**The Lost City of the Monkey God** Douglas Preston, 2017-01-03 NAMED A NEW YORK TIMES NOTABLE BOOK OF 2017#1 New York Times and #1 Wall Street Journal bestseller! A five-hundred-year-old legend. An ancient curse. A stunning medical mystery. And a pioneering journey into the unknown heart of the world's densest jungle. Since the days of conquistador Hernán Cortés, rumors have circulated about a lost city of immense wealth hidden somewhere in the Honduran interior, called the White City or the Lost City of the Monkey God. Indigenous tribes speak of ancestors who fled there to escape the Spanish invaders, and they warn that anyone who enters this sacred city will fall ill and die. In 1940, swashbuckling journalist Theodore Morde returned from the rainforest with hundreds of artifacts and an electrifying story of having found the Lost City of the Monkey God-but then committed suicide without revealing its location. Three quarters of a century later, bestselling author Doug Preston joined a team of scientists on a groundbreaking new quest. In 2012 he climbed aboard a rickety, single-engine plane carrying the machine that would change everything: lidar, a highly advanced, classified technology that could map the terrain under the densest rainforest canopy. In an unexplored valley ringed by steep mountains, that flight revealed the unmistakable image of a sprawling metropolis, tantalizing evidence of not just an undiscovered city but an enigmatic, lost civilization. Venturing into this raw, treacherous, but breathtakingly beautiful wilderness to confirm the

discovery, Preston and the team battled torrential rains, quickmud, disease-carrying insects, jaguars, and deadly snakes. But it wasn't until they returned that tragedy struck: Preston and others found they had contracted in the ruins a horrifying, sometimes lethal-and incurable-disease. Suspenseful and shocking, filled with colorful history, hair-raising adventure, and dramatic twists of fortune, THE LOST CITY OF THE MONKEY GOD is the absolutely true, eyewitness account of one of the great discoveries of the twenty-first century.

**The Forest** Edward Rutherford,2013-06-12 NATIONAL BESTSELLER • “Rutherford brings England’s New Forest to life” (The Seattle Times) in this companion to the critically acclaimed *Sarum* From the time of the Norman Conquest to the

present day, the New Forest, along England's southern coast, has remained an almost mythical place. It is here that Saxon and Norman kings rode forth with their hunting parties, and where William the Conqueror's son Rufus was mysteriously killed. The mighty oaks of the forest were used to build the ships for Admiral Nelson's navy, and the fishermen who lived in Christchurch and Lymington helped Sir Francis Drake fight off the Spanish Armada. The New Forest is the perfect backdrop for the families who people this epic story. The feuds, wars, loyalties, and passions of many hundreds of years reach their climax in a crime that shatters the decorous society of Bath in the days of Jane Austen, whose family lived on the edge of the Forest. Edward Rutherfurd is a master storyteller whose sense of place and character—both fictional and historical—is at its most vibrant in *The Forest*. "As entertaining as *Sarum* and Rutherford's other sweeping novel of British history, *London*."—*The Boston Globe*

The Hidden Hollow Njord Kane, 2017-09-01 Awakened late in the night, Rowan's life is changed forever. The events that follow propel him on a journey that only the foolhardy or desperate would risk. He is led into the forest and up the mountain – into a whole world of secrets in itself. This is only the beginning of his adventures. Something is stirring in the forest, something more ominous than the rising threat across the seas. Fearful travelers whisper of a darkness breathing in the forest, disturbing it, corrupting it. In the very heart of these stirrings, Rowan encounters that which defies belief, leaving him speechless with terror – and wonder. A historical fiction that carries you into the fantasy world of Norse myth and Viking legend.

Lost in the Forest Sue Miller, 2005-04-26 For nearly two decades, since the publication of her iconic first novel, *The Good Mother*, Sue Miller has distinguished herself as one of our most elegant and widely celebrated chroniclers of family life, with a singular gift for laying bare the interior lives of her characters. In each of her novels, Miller has written with exquisite precision about the experience of grace in daily life—the sudden, epiphanic recognition of the extraordinary amid the ordinary—as well as the sharp and unexpected motions of the human heart away from it, toward an unruly netherworld of upheaval and desire. But never before have Miller's powers been keener or more transfixing than they are in *Lost in the Forest*, a novel set in the vineyards of Northern California that tells the story of a young girl who, in the wake of a tragic accident, seeks solace in a damaging

love affair with a much older man. Eva, a divorced and happily remarried mother of three, runs a small bookstore in a town north of San Francisco. When her second husband, John, is killed in a car accident, her family's fragile peace is once again overtaken by loss. Emily, the eldest, must grapple with newfound independence and responsibility. Theo, the youngest, can only begin to fathom his father's death. But for Daisy, the middle child, John's absence opens up a world of bewilderment, exposing her at the onset of adolescence to the chaos and instability that hover just beyond the safety of parental love. In her sorrow, Daisy embarks on a harrowing sexual odyssey, a journey that will cast her even farther out onto the harsh promontory of adulthood and lost hope. With astonishing sensuality and immediacy, *Lost in the Forest* moves through the most intimate realms of domestic life, from grief and sex to adolescence and marriage. It is a stunning, kaleidoscopic evocation of a family in crisis, written with delicacy and masterful care. For her lifelong fans and those just discovering Sue Miller for the first time, here is a rich and gorgeously layered tale of a family breaking apart and coming back together again: Sue Miller at her inimitable best.

The Lost Prince Frances Hodgson Burnett, Matt Haig, 2014-08-29 From the author of *A Little Princess* and *The Secret Garden* comes a masterful adventure that will capture the imagination: a tale of destiny, revolution, family and friendship Twelve-year-old Marco and his father, Stefan, are exiled citizens of the impoverished Eastern European nation of Samavia. They live in London,

where Stefan often receives mysterious visitors and where Marco befriends a street urchin known only as Rat. Stefan decides to send the pair on a secret mission in Europe, carrying a coded message to fellow Samavian patriots across the continent. On their arrival in Europe, it quickly becomes clear that Marco and Rat might not know the whole story; everywhere they go, Samavian exiles show Marco particular attention, but it is not until their return to London that the magnitude of the secret hidden within him becomes clear. Burnett's evocation of early 20th-century Europe is masterful, and her imaginative tale of political intrigue and family destiny will appeal to readers of all ages.

**Conrad and the Being of the World** Nicholas Gayle,2022-01-21 Why is it that many readers sense in Joseph Conrad's universe something opaque and withdrawn, a suggestive feeling of something lying behind his richly textured prose that is possibly momentous, always hidden, but never fully expressed? This unique study explores and answers this question by analysing Conrad's work through the lens of Object-Oriented Ontology, a new development in contemporary philosophy that has already been employed to illuminating effect in aesthetics and the humanities, quite apart from philosophy itself. What results from such a literary and philosophical coupling is a persuasive reading with real explanatory force, one able to shed light on what has remained hidden in Conrad till now, at the same time as it articulates a

metaphysical structure of not just Conrad's world but the universe itself and the very things we are—and what we take ourselves to be.
