Higher! Higher! Leslie Patricelli, 2009 Pleading with her dad to push the swing higher and higher, a little girl wonders just how high she has gone and compares her journey to fantastical feats, like venturing higher than a mountain or shooting straight into space!

Higher Is Waiting Tyler Perry, 2017-11-14 In this intimate book of inspiration, Tyler Perry writes of how his faith has sustained him in hard times, centered him in good times, and enriched his life. *Higher Is Waiting* is a spiritual guidebook, a collection of teachings culled from the experiences of a lifetime, meant to inspire readers to climb higher in their own lives and pull themselves up to a better, more fulfilling place. Beginning with his earliest memories of growing up a shy boy in New Orleans, Perry recalls the moments of grace and beauty in a childhood marked by brutality, deprivation, and fear. With tenderness he sketches portraits of the people who sustained him and taught him indelible lessons about integrity, trust in God, and the power of forgiveness: his aunt Mae, who cared for her grandfather, who was born a slave, and sewed quilts that told a story of generations; Mr. Butler, a blind man of remarkable dignity and elegance, who sold penny candies on a street corner; and his beloved mother, Maxine, who endured abuse, financial hardship, and the daily injustices of growing up in the Jim Crow South yet whose fierce love for her son burned bright and never dimmed. Perry writes of how he nurtured his dreams and discovered solace in nature, and of his resolute determination to reach ever higher. Perry vividly and movingly describes his growing awareness of God's presence in his life, how he learned to tune in to His voice, to persevere through hard times, and to choose faith over fear. Here he is: the devoted

son, the loving father, the steadfast friend, the naturalist, the philanthropist, the creative spirit—a man whose life lessons and insights into scripture are a gift offered with generosity, humility, and love.

A Higher Loyalty James Comey, 2018-04-17 #1 New York Times Bestseller now in paperback with new material The inspiration for The Comey Rule, the Showtime limited series starring Jeff Daniels premiering September 2020 In his book, former FBI director James Comey shares his never-before-told experiences from some of the highest-stakes situations of his career in the past two decades of American government, exploring what good, ethical leadership looks like, and how it drives sound decisions. His journey provides an unprecedented entry into the corridors of power, and a remarkable lesson in what makes an effective leader. Mr. Comey served as director of the FBI from 2013 to 2017, appointed to the post by President Barack Obama. He previously served as U.S. attorney for the Southern District of New York, and the U.S. deputy attorney general in the administration of President George W. Bush. From prosecuting the Mafia and Martha Stewart to helping change the Bush administration's policies on torture and electronic surveillance, overseeing the Hillary Clinton e-mail investigation as well as ties between the Trump campaign and Russia, Comey has been involved in some of the most consequential cases and policies of recent history.

Vibrate Higher Talib Kweli, 2021-02-16 LONGLISTED FOR THE 2021 BROOKLYN PUBLIC LIBRARY LITERARY PRIZE From one of the most lyrically gifted, socially conscious rappers of the past twenty years, *Vibrate Higher* is a firsthand account of hip-hop as a political force Before Talib Kweli became a world-renowned hip-hop artist, he was a Brooklyn kid who liked to cut class, spit rhymes, and wander the streets of Greenwich Village with a motley crew of

artists, rappers, and DJs who found hip-hop more inspiring than their textbooks (much to the chagrin of the educator parents who had given their son an Afrocentric name in hope of securing for him a more traditional sense of pride and purpose). Kweli's was the first generation to grow up with hip-hop as established culture—a genre of music that has expanded to include its own pantheon of heroes, rich history and politics, and distinct worldview. Eventually, childhood friendships turned into collaborations, and Kweli gained notoriety as a rapper in his own right. From collaborating with some of hip-hop's greatest—including Mos Def, Common, Kanye West, Pharrell Williams, and Kendrick Lamar—to selling books out of the oldest African-American bookstore in Brooklyn, ultimately leaving his record label, and taking control of his own recording career, Kweli tells the winding, always compelling story of the people and events that shaped his own life as well as the culture of hip-hop that informs American culture at large. *Vibrate Higher* illuminates Talib Kweli's upbringing and artistic success, but so too does it give life to hip-hop as a political force—one that galvanized the Movement for Black Lives and serves a continual channel for resistance against the rising tide of white nationalism.

