The Multilingual Internet Brenda Danet, Susan C.

Herring, 2007 Devoted to analysing internet related CMC in languages other than English, this volume collects 18 new articles on facets of language and internet use, all of which revolve around several central topics : writing systems, the structure and features of local languages and how they affect internet use, gender issues, and so on--Résumé de l'éditeur.

Digital Forensics and Cyber Crime Pavel

Gladyshev, Marcus K. Rogers, 2012-11-28 This book contains a selection of thoroughly refereed and revised papers from the Third International ICST Conference on Digital Forensics and Cyber Crime, ICDF2C 2011, held October 26-28 in Dublin, Ireland. The field of digital forensics is becoming increasingly important for law enforcement, network security, and information assurance. It is a multidisciplinary area that encompasses a number of fields, including law, computer science, finance, networking, data mining, and criminal justice. The 24 papers in this volume cover a variety of topics ranging from tactics of cyber crime investigations to digital forensic education, network forensics, and the use of formal methods in digital investigations. There is a large section addressing forensics of mobile digital devices.

Medieval Italy Katherine Jansen, Joanna Drell, Frances Andrews, 2009 *Medieval Italy: Texts in Translation* gathers together, for the first time in one volume, newly translated primary sources critical to the study of the Italian Middle Ages, ca. 1000-1400 C.E. What makes this volume unique, too, is its incorporation of the southern part of the peninsula and Sicily into a larger narrative of Italian history.

Email, SMS, MMS Carmen Frehner, 2008 Are email and SMS forms of writing or speech? This question cannot be answered easily because their registers are hybrid; they make use of both orality and literacy. This book offers an accurate placement of emails and text messages along the written/spoken continuum. Emails and text messages are also compared to letters and phone calls while a closer comparison of SMS and telegrams shows how far text messaging can be regarded as a renaissance of telegrams. Attention is further paid to multimedia messaging and questions concerning the proportion of image to text, picture categories as well as MMS dialogues are approached. The book finally comments on linguistic changes and deals with the German language community's concern with regard to the increasing use of Anglicisms.

Introduction to Corpus Linguistics Sandrine Zufferey, 2020-11-03 Over the past decades, the use of quantitative methods has become almost generalized in all domains of linguistics. However, using these methods requires a thorough understanding of the principles underlying them. *Introduction to quantitative methods in linguistics* aims at providing students with an up-to-date and accessible guide to both corpus linguistics and experimental linguistics. The objectives are to help students developing critical thinking about the way these methods are used in the literature and helping them to

devise their own research projects using quantitative data analysis.

International handbook of contemporary research Joachim Jacobs,1993

Motivation in Language Planning and Language Policy D. E. Ager,2001 The author concludes from these data that dynamic identity construction, followed by willingness to act in conformity with expectations, are key elements in the planned behaviour and reasoned action which all authorities take in relation to language.--BOOK JACKET.

Public and Situated Displays K. O'Hara,M. Perry,E. Churchill,D. Russell,2013-03-09 Public and situated display technologies can have an important impact on individual and social behaviour and present us with particular interesting new design considerations and challenges. While there is a growing body of research exploring these design considerations and social impact this work remains somewhat disparate, making it difficult to assimilate in a coherent manner. This book brings together the perspectives of key researchers in the area of public and situated display technology. The chapters detail research representing the social, technical and interactional aspects of public and situated display technologies. The underlying concern common to these chapters is how these displays can be best designed for collaboration, coordination, community building and mobility. Presenting them together allows the reader to examine everyday display activities within the context of emerging technological possibilities.

The German Language in Switzerland Felicity J. Rash,1998 This book offers a broad survey of issues relating to the German language in Switzerland. The initial focus is on the German-speaking community's relationship

with the French, Italian and Romansh language communities. Consideration is then given to the complex issue of diglossia within the germanophone Swiss community, and the maintenance of both the Swiss German dialects and the Swiss German standard language as co-existent codes of equal status. The Swiss German dialects, the Swiss variety of standard German, and the influence of various foreign languages on both of these language forms are described in some detail. Finally, sociolinguistic issues affecting the German language in Switzerland are considered: the connection between social variation and linguistic change; language variation stemming from differences of age, sex and ethnic origin; and linguistic behaviour and phatic communication.

Multiple Attribute Decision Making Gwo-Hshiung Tzeng, Jih-Jeng Huang, 2011-06-22 Decision makers are often faced with several conflicting alternatives. How do they evaluate trade-offs when there are more than three criteria? To help people make optimal decisions, scholars in the discipline of multiple criteria decision making (MCDM) continue to develop new methods for structuring preferences and determining the correct relative weights for criteria. A compilation of modern decision-making techniques, *Multiple Attribute Decision Making: Methods and Applications* focuses on the fuzzy set approach to multiple attribute decision making (MADM). Drawing on their experience, the authors bring together current methods and real-life applications of MADM techniques for decision analysis. They also propose a novel hybrid MADM model that combines DEMATEL and analytic network process (ANP) with VIKOR procedures. The first part of the book focuses on the theory of each method and includes examples that can be calculated without a computer, providing a complete understanding of the procedures.

Methods include the analytic hierarchy process (AHP), ANP, simple additive weighting method, ELECTRE, PROMETHEE, the gray relational model, fuzzy integral technique, rough sets, and the structural model.

