*A High Low Tide* André Joseph Gallant,2018 Oysters are a narrative food: in each shuck and slurp, an eater tastes the place where the animal was raised. But that's just the beginning. André Joseph Gallant uses the bivalve as a jumping off point to tell the story of a changing southeastern coast, the bounty within its waters, and what the future may hold for the area and its fishers. With *A High Low Tide* he places Georgia, as well as the South, in the national conversation about aquaculture, addressing its potential as well as its challenges. The Georgia oyster industry dominated in the field of oysters for canning until it was slowed by environmental and economic shifts. To build it back and to make the Georgia oyster competitive on the national stage, a bit of scientific cosmetic work must be done, performed through aquaculture. The business of oyster farming combines physical labor and science, creating an atmosphere where disparate groups must work together to ensure its future. Employing months of field research in coastal waters and countless hours interviewing scholars and fishermen, Gallant documents both the hiccups and the successes that occur when university researchers work alongside blue-collar laborers on a shared obsession. The dawn of aquaculture in Georgia promises a sea change in the livelihoods of wild-harvest shellfishermen, should they choose to adapt to new methods. Gallant documents how these traditional harvesters are affected by innovation and uncertain tides and asks how threatened they really are.

*Inventing High and Low* Stephanie Anne Sieburth,1994 Dire word of the cultural threat of the lowbrow goes back at least to the ancient Greeks, and yet, Stephanie Sieburth suggests, no division between high and low culture will stand up to logical scrutiny. Why, then, does the opposition persist? In this book Sieburth questions the terms of this perennial debate and uncovers the deep cultural, economic, and psychological tensions that lead each generation to reinvent the distinction between high and low. She focuses on Spain, where this opposition plays a special role in notions of cultural development and where leading writers have often made the relation of literature to mass culture the theme of their novels. Choosing two historical moments of sweeping material and cultural change in Spanish history, Sieburth reads two novels from the 1880s (by Benito Pérez Galdós) and two from the 1970s (by Juan Goytisolo and Carmen Martín Gaité) as fictional theories about the impact of modernity on culture and politics. Her analysis reveals that the high/low division in the cultural sphere reinforces other kinds of separations--between social classes or between men and women--dear to the elite but endangered by progress. This tension, she shows, is particularly evident in Spain, where modernization has been a contradictory and uneven process, rarely accompanied by political freedom, and where consumerism and mass culture coexist uneasily with older ways of life. Weaving together a wide spectrum of diverse material, her work will be of interest to readers concerned with Spanish history and literature, literary theory, popular culture, and the relations between politics, economics, gender, and the novel.

*Seeing High and Low* Patricia Johnston,2006-06-14 Publisher Description

*Of Lands High and Low* Martha Keyes,2020-10-06 1794 Scotland For more than twenty years, the Lowland village of Craigmuir has been untouched by smallpox, leaving the people vulnerable to a painful lesson on the price of belonging, belief, and survival. Isla Findlay belongs nowhere. The daughter of a disgraced woman and the Highlander who abandoned them both, she tries to be a dutiful niece to the uncle who has taken her in, blending into the village as best she can. But when a young Highlander's arrival in the area coincides with an outbreak of dreaded smallpox, it stirs up questions about Isla's past and forces a confrontation between the beliefs she holds and the community she wants to belong to. Dr. Graeme MacNeill killed the only patient he ever had: his own father. The only way he can think to atone is to cut all ties from the Lowland world his father hated-including his education as a physician-and embrace the Highland heritage he used to be ashamed of. He travels to Craigmuir to sell the unwanted estate he has inherited from an uncle and return home, but fate-and the red-headed young woman he encounters in the village-have no intention of letting him leave things so easily behind.
