ABHB Annual Bibliography of the History of the Printed Book and Libraries Hendrik D.L. Vervliet,2013-11-11 The history of printing, books, and libraries, is confined only to a limited extent within the boundaries of individual countries. There are, indeed, few historical developments which have played a more universal role, in reaction against all kinds of particularism, than type design, printing, book production, publishing, illustration, binding, librarianship, journalism, and related subjects. Their history should be assessed and studied primarily in an international, not in a local, context. The bibliographical resources, however, which the historian of these subjects has at his disposal correspond hardly at all to the essentially international character of the object of his studies. Since the appearance of the retrospective bibliography of BIG MORE and WYMAN, covering the subject comprehensively up to 1880, the only current bibliography

has been the Internationale Bibliographie des Buch- und Bibliothekswesens. Covering a representative part of newly published literature, it appeared from 1928, but did not survive the Second World War. More recently, several useful, but limited, bibliographies have appeared.

Mighty Peculiar Elections Randy Sanders, 2007-10-01 In 1970, four racially moderate Democrats won governors' seats in the American South -- Dale Bumpers in Arkansas, Reubin Askew in Florida, John West in South Carolina, and Jimmy Carter in Georgia. In *Mighty Peculiar Elections*, Randy Sanders explores these campaigns and shows that while each reflected aspects of its state's unique history and political idiosyncrasies, taken together, they signaled changes in attitudes and the politics of race in the South as well as the nation as a whole. Most southerners by 1970 had come to realize the futility of overt opposition to federal civil rights policies and no longer wanted to hear political candidates singing the refrains of white supremacy. Bumpers won Arkansas's Democratic primary over former Governor Orval Faubus, who had symbolized southern intransigence since 1957, when he ordered the state militia to prevent school integration at Central High School in Little Rock. Askew defeated Florida's Republican incumbent governor, Claude Kirk, who seized a school district during the campaign in order to thwart a court-ordered school desegregation plan. Similarly, West ran against Republican Albert

Watson, who spewed fiery anti-integration rhetoric, and Carter succeeded Lester Maddox, who had established and maintained his hard-line segregationist reputation by autographing ax handles, mementos of the weapon he used years earlier to prevent blacks from entering his restaurant. None of the victors in 1970 talked much about civil rights during their campaigns; they all downplayed, evaded, or finessed racial issues when those topics arose. Sanders describes how the successful candidates carefully shaped their campaigns, rejecting the rhetoric of resistance without uttering strong words in favor of desegregation. A shared campaign strategy of new populism emerged among these candidates -- a strategy that promoted the interests of common folk, but relied primarily on image and style rather than issues to attract support. The candidates also perceived the diminishing power of party loyalty, political machines, and power brokers that controlled large groups of voters, and began to appeal directly to the electorate through television, employing effective strategies that emphasized their best qualities. The cool images of reasoned calm played well on television and prevailed over the hot pictures of frenzied defiance. Using archival materials, media records, personal papers, and interviews, Sanders shows that although these elections did not mark a total transformation of southern politics, they did suggest a subtle shift in the balance of power away from those who continued to roar the rhetoric of racism and resistance towards those who espoused a more moderate position. By focusing on one moment in a period of great political change, *Mighty Peculiar Elections* shines a spotlight on the evolving racial attitudes of the New South.

The Greatest Man Uncrowned Nicholas Grenville Round, 1986

Alvaro de Luna was for almost forty years Juan II of Castile's closest friend, and for the greater part of that time his chief minister.

Working ceaselessly to consolidate Juan's position, achieved through his great-grandfather's murder of his half-brother king Pedro, he had initially to establish a power base and, in the years preceding his eventual downfall, to maintain it against the constant restlessness of the Spanish nobility. Only in the middle years can he be seen to have given Spain a fiscal regime, an enterprising recruitment policy for the public services, and a coherent ideology. This study of the violent and enigmatic circumstances in which his career came to an end makes a valuable contribution to understanding 15th-century Castilian history.

Pedro the Cruel of Castile (1350-1369) Estow, 2022-02-07 This work deals with the reign of Pedro I of Castile (1350-1369), known as "The Cruel," one of the most notorious and misunderstood figures in the annals of peninsular history. This is the first book on the subject that analyzes Pedro's rule in light of social, political, diplomatic, and economic conditions in mid-14th century Castile. Using extant

primary documentation from archival sources and the most recent findings of scholars from various fields, the book explores in detail the historical basis for Pedro's reputation and the extent to which this reputation unfairly rests on the testimony of Pero López de Ayala, the reign's principal chronicler. The book provides fresh insights into various aspects of Pedro's career, such as his political aims, relations with religious minorities, and fiscal policies.