Integrating theory and practice, the second part of the book illustrates how methods can be used to solve real-world MADM problems. Applications covered in the book include: AHP to select planning and design services for a construction project TOPSIS and VIKOR to evaluate the best alternative-fuel vehicles for urban areas ELECTRE to solve network design problems in urban transportation planning PROMETEE to set priorities for the development of new energy systems, from solar thermal to hydrogen energy Fuzzy integrals to evaluate enterprise intranet web sites Rough sets to make decisions in insurance marketing Helping readers understand how to apply MADM techniques to their decision making, this book is suitable for undergraduate and graduate students as well as practitioners.

100 Words To Make You Sound Smart American Heritage Dictionaries, 2006-10-04 Find the right words to make a point, seal the deal, or just keep folks listening! Chosen by the editors of the American Heritage Dictionaries, these words can help anyone who wants to be a more compelling communicator—as a worker, consumer, advocate, friend, dinner companion, or even romantic prospect. The book includes a colorful variety of words, including handy words of just one syllable (such as glib) and words derived from the names of famous people (such as Freudian slip and Machiavellian). There are expressions from popular culture (Catch-22) and words that date back to classical civilization (spartan and stoic). Each word is clearly defined and shown in context with quotations from magazines, newspapers, broadcast media, movies, and television. For many words, quotations from distinguished authors and speakers are also given and word histories are explained. 100 Words to Make You Sound Smart provides an enjoyable way to communicate more effectively, distinctively, and articulately.

Loki Rebekah R. Ganiere, 2022-11-15 What happens when Loki, God of Mischief, falls for the one woman

immune to his charms? Val has spent the last hundred years doing two things, protecting Princess Sutrelle of Muspelheim from her father, and hating the Norse Gods who forced her and her Valkyrie sisters to fight in Ragnarök. And when she meets Loki, God of Mischief, at the Speed Dating event, the last thing she intends to do is fall for the man-whore, woman-using, Trickster God. But getting away from Loki isn't as easy as she had hoped because despite him being irritating, vain, and stubborn, he's also kind, understanding, and hotter than Hell itself. Val has a decision to make—let go of the past and embrace what could be a fantastic future with a sexy, rich playboy God, or settle for someone that the Fates didn't have in mind for her and save her heart from the possibility of the heartbreak of a lifetime. Loki is book seventeen in the Speed Dating with the Denizens of the Underworld shared world, filled with angst, revenge, arrogant trickster Gods, strong-willed warrior women, and more.

Warhol-isms Andy Warhol, 2022-05-10 A unique collection of brilliant quotations from the legendary Pop artist One of the most influential artists of his time and ours, Andy Warhol is nearly as renowned for what he said as for what he did. Indeed, he is so quotable that things he never said are endlessly and plausibly attributed to him, including, fittingly, the most celebrated fake Warhol saying—"In the future, everyone will be world-famous for 15 minutes." Warhol-isms separates legend from fact to present a unique and comprehensive collection of authentic quotations from the Pop artist. Gathered from interviews and other primary sources, these deadpan, droll, ironic, and sincere gems—in which a superficial embrace of superficiality often disguises provocative, unconventional ideas—provide compelling insights into the life and work of an artist who has left an indelible mark on

art and popular culture. Select quotations from the book: I think an artist is anybody who does something well. I went to [a psychiatrist] once, and he never called me back. They always say that time changes things, but you actually have to change them yourself. I've never met a person I couldn't call a beauty. New things are always better than old things. I'm still a commercial artist. I was always a commercial artist.

Bankerupt Ravi Subramanian, 2013-09-15 A university is an institution for higher education and research. It can also be a place where academic brilliance leads to overinflated egos, bitter politics and finally, murder. Cirisha Narayanan, a professor who has risen meteorically, stumbles upon a cryptic message. Aditya Raisinghania, her banker husband, sets up a highly innovative financial hoax. Her profiteering father harvests Australia's largest bird—the emu—in India. The US elections are on and the debate on gun control has reached a fever pitch. Set in Mumbai, Coimbatore and Boston, Ravi Subramanian creates an impeccably researched world where everyone has a motive to kill. Nothing is as it seems in this cunningly vicious thriller where the plot turns on a dime.

Father's Day Murder Leslie Meier, 2013-03-05 A small-town reporter hunts a big-city killer in a novel by a New York Times-bestselling author who provides “a truly American version of the English cozy” (Tulsa World). When her part-time reporting gig gives Lucy the opportunity to attend a Boston newspaper conference, she looks forward to a vacation from domestic bliss. But upon leaving Tinker's Cove, Maine, she quickly discovers that alone time can be kind of...lonely. And in between libel workshops and panel discussions, Lucy takes a guilt trip. She feels terrible that she won't be home to help her husband celebrate Father's Day. But when Luther Read—head of a nearly

bankrupt newspaper dynasty—suddenly drops dead, Lucy has other things to think about. She's not buying the theory that Luther died of an asthma attack. The man just had too many enemies. Always the intrepid snoop, Lucy vows to investigate. But she can't help wondering if her name will end up on a byline—or in an obit... "Reading a new Leslie Meier mystery is like catching up with a dear old friend."—Kate Carlisle, New York Times bestselling author of the Bibliophile Mysteries "Leslie Meier writes with sparkle and warmth."—Chicago Sun-Times "I like Lucy Stone a lot, and so will readers."—Carolyn Hart, New York Times-bestselling author of the Bailey Ruth Mysteries
