old. They can live for two, three or four years. The heart of a hamster beats between 300 and 500 times in a minute. They have teeth that keep growing just like the teeth of rabbits. That is why they keep munching and biting stuff. It is important to give them dog biscuits to prevent them from biting the bars of their cage. They also need their toenails to be clipped using a nail cutter. If the hamster bites, try to put sandpaper on the base of their running wheels so that it can file the nails when the hamster runs. Hamsters have a good memory. They can remember other hamsters that are related to them. They also respond to names. When you call your hamster by name, it will come to you. There is a hamster type called the Syrian hamster that comes in forty colors. If you love different colors, try keeping the Syrian hamster for a pet. Remember to keep a male hamster in its own cage. Keep two male hamsters into two different cages. Male hamsters fight and bite each other when they are kept together. These are some amazing facts about hamsters.

Changing Concepts of the Nervous System Adrian Morrison,2012-12-02 Changing Concepts of the Nervous System, presents the proceedings of the First Institute of Neurological Sciences Symposium in Neurobiology, held at the University of Pennsylvania in October 1980. The book is divided into four parts consisting of mini symposia on different aspects of the neurosciences. The first mini symposia discuss the anatomical, physiological, developmental, and behavioral plasticity of the nervous system. The second mini symposia cover the changing concepts of the central visual system. The idea of the biological basis of the concept of motivation and its behavioral manifestations from both theoretical and experimental aspects is examined in the third mini symposia. The final mini symposia tackle the four aspects of studies on memory: amnesia (consolidation and retrieval), the role of catecholamines, the role of proteins, and the role of peptides. Anatomists, neurobiologists, neuroscientists, and students and researchers in the field of neuroscience will find the book invaluable.

Run and Be Still Ashley Cunningham,2013-09-05 It’s not fair! Why is this happening to me? Why is this happening to my family? Why, God? Why? Are you asking these questions? Author Ashley Cunningham has found herself begging God for these answers through the valleys in her life. At twenty-three years old she experienced the unexplained death of her baby; ten years later, she was diagnosed with an extremely rare and incurable autoimmune disease. Grief, fear, pain, worry, anger, confusion, regret, insert your struggle in the blank—she has been there and understands that suffering tests your faith unlike any other trial. Yea, though I walk through the valley—deep, dark, and dreadful—the valley of the shadow of death. In the darkness of the valley, God makes you many promises for peace, comfort, and the grace for endurance. Come walk with Ashley Cunningham, walk with God, renew your faith, and find your way through your valley.