Aspire Higher Ken Lindner, 2021-11-16 Aspire higher to truly love yourself, lead your very best and highest life, and spread that love to the world around you! The COVID-19 pandemic has wrought global devastation. Unbridled violence, vitriol, racism, distrust, and anger are pervasive. The world is in serious need of love, repair, and healing. And so are all of us as individuals. There has never been a better time than right now to seize the life you truly crave, be your greatest self, and share that positivity with others in order to make the world a more loving and positive place. Most of

us want love and peace in our hearts and in the world, but in *Aspire Higher*, Ken Lindner, author, renowned celebrity career coach, and founder of Positive Life Choice Psychology™, shows you how to actually achieve that goal through clear, actionable steps and strategies. *Aspire Higher* will teach you how to develop true, empowering inner love and organically share it with others; raise your feelings of self-esteem and self-worth; embrace positive emotions; help create a far more respectful, civil, and empathetic country and world. Now is the perfect time to reboot your mindset, your life, and in the process, substantially improve the lives of others . . . and the world.

Higher Love Kit DesLauriers, 2021-04-01 In 2006 Kit DesLauriers made history by becoming the first person to climb--and then ski--from the summit of each continent's highest mountain, the famed Seven Summits. Centered on this quest, her book *Higher Love* represents a hero's journey, rich with personal insights, life-threatening consequences, and a thrilling crescendo. Spanning seven continents in just two years, this deeply personal memoir recounts Kit's initially secret journey that would change her life forever. From braving Antarctica's bone-chilling temperatures to trudging through an African rainforest, from corn snow on the slopes of Australia to blue ice on Everest, Kit leads you up each mountain and gives you a heart-racing ride back down. This candid, fast-paced story shows how inspiration, teamwork, and honoring our true nature blazes the trail to every summit, on or off the mountain.

Researching Higher Education in Asia Jisun Jung, Hugo Horta, Akiyoshi Yonezawa, 2017-09-05 This book discusses higher education research as a field of study in Asia. It traces the evolution of research in the field of higher education in several Asian countries, and shares ideas about the evolving

higher education research communities in Asia. It also identifies common and dissimilar challenges across national communities, providing researchers and policymakers essential new insights into the relevance of a greater regional articulation of national higher education research communities, and their further integration into and contribution to the international higher education research community as a whole.

Reforms in Higher Education Keith Watson, 1996-12-05 This text addresses the reforms in the financial and administrative structure of higher education, government intervention in introducing new managerial techniques and quality audits, and the implications of these changes for both academics and administrators. It is one of a series of four volumes which look at the educational dilemmas facing governments, professional educators and practising administrators in the current climate in education. The issues are addressed from international and comparative perspectives.

Higher Education Accountability Robert Kelchen, 2018-02-27 The first comprehensive overview charting the accountability of higher education. As the price tag of higher education continues to rise, colleges and universities across the country are under increasing pressure to demonstrate their value. Graded on numerous metrics, including cost and ability to prepare students for the job market, colleges must satisfy requirements from multiple stakeholders. State and federal governments demand greater accountability. Foundations and private donors, as well as today's parents and students, approach education with a consumer sensibility. How can colleges navigate these pressures while trying to stay true to their missions and values? In Higher Education Accountability, Robert Kelchen delivers the first comprehensive overview of how colleges in the United States came to

face such overwhelming scrutiny. Beginning with the earliest efforts to regulate schools, Kelchen reveals the rationale behind accountability and outlines the historical development of how federal and state policies, accreditation practices, private-sector interests, and internal requirements have become so important to institutional success and survival. With so many diverse and conflicting entities holding colleges responsible for their performance, the variety of accountability systems in play can have both intended and unintended consequences. Immersed as they are in current debates about how best to respond to these pressures, faculty and administrators will welcome this up-to-date and timely account, which offers not only a look at current practices but also an examination of the future of accountability in American higher education.

