The Essential Hand & Foot Harry Wastrack, 2005-07-08 In the late 1940s and early 1950s, Canasta was all the rage. Fast forward forty years or so. Canasta is still played, though mostly by people who learned the game more than a generation ago. However, somewhere (I do not know exactly where) someone (I do not know exactly who) decided that Canasta needed to have new life breathed into it, thus this new variation called Hand & Foot. It only takes a quick practice hand to teach the gist of the game. Though it's similarities to Canasta are unmistakable, Hand & Foot is an edgier game that allows players to be more aggressive. Everyone has a strategy, some quite elaborate, others quite generic, but the caveat to each is "if the cards cooperate." The luck of the draw is a variable everyone has to take into account. Among Hand & Foot players there are often heard frustrated sighs and disgusted groans. There is also breathless anxiousness as players sweat out an opponent's turn hoping they will not go out before a "Foot" can be played or a red three can be discarded. Like a spirited game of Monopoly, Hand & Foot tends to bring out elements of personality heretofore unknown among its players, you know, sort of a playful viciousness. It only takes one round of Hand & Foot for a new player to recognize the objectives and basic strategies,...and the opportunities for deviousness. Also, while a veteran player who plays a solid game has a definite advantage, a novice can have fun and even prevail. It cannot be taken for granted that the best and most experienced player at the table will win a game of Hand & Foot. The cards do not always allow that. And there is that adrenaline rush that comes from just barely pulling out a win. It is probably that adrenaline rush that makes the game so addictive. This is why someone who has just played his first game of Hand & Foot will invariably insist on right away playing a second – he thinks he has figured it out. The Essential Hand & Foot for the first time codifies the rules of the game, holding to the common basics

and incorporating the best of the regional variations. It also explains why some players consistently win more than others using such ploys as priming the pump and the honey pot, and why picking a pile containing red threes can sometimes be a good thing. When was the last time you had a blast playing cards?

A Guide to Clinical Management and Public Health Response for Hand, Foot, and Mouth Disease (HFMD) WHO Regional Office for the Western Pacific,2011 Hand, foot and mouth disease (HFMD) is a common infectious disease caused by a group of enteroviruses, including coxsackievirus A16 (CA16) and enterovirus 71 (EV71). Over the last decade, many outbreaks of HFMD have been reported in countries of the Western Pacific Region. HFMD caused by EV71 is of particular concern because of the increased number of deaths associated with infection. Until now, there has been little guidance on HFMD caused by EV71. This publication provides practical support for the treatment, prevention and control of HFMD based on the most recent scientific literature and the current understanding and experiences of international experts. It is intended as a resource for both clinicians

working with HFMD cases on a regular basis and for public health personnel who are responsible for preventing and responding to outbreaks of HFMD.
