IP Telephony Using CallManager Express Lab Portfolio
Cheryl A. Schmidt,Ernie Friend,2006-12-22 IP Telephony Using
CallManager Express Lab Portfolio provides a hands-on approach
to learning the basic principles of voice over IP (VoIP) to build a
voice-enabled network for the small to medium-sized business. As
you work through the 51 labs in the book, you learn how to deploy
a basic phone system using a CallManager Express-capable
router. You install, configure, and customize Cisco® IP Phones to
work in an IP Telephony environment as well as with traditional
analog telephony devices. Each chapter begins with an
explanation of the converging technology used within that
chapter's labs and, where necessary, includes a refresher on
routing and switching topics so that you can properly set up the
labs. The collection of labs features clear objectives, equipment
needs, alternative methods, and probing questions. Additionally,
the book includes a command reference as one of the six
supplemental appendixes. All the material has been written and
tested with students in a live classroom environment: Labs enable
you to deploy a progressively more layered VoIP environment as
you complete the labs in each chapter. Paper exercises help you
work through and reinforce your understanding of fundamental
topics such as dial plans, IP addressing, and dial peers. Case
Study labs present the material in scenarios that combine the
methods learned in the previous chapters so that you apply your
knowledge to a specific scenario or task. Pulling together various
concepts simulates the real-world environment where things are
rarely assigned one step at a time. The Lab Portfolio can be used
as a supplement to any textbook used to teach CVoice or
CallManager Express. It can also be used as a standalone
resource for anyone wanting to learn the basics of IP Telephony.
After completing all the exercises and hands-on labs in this book,
you will know how VoIP works and be well prepared to configure
the technology in a small to medium-sized business. Use this Lab
