Hidden Pictures Jason Rekulak, 2022-05-10 NATIONAL BESTSELLER · OPTIONED FOR NETFLIX BY A PRODUCER OF THE BATMAN GOODREADS CHOICE AWARD WINNER “I loved it. —Stephen King From Edgar Award-finalist Jason Rekulak comes a wildly inventive spin on the supernatural thriller, for fans of Stranger Things and Riley Sager, about a woman working as a nanny for a young boy with strange and disturbing secrets. Mallory Quinn is fresh out of rehab when she takes a job as a babysitter for Ted and Caroline Maxwell. She is to look after their five-year-old son, Teddy. Mallory immediately loves it. She has her own living space, goes out for nightly runs, and has the stability she craves. And she sincerely bonds with Teddy, a sweet, shy boy who is never without his sketchbook and pencil. His drawings are the usual fare: trees, rabbits, balloons. But one day, he draws something different: a man in a forest, dragging a woman’s lifeless body. Then, Teddy’s artwork becomes increasingly sinister, and his stick figures quickly evolve into lifelike sketches well beyond the ability of any five-year-old. Mallory begins to wonder if these are glimpses of a long-unsolved murder, perhaps relayed by a supernatural force. Knowing just how crazy it all sounds, Mallory nevertheless sets out to decipher the images and save Teddy before it’s too late.

The Sunken City Emma V. R. Noyes, 2022-01-29 Amare Bellamy is not a witch. Orphaned as a child and raised on a ship by the most dangerous men in the Caribbean, Amare is one thing and one thing alone: a pirate. And pirates hate magic. After a fateful storm plunges her to the depths of the ocean, Amare wakes to find herself in a strange new world: an underwater kingdom, where magic exists, but is strictly outlawed by the King—a man who claims to be her true father. As Amare struggles to fit into her new role as Princess of the Sunken City, she finds herself tangled in a web of love between two brothers—one good, one not so good. And as strange powers manifest within her, she must question everything she was raised to believe—especially if she has any hope of stopping the evil brewing at the bottom of the ocean.

A Senior’s Guide to iPhone Photography Scott La Counte, Start taking better photos with your iPhone! I remember my first phone. It had a cord attached and was shaped like a popular animated character. You didn’t surf the Internet on it. You didn’t send text messages. You didn’t check your email. And you definitely didn’t take pictures on it! Times have changed, haven’t they? Most people probably don’t even have a camera that’s not attached to their phones. iPhones don’t match the quality of a DSLR camera—but they’re certainly coming close. This book won’t teach you how to be the next Ansel Adams, but it will teach things you probably never knew about the camera and photo app. Inside, I’ll show you how to: Take and edit photos Organize photos Use different photo modes and lenses Use photographic styles And much more. If you are ready to get the most out of

your iPhone camera, then read on! Note: this book is based off of the iPhone 14 Pro, which has photo features (notably ProRes) that are not available on other iPhones. I will point out when a feature might not work on your phone.

Solito Javier Zamora,2023-06-06 New York Times Bestseller • Read With Jenna Book Club Pick as seen on Today • Winner of the Los Angeles Times Christopher Isherwood Prize for Autobiography • Winner of the American Library Association Alex Award A young poet tells the inspiring story of his migration from El Salvador to the United States at the age of nine in this “gripping memoir” (NPR) of bravery, hope, and finding family. Finalist for the PEN/John Kenneth Galbraith Award for Nonfiction • One of the New York Public Library’s Ten Best Books of the Year Longlisted for the Andrew Carnegie Medal for Excellence and the PEN/Open Book Award “I read *Solito* with my heart in my throat and did not burst into tears until the last sentence. What a person, what a writer, what a book.”—Emma Straub “A riveting tale of perseverance and the lengths humans will go to help each other in times of struggle.”—Dave Eggers ONE OF THE BEST BOOKS OF THE YEAR: The New York Times Book Review, NPR, The Washington Post, San Francisco Chronicle, Vulture, She Reads, Kirkus Reviews Trip. My parents started using that word about a year ago—“one day, you’ll take a trip to be with us. Like an adventure.” Javier Zamora’s adventure is a three-thousand-mile journey from his small town in El Salvador, through Guatemala and Mexico, and across the U.S. border. He will leave behind his beloved aunt and grandparents to reunite with a mother who left four years ago and a father he barely remembers. Traveling alone amid a group of strangers and a “coyote” hired to lead them to safety, Javier expects his trip to last two short weeks. At nine years old, all Javier can imagine is rushing into his

