Perfumes, juices, oils and other products extracted from seeds, leaves, shoots, and bark of the herbs have been used since the earliest times in religious ceremonies, and in cooking. Magicians used them in making mysterious potions to impress the credulous public. Herb essential oils along with parts of herbs have long been in use down the millenniums to make natural beauty products. The oracles of Delphi were women who had been "intoxicated" on fumes of deadly nightshade, which would make them hallucinate. And then with bay leaves in their mouths-these leaves were considered sacred to Apollo - they used to predict the future. No wonder not many could understand them or interpret their sayings. So each hearer chose the one which suited his requirements the best, and believed the Gods had spoken. Today, these herbs are usually grown for their great value in cooking. That is why it is well worth finding a small place for herbs in any garden. The 21st century world is also slowly and steadily getting back to the idea that the herbal remedies, which were used in alternative medicine in ancient civilizations of the East and West had curative properties.
