Outreach for Music Librarians Scott Stone,2019-01-01 Many music librarians are tasked with reaching out to their primary user groups, but don't know how to start this process, or need new ideas to spur them forward. Outreach for Music Librarians is a manual designed to provide immediate, practical help in the planning, implementation, and assessment of outreach projects. This manual is divided into three sections: (1) foundational principles to be kept in mind no matter the project; (2) an introduction to six different outreach projects with all the information needed to implement; and (3) case studies of outreach projects at four vastly different libraries. While this manual is aimed at newer practitioners, Outreach for Music Librarians provides such a wide breadth of information that even experienced music librarians should find new inspiration and should include it in their own collections.

Music for Silent Film Kendra Preston Leonard,2016-01-01 Between 1895 and 1929, more than 15,000 motion pictures were made in the United States. We call these works "silent films," but they were accompanied by an enormous body of music, including works adapted or arranged from pre-existing works, as well as newly composed pieces for theater orchestras, organists, or pianists. While many films and pieces are lost, a considerable amount of material remains extant and available for use in research and performance. Music for Silent Film: A Guide to North American Resources is a unique resource on North American archives and English-language materials available in for those interested in this repertoire. Part I contains information about archives of primary source materials

including full and compiled scores, sheet music, published anthologies of music, interviews with cinema musicians, periodicals, and instruction books. Part II surveys the English-language scholarship on silent film music in articles, book chapters, essay collections, and monographs through 2015. The book is fully indexed for ease of access to these important sources on film music.
