Since Structured Discovery Cane Travel is individualized, this activity-based collection may be used to enhance introduction to and/or assistance with on-going education of comprehending complicated concrete and abstract Orientation and Mobility concepts to help achieve independent mobility. Structured Discovery Cane Travel Approach to Orientation and Mobility Concepts focuses on encouraging students to develop intrinsic knowledge and abilities through this plethora of activity-based transformational approaches to target individual objectives. How to be a Happier Parent KJ Dell'Antonia, 2020-06-02 An encouraging guide to helping parents find more happiness in their day-to-day family life, from the former lead editor of the New York Times' Motherlode blog. In all the writing and reporting KJ Dell'Antonia has done on families over the years, one topic keeps coming up again and again: parents crave a greater sense of happiness in their daily lives. In this optimistic, solution-packed book, KJ asks: How can we change our family life so that it is full of the joy we'd always hoped for? Drawing from the latest research and interviews with families, KJ discovers that it's possible to do more by doing less, and make our family life a refuge and pleasure, rather than another stress point in a hectic day. She focuses on nine common problem spots that cause parents the most grief, explores why they are hard, and offers small, doable, sometimes surprising steps you can take to make them better. Whether it's getting everyone out the door on time in the morning or making sure chores and homework get done without another battle, *How to Be a Happier Parent* shows that having a family isn't just about raising great kids and churning them out at destination: success. It's about experiencing joy--real joy, the kind you look back on, look forward to, and live for--along the way.

Raising Happiness Christine Carter, Ph.D., 2011-03-01 What do we wish most for our children? Next to being healthy, we want them to be happy, of course! Fortunately, a wide array of scientific studies show that happiness is a learned behavior, a muscle we can help our children build and maintain. Drawing on what psychology, sociology, and neuroscience have proven about confidence, gratefulness, and optimism, and using her own chaotic and often hilarious real-world adventures as

a mom to demonstrate do's and don'ts in action, Christine Carter, Ph.D, executive director of UC Berkeley's Greater Good Science Center, boils the process down to 10 simple happiness-inducing steps. With great wit, wisdom, and compassion, Carter covers the day-to-day pressure points of parenting—how best to discipline, get kids to school and activities on time, and get dinner on the table—as well as the more elusive issues of helping children build healthy friendships and develop emotional intelligence. In these 10 key steps, she helps you interact confidently and consistently with your kids to foster the skills, habits, and mindsets that will set the stage for positive emotions now and into their adolescence and beyond. Inside you will discover • the best way avoid raising a brat—changing bad habits into good ones • tips on how to change your kids' attitude into gratitude • the trap of trying to be perfect—and how to stay clear of its pitfalls • the right way to praise kids—and why too much of the wrong kind can be just as bad as not enough • the spirit of kindness—how to raise kind, compassionate, and loving children • strategies for inspiring kids to do boring (but necessary) tasks—and become more self-motivated in the process Complete with a series of “try this” tips, secrets, and strategies, Raising Happiness is a one-of-a-kind resource that will help you instill joy in your kids—and, in the process, become more joyful yourself.