Accountability in Higher Education Bjorn Stensaker, Lee Harvey, 2010-09-13
The latest volume in the Routledge International Studies in Higher Education series, *Accountability in Higher Education* takes an in-depth look at accountability initiatives around the world. Various evaluations, reporting schemes, and indicator systems have been initiated both to inform the public about higher education performance and to help transform universities and colleges and improve their functioning. This edited collection provides a comparative analysis of the promises, perils and paradoxes of accountability, and the potential effect on power structures and higher education autonomy, trust and the legitimacy of the sector. Part I describes how accountability is perceived and understood in different regions of the world, identifies some of the most common elements in established accountability initiatives, especially related to quality assurance, and provides direction for possible future development. Part II focuses on responses to new demands for

accountability at institutional, national and international levels, and provides practical guidance for handling accountability going forward, emphasizing the dynamic relationship between international development, government strategies and organizational change. This volume is a must-have resource for HE managers, administrators, policy makers, researchers, HE graduate students and those interested or involved with HE accountability practices.

Governance of Higher Education in Bihar Sudhanshu Bhushan,2021-05-05 This book presents the state-specific dimensions of the governance of higher education in Bihar, India, based on a real-case perspective. It discusses the policies of the center and state governments, and their implications on the state's higher education system. It addresses the issues and challenges faced by the higher education sector from the point of view of multiple stakeholders at center, state, university and college levels, while examining influential power centers. The volume focuses on select universities in the state and looks at how they manage policies, schemes and regulations. It deals with key themes such as the role of state and regulatory bodies such as the University Grants Commission; the balance of power; resource scarcity; the inadequacy of top-down governance models; governance failure; and the autonomy of universities. It explores the conflict between the politics and economics of governance and efficiency; the promotion and recruitment of senior office-bearers and teachers; the privatization of colleges; and financing, admission and examination systems. Through an in-depth study using empirical unit-level data from the All-India Survey of Higher Education, examples and theoretical frameworks, the book analyzes the reasons for the

underperformance of the governance system of higher education in Bihar. It also offers suggestions and policy recommendations to help improve its planning and management via participative and responsible governance and informed institutional leadership. This book will be of interest to students, teachers and researchers of education, higher education, economics, governance and public administration, and development studies. It will also be useful to educationists and experts, education administrators, policymakers, bureaucrats and the governing bodies of higher education institutions.

Private Higher Education ,2005-01-01 Several decades ago, private higher education already ranked as a major force in the higher education realm in many countries. Expansion in Latin America had begun in the 1960s, and the private sector was dominant in several key East Asian nations. At that stage, the forces shaping higher education were relatively stable.

Performance Funding for Higher Education Kevin J. Dougherty, Sosanya M. Jones, Hana Lahr, Rebecca S. Natow, Lara Pheatt, Vikash Reddy, 2016-10-04 Ultimately, the authors recommend that states create new ways of helping colleges with many at-risk students, define performance indicators and measures better tailored to institutional missions, and improve the capacity of colleges to engage in organizational learning.

U.S. Power in International Higher Education Jenny J. Lee, 2021-07-16 2021 ASHE/CIHE Award for Significant Research on International Higher Education U.S. Power in International Higher Education explores how internationalization in higher education is not just an educational endeavor, but also a geopolitical one. By centering and making explicit the role of power, the book demonstrates the United States's advantage in international

education as well as the changing geopolitical realities that will shape the field in the future. The chapter authors are leading critical scholars of international higher education, with diverse scholarly ties and professional experiences within the country and abroad. Taken together, the chapters provide broad trends as well as in-depth accounts about how power is evident across a range of key international activities. This book is intended for higher education scholars and practitioners with the aim of raising greater awareness on the unequal power dynamics in internationalization activities and for the purposes of promoting more just practices in higher education globally.

Crafting the Future of International Higher Education in Asia via Systems Change and Innovation Angela Yung Chi Hou, Joshua Smith, Ka Ho Mok, Chao-Yu Guo, 2023-05-29 The book discusses the most essential topics in understanding the development and changes of higher educational systems in Asia after the outbreak of the pandemic, and explores the transformative, international and innovative moves from an Asian perspective. The topics covered in the book are timely in that higher education in Asia was severely limited during the tumultuous time of the pandemic, including three themes- 1. How the pandemic drives system reform and quality management; 2. How can universities maintain transnational partnerships and attract global talent; 3. How would faculty members innovate teaching pedagogy and reassess student learning experiences. This timely and well-researched book provides valuable insights into the challenges and opportunities for national, regional, and international higher education created by the recent pandemic as well as technological and geopolitical changes. The lucid analysis of key issues and trends will be useful to academics, policymakers, and researchers within Asia and beyond.

