The Other Face Na Mogasale,2018-06-01 Set in a fictitious village called Kanthapura in Kasaragod district, Mukh?ntara spans across the life of seven generations of a Havyaka Brahmin family. A story about the realities of living in a society marked by caste distinctions, the desire to find communal harmony and the tribulations of the characters through the entirety of the novel, it is also a tale of changing times and people. After unexpectedly coming into possession of a huge portion of land, Thirumal?shwara Bhat of ?shwar?m?le becomes a satisfied man. But childless, Thirumal?shwara Bhat and his wife P?rvathakka decide to adopt Venkappaiah and also give shelter to his

widowed mother, Rathnamma. Venkappaiah is to inherit Thirumal?shwara's vast wealth but when Krishnaiah, the illegitimate child of Thirumal?shwara and Rathnamma is born, rivalry ensues. Through the overlapping narratives of the characters, we get a glimpse into their journey from tradition to modernity. Ancient Indian Tradition and Mythology Volume 38 Dr. G.P. Bhatt, Dr. G.V. Tagare, 2013-01-01

Nārada-Pāñcarātram, 1993 Vaishnava canonical text.

Cultural History From The Vayu Purana Rajaram D. K. Patil, 1973 The present book attempts to supplement the work of Pargiter on the Cultural plane. Pargiter was concerned with the dynastic records of the Puranic texts while this book aims to interpret cultural history from the Vayu Purana. The work is divided into ten chapters arranged systematically. The first five chapters contain facts of intellectual culture and the last five of material culture. The presentation of material has involved a great deal of translation and interpretation of the Puranic text. The work has two appendices and a critical introduction. Appendix A identifies the places and tribes. Appendix B describes the centres of pilgrimage. Introduction surveys the previous research on the Puranas, on the Vayu particularly. It discusses the antiquity of the Vayu, its value for the cultural history and the method followed in the present investigation. It also gives an outline of political history as found in the Vayu Purana. This book is valuable not only for Indian Culture, but also for a critical edition of Vayu, and consequently of other Purana material.

Exploring the Hindu Mind M.K.V. Narayan, Hinduism has a rich cultural heritage spanning the past four

thousand years or more. In this long epoch starting from the Vedic times and its evolution through spiritual and Puranic periods in a multi-ethnic and multi-linguistic settings, the religion had absorbed many changes and modifications to blossom into modern Hinduism. In this book, an attempt is made to bring out the symbolisms apparent or hidden in the ideas of Hindu mythology, rituals and cultural practices touching some visible parallel thoughts in modern science. Explaining the concept of God in India, the book discusses at length the Hindu mythology of earthly life, cultural advance, network of Hindu godheads, Vedic symbolism, rituals, iconography, marriage customs, temple culture, and music and dance.

Flipside of Hindu Symbolism M.K.V. Narayan, 2007-04
Hinduism is one of the major religions of the world with considerable antiquity and complexity. It is identified by its ancient scriptures called Vedas, Upanishads, Puranas and Epics, its iconography and temple culture visible in India and abroad. The popular epics Ramayana and Mahabharata attract interest all over the world for their thematic stories. Many books publicise the spiritual symbolism of these facets of Hinduism. Author of this book deviates from this general trend and analyses Hindu symbolism in the light of sociological perspectives and scientific parallels visible in the ever changing Indian society in the form of cultural expressions.

Celestial Matrix in Naadi Astrology Satyanarayana

Naik, A unique system of analysis based on zonal effect of rasis and planets posited therein and influenced by other planets from specified places is the main principle of Bhriugu Nandi Nadi expounded by R.G.Rao of Bangalore. Based on his works earlier book “Prediction Secrets- Naadi Astrology” was published. In the process of experimentation with the combination of the planets it was found that every birth has a set-pattern of planetary positions. The matrix formed at macro level indicates the purpose of the birth. At micro level with zonal and star influences detailed study of nativity will reveal many secrets. The star level needs to be explored with details of stars from the sacred texts. But the place of birth having different Year Lords, Month Lord the Day Lord, Hora Lord and Sub Hora Lord have equal influence in differentiating nativities. In this book an effort is made to identify the matrix at macro level for certain births. A deep analysis with the aid of Hora Lords etc. will definitely give the purpose of birth. Even with little efforts we can go to previous births. The horoscope of yogis are dealt with reference to Sub Hora Lords. There is also an example of analysing horoscopes having similar planetary combinations. This is a beginning of research in Naadi Astrology and the days are not far to reach the truth behind the Celestial Matrix influenced by subtle bodies. This is a handbook on Naadi System for the students and astrologers to develop further in the subject.

Texts in Context Jeffrey R. Timm, 1992-01-01 The major religious traditions of South Asia are [] religions of the book[]. All accept basic arrays of texts of scriptures, often seen as sacred reservoirs of meaning and power. The

West has viewed these texts as "bibles" of their respective traditions, projecting onto them Western values and concerns. This book challenges such misconceptions by revealing the complex character of scripture and its interpretation in South Asian religions. *Texts in Context* explores the hermeneutical traditions of Hinduism, Buddhism, Jainism, Islam, and Sikhism. The question of how we should understand the diversity of text-traditions is approached by asking "How have traditional thinkers" the exegetes within these traditions "understood and utilized scripture?" The answers, though remarkably diverse, do reveal important similarities and take the discussion of scripture in India to a deeper level. This book makes accessible to the non-specialist sensibilities and approaches that have previously received little attention in the West, but have formed the basis for traditional efforts to understand and utilize scripture. It is a collaboration between contemporary thinkers and their traditional counterparts, whose voices emerge as they consider the sacred words of the religious traditions of South Asia.

Secrets of the Universe Guru Visvesvaran, 2016-11-19
This book is to explain the process of how the universe was created, how creatures, mortal and immortal came into existence, what happens to the universe after a long period of time, and how we can escape the physical universe and save ourselves from ourselves, called Karma. Karma the Science of Activity is a law that was established when gravity took shape and the creatures entered into it, influenced by its force field, which created desire-the desire to live enjoyably and oppose the negative forces that would create misery. Therefore how to be happy, is knowing how to oppose negativity. How to do so is one of the purposes of this book. But before that can happen we need to learn the structure of the universe, who lives

where and why.
