Shakespeare's Kitchen Francine Segan,2011-10-05 “Shakespeare’s Kitchen not only reveals, sometimes surprisingly, what people were eating in Shakespeare’s time but also provides recipes that today’s cooks can easily re-create with readily available ingredients.” —from the Foreword by Patrick O’Connell Francine Segan introduces contemporary cooks to the foods of William Shakespeare’s world with recipes updated from classic sixteenth- and seventeenth-century cookbooks. Her easy-to-prepare adaptations shatter the myth that the Bard’s primary fare was boiled mutton. In fact, Shakespeare and his contemporaries dined on salads of fresh herbs and vegetables; fish, fowl, and meats of all kinds; and delicate broths. Dried Plums with Wine and Ginger-Zest Crostini, Winter Salad with Raisin and Caper Vinaigrette, and Lobster with Pistachio Stuffing and Seville Orange Butter are just a few of the delicious, aromatic, and gorgeous dishes that will surprise and delight. Segan’s delicate and careful renditions of these recipes have been thoroughly tested to ensure no-fail, standout results. The tantalizing Renaissance recipes in Shakespeare’s Kitchen are enhanced with food-related quotes from the Bard, delightful morsels of culinary history, interesting facts on the customs and social etiquette of Shakespeare’s time, and the texts of the original recipes, complete with antiquated

spellings and eccentric directions. Patrick O'Connell provides an enticing Foreword to this edible history from which food lovers and Shakespeare enthusiasts alike will derive nourishment. Want something new for dinner? Try something four hundred years old. NOTE: This edition does not include photos.

Argonauts of West Africa Apostolos Andrikopoulos, 2023 *Argonauts of West Africa* examines the paradoxes of kinship in the lives of unauthorized African migrants as they struggle for mobility, employment, and citizenship in Europe. In a rapidly changing and highly precarious context, migrants turn to kinship in search of security, stability, and predictability. Through the exchange of identity documents, assistance in obtaining such documentation, marriage, or cohabitation, new kinship dynamics are continually made and remade to navigate the shifting demands of European states. These new kinship relations, however, often prove unreliable, taking on new, unexpected dynamics in the face of codependency; they become more difficult to control than those who entered into such relations could have imagined. Through unusually close ethnographic work in West African migrant communities in Amsterdam, Apostolos Andrikopoulos reveals unseen dynamics of siblinghood through shared papers, the tensions of race and gender that develop in mutually beneficial marriages, and the vast, informal networks of people, information, and documentation on which migrants rely. Throughout, Andrikopoulos demonstrates how inequality, exclusionary practices, and the changing policies of an often-violent state demand new forms of kinship to successfully navigate complex migration routes--

Global Governance Enterprises John J. Forrer, 2016-11-03 *Global Governance Enterprises* focuses on a specific multi-sector collaboration—the formation of an entity that carries out global governance—providing a detailed analysis of the context of their emergence, as well as how they are created, managed, and sustained. Forrer considers the growing challenges to successful global governance and the role of multi-sector collaborations in overcoming these challenges, arguing that such partnerships should be considered successful only when they meet specific conditions that ensure they are “doing well” and “doing good.” By establishing a coherent framework to define global governance enterprises across a wide span of sectors, the book develops a strong theoretical foundation for this type of partnership and provides the reader with an understanding of the practical, operational realities of organizing, financing, and sustaining global governance enterprises. It includes a full section of case studies, ranging from healthcare to environmental organizations, providing

practical insight into this form of governance and its function. This book should be on the shelf of any professional or student interested in global governance, public-private partnerships, or public management.

The Cleansing of Earth-2012 Ryszard Choroszy, 2009-03-01 The Cleansing of the Earth 2012 tells the transfixing and unforgettable story of Lucyna Lobos, who experienced a clinical death in a Poland hospital. Later, during a hypnotic regression, she saw an insightful and extraordinary vision -- which gave her answers to the secrets of the Great Pyramid of Giza, Egypt. Her memories hold a fascinating, riveting tale. A young Ancient Egyptian priestess is appointed by the gods to fulfill her mission in the Age of Aquarius. This is at the time of King Khufu, the builder of the Great Pyramid. Khufu, the One Who Arrived from the Sky, came to Earth to build this amazing structure with Star Visitors from the Ashun Planet in the Orion Constellation. They placed an Energy-Magnetic System in the pyramid. The system will protect the Earth during the return of the Nibiru Planet -- the same one that caused the biblical flood some twelve thousand years ago. Now it is up to the Lucyna Lobos and the organization that supports her to convince everyone that change is coming in the year 2012, when the Earth and its people will be cleansed and humans will achieve the fourth dimension. This will be the fulfillment of the Age of Aquarius.

The Discourse Community of Electronic Dance Music Anita Jóri, 2021-12-31 Research on electronic dance music communities has been initiated by scholars in the fields of sociology, cultural studies, public health research and others. Linguistic aspects, however, are rarely considered. Anita Jóri fills this gap of research and suggests a new perspective by looking at these communities as a discourse community. She gives an overview of the language use and discourse characteristics of this community while applying a mixed methodology of linguistic discourse analysis and cultural studies. The book is aimed at researchers and students in the fields of applied linguistics, popular music, media, communication and cultural studies.

The Life of a Girl Named Merle ,Merle,2022-11-03 The Life of a Girl Named Merle is an autobiography of my life. While I was born and raised in a big city, I am more of a country girl at heart. I had a good childhood, worked most of my life, and married with a family of my own. I had good times, funny times, exciting times, and some sad times, but most of all, a wonderful life. My name is special to me as you will read in my story. You can say it's my name that made me strong. So the point is, a title is just a title, like a book is just a book; but it is the contents, along with its title, that tells the story.
