30,000 Leagues Undersea Tom Vetter, 2015-04-10 Journey with me into the abyss, a world far more dangerous than space! What's this book about? Life. Death. Imminent danger. Unexpected reprieve. Victory. Defeat. Success. Failure. Thermo-nuclear war. True love. Loss. High drama. Low comedy. Ronald Reagan. Mikhail Gorbachev. And Bond, James Bond. They're all here. Ninety amazing and entirely true tales of swash-buckling adventure on the sea and beneath it, as a boy grows into manhood steadfastly pursuing his lifelong dream, wins a million-to-one shot to become a Hydronaut, and lives a life of high adventure undersea exploring the abyss, a world far more dangerous than space. The author states: I have been trapped on the seafloor twice. Deluged by flooding as I dove a submarine to its maximum depth. In control of a submerged submarine on fire. Alone on a sinking boat at night, bailing to stay alive. Out of air with empty lungs while diving 90 feet down. Next to a fool about to light his cigarette as we stood on 66,000 gallons of high-octane gasoline. And I have had the chance to do and see amazing things, enough for ten lives. I have sailed 100,000 miles in submarines, dove more than three miles to the abyssal seafloor of the Pacific, and explored an alien world far more dangerous than space. I have gone to places on Earth no one else ever will. I found the first naval aviator ever recovered from the abyss. I mapped the wreckage of USS Thresher. And I held thermonuclear targeting steady on Mother Russia as President Reagan met Gorbachev in Reykjavik. In this book, I tell those stories and more, 90 stories of a life spent undersea. These are the good parts, cooked down to short tales you can read on a bus, a lunch break, or in your bunk before lights out. Join

me. I will take you places no one else can. You will survive, I promise, and have a good time along the way. So come on-dive in!e;At turns gripping, compelling, and simply enchanting, Vetter's 30,000 Leagues Undersea is a door straight into a breathtaking world few human beings have ever touched ... or ever will.e; -- Holly Lisle.30,000 Leagues Undersea. Fiction adventures Jules Verne might have written. But I lived them.

Hardy Boys 44: The Haunted Fort Franklin W. Dixon,1964-12-01 A long-distance telephone call from Chet Morton's uncle summons Frank and Joe Hardy and their staunch pal Chet to a summer art school, located near old Fort Senandaga which is reputed to be inhabited by a ghost. The young detectives' assignment: recover two famous oil paintings stolen from the valuable Prisoner-Painter collection owned by Jefferson Davenport. Mr. Davenport reveals that one of the famous pictures contains a clue to the hiding place of a priceless gold chain. Vicious threats and deadly traps beset Frank, Joe, and Chet as they search for clues to the stolen paintings and the gold treasure - a search that is complicated by the stormy feud between an Englishman and a Frenchman over the military history of the ancient fort.

First Course In Turbulence Dean Young,1999-04-01 Finalist for ForeWord Magazine 1999
Poetry Book of the Year With rapid shifts between subject and tone, sometimes within single poems, Dean Young's latest book explores the kaleidoscopic welter of art and life. Here parody does not exclude the cri de coeur any more than seriousness excludes the joke. With surrealist volatility, these

poems are the result of experiments that continue for the reader during each reading. Young moves from reworkings of creation myths, the index of the Norton Anthology of Poetry, pseudo reports and memos, collaged biographies, talking clouds, and worms, to memory, mourning, sexual playfulness, and deep sadness in the course of this turbulent book.

Undersea Geoffrey Morrison, 2014-05-10 In a world flooded and irradiated by a nearly forgotten cataclysm from generations passed, all that remains of civilization clings to life in two war-torn, city-sized submarines. For fifty years, the only peace between them had come from separation. Now, young council woman Ralla Gattley has uncovered mysteries that will bring these two factions face-to-face, initiating a series of events that will forever change their undersea world. She didn't expect to meet Thom Vargas, a bored fisherman and aspiring drunk who merely wants to climb one rung on the social ladder. Little did he know that single step may well put the fate of the world in his hands.

The Little Red Marble: A Journey Into Sea Glass Terry Kerr, 2015-05-08 This brilliantly illustrated children's book recounts the story of a small red marble won by an older brother in a contest and loved by his younger sister. Lost while at sea, the marble is churned up by the sea for decades until discovered as sea glass on the shore of Prince Edward Island by the girl, now a grandmother, who shares the story with her grandchildren.

Deep Black Sea David M. Salkin, 2014-06-18 “Science fiction at its best, a realistic tale of exploration and danger, written by a man who knows the details of deep-sea exploration firsthand.” —Ben Bova, Hugo Award-winning author With a crew of seven, the Challenger sea lab submerges three miles below the waves for a one-year mission to study the hidden world of the deep black sea. How is it that sea animals can live and reproduce in water that should boil them on the thermal vents known as “black smokers?” Superheated water that is full of toxins and heavy metals and contains almost no oxygen should be void of life on planet Earth—and yet it is teeming with it. The answer to the puzzle lies in the bacteria. Researcher Ted Bell is a NASA scientist with his own agenda: getting humans to Mars. When he purposefully infects a member of the crew in an attempt to harness the power of the *Deinococcus radiodurans* bacteria, he quickly loses control and unleashes a terrifying new creature. His botched experiment quickly becomes a battle for survival—three miles below the surface. With the research vessel nearing catastrophic failure, and terrifying alien life forms running wild through the ship, the crew must figure out a way to battle something that is no longer human while trying desperately to reach the surface alive. “Crichton at his best is the main author who comes to mind as a comparable influence when reading Deep Black Sea . . . The informative and fascinating science that fills each page really elevates this book to a higher grade.” —Horror Novel Reviews

Song of the Undersea Ronald Kirkbride,

Undersea Atrophy Geoffrey Morrison,2016-06-03 A great silence has settled upon a drowned world. In the final battle of their final war, the massive citysubs Universalis and Population reduced each other to ruins. One lays wrecked on the seafloor. The other, beached and lifeless, litters the island of pristine polar ice it tried to destroy. Pockets of survivors huddle together. On the frigid surface, Ralla Gattley and Thom Vargas cling to life and each other. Below, the soldier Geran Lo fights relentlessly to free trapped and drowning civilians. As they struggle against a world determined to kill them, a new and even more dangerous menace approaches. Undersea Atrophy is the second book in the Undersea Saga.