parents' arms, snuggling in bed between them, and living under the same roof again. He cannot foresee the perilous boat trips, relentless desert treks, pointed guns, arrests and deceptions that await him; nor can he know that those two weeks will expand into two life-altering months alongside fellow migrants who will come to encircle him like an unexpected family. A memoir as gripping as it is moving, *Solito* provides an immediate and intimate account not only of a treacherous and near-impossible journey, but also of the miraculous kindness and love delivered at the most unexpected moments. *Solito* is Javier Zamora's story, but it's also the story of millions of others who had no choice but to leave home.

How to Hide an Empire Daniel Immerwahr, 2019-02-19
Named one of the ten best books of the year by the Chicago Tribune A Publishers Weekly best book of 2019 | A 2019 NPR Staff Pick A pathbreaking history of the United States' overseas possessions and the true meaning of its empire We are familiar with maps that outline all fifty states. And we are also familiar with the idea that the United States is an "empire," exercising power around the world. But what about the actual territories—the islands, atolls, and archipelagos—this country has governed and inhabited? In *How to Hide an Empire*, Daniel Immerwahr tells the fascinating story of the United States outside the United States. In crackling, fast-paced prose, he reveals forgotten episodes that cast American history in a new light. We travel to the Guano Islands, where prospectors collected one of the nineteenth century's most valuable commodities, and the Philippines, site of the most destructive event on U.S. soil. In Puerto Rico, Immerwahr shows how U.S. doctors conducted grisly experiments they would never have conducted on the mainland and charts the emergence of independence fighters who would shoot up the U.S. Congress. In the years after World War II, Immerwahr notes, the United States moved away from colonialism. Instead, it put innovations in electronics,

transportation, and culture to use, devising a new sort of influence that did not require the control of colonies. Rich with absorbing vignettes, full of surprises, and driven by an original conception of what empire and globalization mean today, *How to Hide an Empire* is a major and compulsively readable work of history.

Loving Hugh Nini, Neal Treadwell, 2020-10-14 *Loving: A Photographic Story of Men in Love, 1850-1950* portrays the history of romantic love between men in hundreds of moving and

tender vernacular photographs taken between the years 1850 and 1950. This visual narrative of astonishing sensitivity brings to light an until-now-unpublished collection of hundreds of snapshots, portraits, and group photos taken in the most varied of contexts, both private and public. Taken when male partnerships were often illegal, the photos here were found at flea markets, in shoe boxes, family archives, old suitcases, and later online and at auctions. The collection now includes photos from all over the world: Australia, Bulgaria, Canada, Croatia, France, Germany, Japan, Greece, Latvia, the United States, the United Kingdom, Russia, and Serbia. The subjects were identified as couples by that unmistakable look in the eyes of two people in love - impossible to manufacture or hide. They were also recognized by body language - evidence as subtle as one hand barely grazing another - and by inscriptions, often coded. Included here are ambrotypes, daguerreotypes, glass negatives, tin types, cabinet cards, photo postcards, photo strips, photomatics, and snapshots - over 100 years of social history and the development of photography. Loving will be produced to the highest standards in illustrated book publishing, The photographs - many fragile from age or handling - have been digitized using a technology derived from that used on surveillance satellites and available in only five places around the world. Paper and other materials are among the best available. And Loving will be manufactured at one of the world's elite printers. Loving, the book, will be up to the measure of its message in every way. In these delight-filled pages, couples in love tell their own story for the first time at a time when joy and hope - indeed human connectivity - are crucial lifelines to our better selves. Universal in reach and overwhelming in impact, Loving speaks to our spirit and resilience, our capacity for bliss, and our longing for the shared truths of love.
