**Historical Dictionary of the Discovery and Exploration of the Pacific Islands** Max Quanchi,John Robson,2005-10-18 The South Seas, as this region used to be called, conjured up images of adventure, belles and savages, romance and fabulous fortunes, but the long voyages of discovery and exploration of the vast Pacific Ocean were really an exercise in amazing logistics, navigation, hard grit, shipwreck and pure luck. The motivations were scientific and geographic, but at the same time nationalistic and materialistic. A series on global exploration and discovery would not be complete without this book by Quanchi and Robson. It is ambitious and informative and includes the familiar names of Laperouse, Bougainville, Cook and Dampier, as well as the intriguing stories of the Bounty Mutiny, scurvy, and the mysterious Northwest Passage, Terra Australis Ignota and Davis Land. There are entries on first contacts, ships, navigational instruments, mapping, and botany. The scene is carefully set in the introduction, the chronology spans several centuries, and the extensive bibliography offers a guide to further reading. There are more than just dry facts in this book. It has a whiff of salt air, the clash of empires, cross-cultural beach encounters and personal adventure.

*Clark Little* Clark Little,2022-04-05 Instagram sensation Clark Little shares his most remarkable photographs from inside the breaking wave, with a foreword by world surfing champion Kelly Slater. “One of the world’s most amazing water photographers . . . Now we get to experience up-close these moments of bliss.”—Jack Johnson, musician and environmentalist Surfer and photographer Clark Little creates deceptively peaceful pictures of waves by placing himself under the deadly lip as it is about to hit the sand. Clark's view is a rare and dangerous perspective of waves from the inside out. Thanks to his uncanny ability to get the perfect shot--and live to share it--Little has garnered a devout audience, been the subject of award-winning documentaries, and become one of the world's most recognizable wave photographers. Clark Little: The Art of Waves compiles over 150 of his images, including crystalline breaking waves, the diverse marine life of Hawaii, and mind-blowing aerial photography. This collection features his most beloved pictures, as well as work that has never been published in book form, with Little's stories and insights throughout. Journalist Jamie Brisick contributes essays on how Clark gets the shot, how waves are created, swimming with sharks, and more. With a foreword by eleven-time world surfing champion Kelly Slater and an afterword by the author on his photographic practice and technique, Clark Little: The Art of Waves offers a rare view of the wave for us to enjoy from the safety of land.

**Les Sauvages de la Mer Pacifique** Art Gallery of New South Wales,National Gallery of Australia,2000 Les Sauvages de la Mer Pacifique is a rare

panoramic wallpaper manufactured in France at the beginning of the 19th century. A product of French neoclassical culture, it draws its dramatic subject matter from the exploratory voyages of Europeans to the South Pacific. The imaginatively evoked scene created for the observer within the papered room a world of exotic cultures and environments. Four extensive essays examine the collection and reception of Pacific artifacts in Europe in the late 18th and early 19th centuries; the source material for the wallpaper's imagery; philosophical and technical aspects of its production; and the wallpaper in the context of the post-colonial Pacific region.
