The Mystery of the Hanging Garden of Babylon Stephanie Dalley, 2013-05-23 The Mystery of the Hanging Garden of Babylon is an exciting story of detection involving legends, expert decipherment of ancient texts, and a vivid description of a little-known civilization. Recognised in ancient times as one of the Seven Wonders of the World, the legendary Hanging Garden of Babylon and its location still remains a mystery steeped in shadow and puzzling myths. In this remarkable volume Stephanie Dalley, a world expert on ancient Babylonian language, gathers for the first time all the material on this enigmatic World Wonder. Tracing the history of the Garden, Dalley describes how the decipherment of an original text and its link to sculpture in the British Museum has enabled her to pin down where the Garden was positioned and to describe in detail what it may have looked like. Through this dramatic and fascinating reconstruction of the Garden, Dalley is also able to follow its influence on later garden design. Like a palimpsest, Dalley unscrambles the many legends that have built up around the Garden, including the parts played by Semiramis and Nebuchadnezzar, and following the evolution of its design, she shows why this Garden deserves its place alongside the Pyramids and the Colossus of Rhodes as one of the most astonishing technical achievements of the ancient world.

Legends of the Ancient World: the Hanging Gardens of Babylon Charles River Editors, 2013-09-04

*Includes pictures of historic art depicting important people and places. *Includes ancient descriptions of the Hanging Gardens and discusses their authenticity. *Explains the historical debate over the origins of the Hanging Gardens and where they were actually located. *Includes a bibliography for further reading. There was also, beside the acropolis, the Hanging Garden, as it is called, which was built, not by Semiramis, but by a later Syrian king to please one of his concubines; for she, they say, being a Persian by race and longing for the meadows of her mountains, asked the king to imitate, through the artifice of a planted garden, the distinctive landscape of Persia. Diodorus Siculus In antiquity, the Hanging Gardens, like the Great Pyramid of Giza, were considered both a technological marvel and an aesthetic masterpiece. Ancient historians believed that the Hanging Gardens were constructed around the 7th century B.C. after the second rise of Babylon, which would make them the second-oldest of the Seven Wonders of the Ancient World. Reputedly, they were created by the biblical Nebuchadnezzar II (the king who conquered Judea) to please his homesick wife, after the model of Egyptian pleasure gardens, but in 1993, British Assyriologist, Stephanie Dalley, proposed a theory that they were ordered built by the Assyrian King Sennacherib a century earlier for his giant palace at Nineveh, instead. She believed that the two sites were easily confused by ancient sources,

resulting in the Gardens being incorrectly located in Babylon a century later. Many ancient writers discussed the Hanging Gardens, including including Strabo, Diodorus Siculus, and Quintus Curtius Rufus. In fact, Diodorus Siculus and Philo of Byzantium both described the mechanisms of the Gardens at length. According to their accounts, the Hanging Gardens were terraced and cultivated orchards that were built over a series of buildings made of glazed ceramic and perhaps watered by some kind of pulley or pump system of irrigation. Water was drawn from a reservoir through a network of reeds and bricks, held together by asphalt and cement, with lead used as a sealant. The Gardens were built on a citadel 80 feet high with walls 22 feet thick. Despite the detailed descriptions, historians still question whether the Hanging Gardens ever actually existed. The sheer amount of water that would've been required, and the fact that they would've relied on technology that was supposedly invented 400 years down the line cast doubt upon their existence. Officially, the reason why it is not known whether the Hanging Gardens ever existed is because they were reported to have been destroyed by several earthquakes, the last of which left the Hanging Gardens completely ruined by the 2nd century B.C., around the time the Greek tourists were writing their pamphlets. Therefore, it is not known if any of the writers who described them ever truly saw the Hanging Gardens, and even as ancient Greeks and Romans of different centuries wrote about the Hanging Gardens and relied on previous ancient texts, Babylonian sources do not mention them. Neither do near-contemporaneous Greek sources like Herodotus. Legends of the Ancient World: The Hanging Gardens of Babylon comprehensively covers the history and mystery of the famous wonder of the ancient world, looking at ancient descriptions of the Hanging Gardens and the questions modern academics are still trying to answer. Along with pictures, a bibliography and a Table of Contents, you will learn about the Hanging Gardens like you never have before, in no time at all.

Seven Wonders of the Ancient World Paul Jordan, 2014-05-01 The Seven Wonders of the Ancient World, and all sorts of mysteries attaching to them, have intrigued people since the second century BCE. Why were these particular creations chosen and when? And why did the ancients want to draw up such a list in the first place? What were the technical and cultural factors involved in the creation and listing of the Wonders? The Seven Wonders still rival many of the phenomenal products of both nature and mankind in their size, majesty, and beauty. Six of them no longer stand, having been destroyed by natural disaster or by human intervention. From the Pyramids at Giza to the Colossus of Rhodes, from the Hanging Gardens of Babylon to the Lighthouse of Alexandria, from the Temple of Ephesus to the Mausoleum at Halicarnassus and the Statue of Zeus at Olympia, the Seven Wonders of the Ancient World have never ceased to fascinate down the ages.

