Dr. Dilipkumar A. Ode,Jigeshkumar D. Chauhan,Dr. Tilottama B Galande,Dr. Rita Sangtani,Dr. Birajlakshmi Ghosh,Dr. Vinod kumar Cherukuri

HDFC Bank 2.0 Tamal Bandyopadhyay, 2019-01-01 FOREWORD BY NANDAN NILEKANI “Tamal combines his financial knowledge, eye for detail, and an excellent storytelling style to create a vivid portrait of India’s most valued bank and its path to the future.” NANDAN NILEKANI, Co-founder and Chairman of Infosys and Founding Chairman of UIDAI (Aadhaar) “Tamal has enthusiastically documented the epiphany that HDFC Bank’s leadership had in starting out on their digital journey. India is set for seismic changes to day-to-day banking over the next few years and banks who don’t commit to fully re-engineering their practice around becoming a technology company that delivers real-time, contextual banking experiences will wither on the vine. HDFC Bank has made a solid start on this journey, but the final chapter has not yet been written.” BRETT KING, Founder, Moven and bestselling author of Bank 4.0 The seeds of change were sown in September 2014, when HDFC Bank MD Aditya Puri went to Silicon Valley to meet the brightest tech minds in the world. By the time he got back, he knew exactly what needed to be done. It was time for a revolution. Instead of waiting to be disrupted by fintech companies, HDFC Bank went all out to disrupt itself, recasting its role and scope on a scale that has never been attempted before. In one of the biggest transformations ever undertaken in any business, HDFC Bank wants to become a platform facilitating a financial experience. Tamal Bandyopadhyay chronicles HDFC Bank’s own digital disruption exercise through the very people who drove it, narrating a story that’s as compelling as unique in India’s financial system. With his keen eye for detail, deep knowledge of banking and unparalleled storytelling ability, Bandyopadhyay recounts the journey of India’s most valued lender from a life cycle bank to a lifestyle bank. TAMAL BANDYOPADHYAY is a bestselling author, award-winning columnist and a keen observer of the Indian banking sector for over two decades.

Economic Empowerment of Women for Sustainable Development Dr. V. Malarvizhi, Dr. S. Gandhimathi, Dr. R. Annapoorni, 2024-03-25 In the global pursuit of equitable progress, the empowerment of women emerges as not merely an ethical imperative but a pragmatic necessity. The imperative of women's economic empowerment finds resonance throughout history, woven into the fabric of social movements, policy reforms, and economic progress. From the suffragette movements of the late 19th and early 20th centuries to the landmark conventions on women's rights and development in the latter half of the 20th century, the trajectory of gender equality has been marked by both triumphs and trials. The 1995 Fourth World Conference on Women in Beijing stands as a watershed moment, galvanizing global commitments to women's empowerment and setting forth an ambitious agenda for action. Subsequent milestones, including the adoption of the Sustainable Development Goals (SDGs) in 2015, further underscore the intertwined nature of gender equality and sustainable development. Over the years though the researchers, academicians and government have tried to find ways and means for economic empowerment of women many aspects of women economic empowerment- entrepreneurship and innovation, work place equality, global partnership etc are yet to be completely resolved. Little attention has been paid to the above aspects by the researchers, policy makers and development planners. The present volume titled “Economic Empowerment of Women for Sustainable Development containing 32 papers covers different aspects and issues related to economic empowerment of women and sustainable development. It is an initiative for shedding light on the pivotal role women play in fostering sustainable economic development. The main themes with the volume covers are: financial inclusion, education skill development, technology and digital inclusion, leadership, decision making, policy and advocacy. The volume will provide women’s input and health for the academicians, researchers, policy makers and government officials.
