The Art of Prolog, second edition Leon S. Sterling, Ehud Y. Shapiro, 1994-03-10 This new edition of The Art of Prolog contains a number of important changes. Most background sections at the end of each chapter have been updated to take account of important recent research results, the references have been greatly expanded, and more advanced exercises have been added which have been used successfully in teaching the course. Part II, The

Prolog Language, has been modified to be compatible with the new Prolog standard, and the chapter on program development has been significantly altered: the predicates defined have been moved to more appropriate chapters, the section on efficiency has been moved to the considerably expanded chapter on cuts and negation, and a new section has been added on stepwise enhancement—a systematic way of constructing Prolog programs developed by Leon Sterling. All but one of the chapters in Part III, Advanced Prolog Programming Techniques, have been substantially changed, with some major rearrangements. A new chapter on interpreters describes a rule language and interpreter for expert systems, which better illustrates how Prolog should be used to construct expert systems. The chapter on program transformation is completely new and the chapter on logic grammars adds new material for recognizing simple languages, showing how grammars apply to more computer science examples.

A Dictionary of the Bible James Hastings, 2004-10 For over a century the ten-volume Dictionary of the Bible has been the definitive reference. It is a Dictionary of the Old and New Testaments, together with the Old Testament Apocrypha, according to the Authorized and Revised English Versions, and with constant reference to the original tongues. ... Articles have been written on the names of all Persons and Places, on the Antiquities and Archaeology of the Bible, on its Ethnology, Geology, and Natural History, on Biblical Theology and Ethic, and even on the obsolete or archaic words occurring in

the English Versions. James Hastings (1852-1922) was a distinguished scholar and pastor. He was founder and editor of the Expository Times and is also well known for editing the Encyclopaedia of Religion and Ethics, the Dictionary of Christ and the Gospels, and the Dictionary of the Apostolic Church.

“I Will Walk Among You” G. Geoffrey Harper, 2019-11-01 The well-known parallels between Genesis and Leviticus invite further reflection, particularly in regard to the rhetorical and theological purpose of their lexical, syntactical, and conceptual correspondences. This volume investigates the possibility that the final-form text of Leviticus is an indirect reference to Genesis 1–3 and examines the rhetorical significance of such an allusion. The face of Pentateuch scholarship has shifted dramatically in the last forty years, resulting in the questioning of many received truths and the employment of a host of new, renewed, and often competing methodologies by biblical scholars. This study sits at the intersection of these recent interpretive trends. G. Geoffrey Harper uses insights from the fields of intertextuality, rhetorical criticism, and speech act theory to create a methodological framework, which he applies to three Leviticus pericopes. Chapters 11, 16, and 26 are examined in turn, and for each the

assessment of potential parallels at lexical, syntactical, and conceptual levels reveals a complex web of interconnected allusion to the creation and Eden narratives of Genesis 1 and 2–3. Moreover, Harper probes the theological and rhetorical import of these intertextual connections and explores how Leviticus ought to be understood in its Pentateuchal context. This comprehensive study of the connections between these two sections of the Hebrew Bible sheds light on both the literary artistry of these ancient texts and the persuasive purposes that lie behind their composition.