The Hanging Garden Ian Rankin, 2010-01-05 The Hanging Gardens of Babylon... The hanging of four French villagers in World War II... The hanging of an old man in a Scottish cemetery... Seemingly random facts linked to one man... Detective Inspector John Rebus is buried under a pile of paperwork

generated by his investigations into a suspected war criminal, and his immediate supervisors are more than happy to have him tucked away in a quiet backwater for several months. However, the escalating dispute between upstart Tommy Telford and Big Ger Cafferty's gang soon gives Rebus an escape clause. Telford is known to have close ties to a man nicknamed Mr. Pink Eyes, a brutal gangster running a lucrative business bringing Chechen refugees into Britain to work as prostitutes. And when Rebus takes under his wing a distraught Bosnian call girl, it gives him a personal reason to make sure Telford takes the high road out of town. Within days, Rebus's daughter is the victim of an all-too-professional hit-and-run, and Rebus knows that there's nothing he won't do to bring down prime suspect Tommy Telford--even if it means cutting a deal with the devil. A chilling glimpse into the darkest extremes of human cruelty, a page-turning literary thriller, *The Hanging Garden*, the ninth entry in Ian Rankin's award-winning series confirms his reputation as a writer of rare and lasting gifts.

Legends of the Ancient World Charles River Editors, 2017-02-13 *Includes pictures of Babylonian artifacts and historic art depicting Nebuchadnezzar and the Hanging Gardens of Babylon. *Includes ancient accounts of Nebuchadnezzar's reign and the Hanging Gardens of Babylon. *Discusses the legends and mysteries surrounding the Babylonian King, the Hanging Gardens, and the mentions of him in the Bible. Alongside Hammurabi, Nebuchadnezzar II is remembered as one of Ancient Babylon's most influential kings. Nearly 1,000 years after his famous predecessor, Nebuchadnezzar oversaw the expansion of the Neo-Babylonian Empire during the 7th and 6th centuries B.C., which placed him in conflict with Egypt and the ancient kingdom of Judah. His ruthless conquest of Judah resulted in the destruction of Jerusalem and the entire kingdom, and it ultimately earned him notoriety in the Old Testament, where he is mentioned in the books of Jeremiah, Ezekiel and Daniel. In addition to being depicted in the Bible, Nebuchadnezzar was well known among ancient

historians and contemporary writers because of the Hanging Gardens of Babylon, one of the ancient wonders of the world. According to ancient accounts, Nebuchadnezzar constructed the Hanging Gardens for his homesick wife by creating terraced and cultivated orchards that were built over a series of buildings made of glazed ceramic. An estimated several thousands of gallons of water was drawn from a reservoir through a network of reeds and bricks, held together by asphalt and cement, with lead used as a sealant. The Gardens were built on a citadel 80 feet high with walls 22 feet thick. To this day, Nebuchadnezzar is associated with the Hanging Gardens, even as scholars continue to question whether the Hanging Gardens were actually built in Babylon or even existed at all. While Nebuchadnezzar's name lives on mostly due to the Bible and the Hanging Gardens, behind it all was a man documented by the Babylonians and his contemporaries as a competent and successful king. While his success was unfortunate for his enemies, and there are questions surrounding his association with the Hanging Gardens, there is no question that Nebuchadnezzar greatly reformed the ancient city of Babylon and maintained its supremacy throughout Mesopotamia and the Middle East during his time. Plenty of uncertainty about Nebuchadnezzar's life remains, but there is no question he was a great military commander and a competent administrator who managed to hold together his burgeoning empire for nearly half a century. Legends of the Ancient World: The Life and Legacy of King Nebuchadnezzar II chronicles the life, legends, and legacy of the famous Babylonian king. Along with pictures depicting important people and places, you will learn about Nebuchadnezzar like you never have before, in no time at all.

Nebuchadnezzar and Babylon D. J. Wiseman, 1991-03-21 This new examination of the region of Nebuchadnezzar II of Babylon (605-562 BC) includes revised interpretations of the Babylonian Chronicles for his reign, especially for the years of the campaigns against the West and the capture of

Jerusalem. Excavations at Babylon are used to give a view of the city in Neo-Babylonian times, including the royal 'Hanging Gardens' and the ziggurat. The varied literary genres current in this city of learning in the sixth century BC (including dreams and prophecies) and the role of hostages, exiles, and prisoners of war are used to throw light on the life of the Jewish exiles there. An assessment of the character of Nebuchadrezzar as a military and political leader, religious devotee and legal administrator is attempted on the basis of textual evidence.