Professor Jane Knight, Ontario Institute for studies in Education, University of Toronto This book sets out important thinking for the post-pandemic era in Asian higher education. Based on valuable experience across a diverse region, this book highlights the opportunity to reimagine the future trajectory for higher education. As more of the Asia-Pacific moves toward mass and even universal systems of higher education, it exerts greater influence on higher education around the world. This book offers practical analysis that is culturally grounded in the rich civilizations of Asia about ubiquitous issues in higher education, including social equity, human agency, program quality, innovative pedagogy, academic governance, private sector initiative, knowledge building, and a new form of internationalization. It offers a sensible launchpad for a policy agenda. Professor Gerard Postiglione, Emeritus Professor, The University of Hong Kong

Higher Education, Meritocracy and Inequality in China Ye Liu, 2016-10-08

This book investigates the changing opportunities in higher education for different social groups during China's transition from the socialist regime to a market economy. The first part of the book provides a historical and comparative analysis of the development of the idea of meritocracy, since its early origins in China, and in more recent western thought. The second part then explores higher education reforms in China, the part played by supposedly meritocratic forms of selection, and the implications of these for social mobility. Based on original empirical data, Ye Liu sheds light on the socio-economic, gender and geographical inequalities behind the meritocratic façade of the Gaokao (高考). Liu argues that the Chinese philosophical belief in education-based meritocracy had a modern makeover in the Gaokao, and that this ideology induces working-class and rural students to believe in upward

social mobility through higher education. When the Gaokao broke the promise of status improvement for rural students, they turned to the Chinese Communist Party and sought political connections by actively applying for its membership. This book reveals a bleak picture of visible and invisible inequality in terms of access to and participation in higher education in contemporary China. Written in an accessible style, it offers a valuable resource for researchers and non-specialist readers alike.

Hopeful Pedagogies in Higher Education Mike Seal, 2021-05-20 Many accounts of critical pedagogy, particularly accounts of trying to enact it within higher education (HE), express a deep cynicism about whether it is possible to counter the ever creeping hegemony of neo-liberalism, neo-conservatism and new managerialism within Universities. *Hopeful Pedagogies in Higher Education* acknowledges some of these criticisms, but attempts to rescue critical pedagogy, locating some of its associated pessimism as misreading of Freire and offering hopeful avenues for new theory and practice. These misreadings are also located in the present, in the assumption that unless change comes within the lifetime of the project, it has somehow failed. Instead, this book argues that a positive utopianism is possible. Present actions need to be celebrated, and cultivated as symbols of hope, possibility and generativity for the future – which the concept of hope implies. The contributors make the case for celebrating the pedagogies of HE that operate in liminal spaces – situated in the spaces between the present and the future (between the world as it is and the world as it could be) and also in the cracks that are beginning to show in the dominant discourses.

Higher Education in Liquid Modernity Marvin Oxenham, 2013-10-28 Based in sociologist Zygmunt Bauman's theory of liquid modernity, this volume

describes and critiques key aspects and practices of liquid education-- education as market-driven consumption, short life span of useful knowledge, overabundance of information--through a systematic comparison with ancient Greek paideia and medieval university education, producing a sweeping analysis of the history and philosophy of education for the purpose of understanding current higher education, positing a more holistic alternative model in which students are embedded in a learning community that is itself embedded in a larger society. If liquid modernity has left a vacuum where, according to Bauman, the pilot's cabin is empty, this volume argues that no structure is better positioned to fill this vacuum than the university and outlines a renewed vision of social transformation through higher education.

Higher Education in Market-Oriented Socialist Vietnam Phan Le Ha, Doan Ba Ngoc, 2020-09-01 This book inspects higher education reform in market-oriented socialist Vietnam, with a focus on newness narratives and enquiry. Engaging in dialogic conversations with global and regional forces and exploring convergences in the domains of policy, curriculum, research, pedagogy, and society, chapter authors analyse ideologies that have entered Vietnam's educational landscape. Chapters include discussions of post-Soviet legacies, socialist thought, privatization, neoliberalism, global rankings, academic freedom, autonomy, and elitism, as well as the actors, discourses and practices through which they manifest. In so doing, authors' commentaries juxtapose phenomena in Vietnam with other national contexts such as the Philippines, Brunei Darussalam, Japan, Australia, and Trinidad and Tobago.
