Powerful, short and simple, this meditation is practical in that it takes only ten to fifteen minutes a day, and unique in that it helps manifest our dreams and aspirations by empowering our thoughts, stimulating analytical thinking, magnifying and expressing our dormant capabilities, and attracting the necessary resources from known and unknown directions. The book is equally helpful for beginners, who do not know how to meditate, as well as for those who practice meditation regularly. White Light Meditation does not need initiation or expert supervision. You can access the White Light simply by 'intending' that it come to you. Regular practice of this meditation infuses divine manifesting power into the subtle energies of our thoughts and wishes, thus triggering a positive chain of events, and steering us on to reaching the desired goal(s). Owing to its open approach, White Light Meditation happens spontaneously irrespective of whether one is by nature spiritual or not. A ten to fifteen minute daily White Light Meditation routine is what is needed to continue the process of transformation with the White Light, and thus bring the desired improvements in your life. For almost two decades, the author (previously published as Sunetra Basu) has been meditating with the White Light, manifesting positive results for her clients and students. In this book she shares the sacred knowledge of accessing the White Light and wishes that all her readers would learn and practice this phenomenal spiritual exercise from the step-by-step simple instructions. ThetaHealing® Vianna Stibal, 2020-01-21 Discover the worldwide phenomenon of ThetaHealing® and how it can help you to achieve transformational healing in this revised and updated edition of Vianna Stibal's definitive guide. In 1995, Vianna Stibal was diagnosed with a serious health condition. When conventional and alternative medicine failed her, she discovered a simple technique that cured her illness and sparked a worldwide phenomenon. ThetaHealing® is essentially applied quantum physics. Using a theta brain wave, which until now was believed to be accessible only in deep sleep or yogi-level meditation, the practitioner is able to connect with the energy of All That Is - the energy in everything -

In this revised and updated edition, you will discover: - the belief and feeling work that can instantly change the thinking within you that creates illness - the 7 Planes of Existence, a concept that allows you to connect to the highest level of love and energy of All That Is - how to develop the ability to change on all levels: physically, mentally, emotionally and spiritually, using the Creator of All That Is.

Wheels of Light Rosalyn Bruyere, 1994-04-12 *Wheels of Light* explores the seven chakras, or energy centers, of the body with particular focus on the first chakra, which has to do with our basic life force, our physical bodies, and our sexuality. Drawing on scientific research, Native American culture, the ancient traditions of the Egyptians and Greeks, the philosophies of the Hindus, and the religions of the East, Rosalyn L. Bruyere presents a unique perspective on the value and healing potential of the chakra system.

Anything Can Be Healed Martin Brofman, 2019-06-11 A new edition of the classic practical manual for utilizing the chakra system as a body/mind interface for effective energetic healing • Explores the physical body as a mirror of our consciousness, with symptoms reflecting inner stresses in our emotional being, our mind, and/or our higher self • Offers an in-depth explanation of different aspects of each chakra, alongside a chakra meditation and practical energy exercises • Includes color reference charts of the chakras and their associated vibrations, systems, layers of the aura, senses, and areas of consciousness Drawing on his own profound healing experience as a young man, Martin Brofman developed a system of healing that effectively and seamlessly blends Western psychology and Eastern philosophies: the Body Mirror System. He explains how the chakra system connects to both mind and body to form a body/mind interface,

allowing us to read the physical body as a mirror of the consciousness within, track the route from symptom to cause, and then work on releasing the causes on all levels. Brofman shows how specific tensions or symptoms on the physical level reflect corresponding tensions in one's consciousness about specific issues in life--the inner cause to the outer symptom. The author explains how healing the symptom needs to involve not only releasing the tension on the physical level, but also letting go of the stressful way of interacting with the environment. Thus, the process of healing always implies a process of transformation. Within the concepts of his Body Mirror System, Brofman explores the chakras and their role in the body, including their associated vibrations, parts of the body, senses, layers of the aura, and areas of consciousness. He explains how to clear and connect the chakras, how to connect to the cosmos through the chakras, and how engaging with thought forms, time travel, and past lives can assist in healing sessions. Discussing the healing of others as well as self-healing, Brofman describes how to heal with chakras, thought forms, white light, and love, and how to perform distance healing. He provides practical energy exercises and chakra meditations, allowing the reader to imminently experience the healing energy in their bodies and prepare for a healing session. He also includes color reference guides, such as a chakra healing chart. Deeply examining the multilayered elements of the healing process, including transformation, this classic healing guide serves as a practical introduction to energy healing as well as a healer's tutorial and reference book.
