**Stained Glass** Virginia Chieffo Raguin,2013 Stained glass is a monumental art, a corporate enterprise dependent on a patron with whom artists blend their voices. Combining the fields now labeled decorative arts, architecture, and painting, the window transforms our experience of space. Windows of colored glass were essential features of medieval and Renaissance buildings. They provided not only light to illuminate the interior but also specific and permanent imagery that proclaimed the importance of place. Commissioned by monks, nuns, bishops, and kings, as well as by merchants, prosperous farmers, and a host of anonymous patrons, these windows vividly reflect the social, religious, civic, and aesthetic values of their eras. Beautifully illustrated with

reproductions from the remarkable stained glass collection at the J. Paul Getty Museum, *Stained Glass* addresses the making of a stained glass window, its iconography and architectural context, the patrons and collectors, and the challenges of restoration and display. The selected works include examples from Austria, Belgium, England, France, Germany, the Netherlands, and Switzerland. Subject matter ranges from monumental religious scenes for Gothic churches to lively heraldic panels made for houses and other secular settings. Integrating comparisons to works of art in other media, such as manuscripts, drawings, and panel paintings, this book encourages the general reader to see stained glass as an element of a broad artistic production.

*The Technique of Stained Glass* Patrick Reyntiens, 1967

**Discovering Stained Glass in Detroit** Nola Huse Tutag, Lucy Hamilton, 1987 The Detroit area boasts many fine examples of stained glass representing a variety of periods and styles. The European stained glass collection at the Detroit Institute of Arts ranks amongst the most important in the United States. Churches and synagogues contain panels from notable designers and studios, and exquisite glass can also be found in many public and private buildings like the Detroit Public Library, Cranbrook House, the Guardian Building, and the David Whitney, Jr., house. *Discovering Stained Glass in Detroit* contains sixty examples of the area's stained glass treasures, each stunningly presented in full color. Author Nola Huse Tutag accompanies each illustration with an explanatory text. Line drawings illustrate the buildings where the panels are located. The windows represent works by designers such as Louis Comfort Tiffany, Charles J. Connick, Frank Lloyd Wright, Henry Matisse, as well as those from European and American studios.

**The Queen of Sicily and Gothic Stained Glass in Mussy and Tonnerre** Meredith P. Lillich, 1998 Following the death of St. Louis, a new court fashion of ostentatious display was introduced into French stained glass with the advent of Queen Marie de Brabant, who in 1274 became the second wife of St. Louis's heir Philippe le hardi. Little stained glass in this new style survives, since the very motifs that made it different -- large donor 'portraits, ' elaborate heraldry, lavish name-inscriptions -- were targets of vandalism. This study reconstructs two ensembles in the new style, at Mussy-sur-Seine in southern Champagne & at the medieval hospital of Tonnerre in Burgundy. Both can be connected with the extraordinary figure of Marguerite de Bourgogne. Titled the Queen of Sicily, she was a revered agent of Christian charity of the Gothic era. 50+ illustrations.

God's Story Through...God's Light Gary M. Gray (Ed. D.), Gary Gray, 2006-08 Since the 11th century, stained glass has infused the sanctuary with scripture held up to the light. Through the release of brilliant hues, the power and mystery of God's story has been told to billions throughout the centuries. This feast of light and color continues to elicit spiritual, emotional, and aesthetic reactions, even in the midst of technological sophistication. God's Story Through God's Light guides the modern liturgical committee through the stained glass design process, and suggests the appropriate long-range plan of restoration, protection, and insulation. After inspecting the stained glass of two thousand American churches and synagogues, Dr. Gary M. Gray now shares this vital knowledge with those assigned to create and perpetuate the spiritual message to present and future generations.

**Stained Glass from Mind to Light** Narcissus Quagliata, 1976

*Windows for the Soul* Ron Bovard, 2006 The original edition of *Windows For The Soul* was published in 2000. Since that date, Bovard Studio of Fairfield, Iowa has completed so many new commissions that the book cried out for a complete overhaul. This revised edition continues to feature ecclesiastic stained glass and remains a valuable resource with inside information on church window commissions. Ron Bovard, has updated most chapters, added several new stories and increased the number of images from 350 to over 480 colour photographs and window designs. The author shares his masterful vision and discerning wisdom gleaned from thousands of commissions and restoration projects. The extensive text is a delightful read and describes some of Mr Bovard's more memorable undertakings. In addition, the reader will gain some insight into the creative process, as well as an overview of project work flow including, custom painting, staining, fabrication, bracing, and protective glazing. One notable chapter tracks a complete restoration of an original Tiffany window from its careful removal to final reinstallation.
