The Cutting Edge Rod Millen,2014-08-15 One of New Zealand's greatest rally drivers and a hill-climbing superstar tells his inspiring story for the very first time. Rod Millen was a hero of New Zealand rallying in the 1970s. Having won several championships he quickly established himself as New Zealand's number one driver. But thereafter Millen went on to do what very few Kiwis have achieved, finding podium success in American motorsport. He won the North American Race and Rally Championship in 1979, 1980 and 1981, then in 1989 Millen achieved perhaps his greatest feat, winning the Pikes Peak International Hill Climb, America's second oldest motor-racing event. Writing his name into history, he went on to win the race more times than any driver. The hill-climb is often referred to as 'Millen's Mountain'. Rod Millen is also a highly successful businessman. As a continuation of his off-road driving interests, he founded Millenworks in California in 1980, specializing in cutting-edge light tactical vehicles, armored and off-road vehicles and

subsystems for the US military and theme parks. Millen has recently returned to New Zealand, building a 140-acre, ocean-front estate at Hahei with a racetrack as a driveway, modeled on his favourite hill-climb corners around the world. He's also established Leadfoot Festival, a unique weekend held every two years at the estate, bringing together a mix of classic cars, vintage motorcycles and motorsport legends, inspired by the famous British Goodwood Festival of Speed. Aside from rallying, Rod is well known for other forms racing such as super touring, drifting and extreme off-road races like the Baja 1000 (often considered the most dangerous race in the world) and Transsyberia rally (which he won in 2007). Rod also won the Race to the Sky hill-climb in New Zealand in 2002 and posted the fastest time at the 2002 Goodwood Festival of Speed in England - and he still has the record up his own front driveway. The Cutting Edge is Rod's story, in his own words, of a life lived pushing the boundaries, of record-breaking off-road driving, working at the forefront of motorsport technology, and of creating the ultimate petrol-head heaven, right in his own backyard.

Finnish Video Games Juho Kuorikoski, 2015-05-11 In the past three decades Finland's video game industry has become the backbone of Finnish cultural export. Angry Birds and Clash of Clans are dominating sales around the world and the small Nordic nation has become a gaming superpower. Drawing on more than 60 interviews, this book covers the Finnish video game phenomenon as told by the people behind its success. The history of the industry is documented in detail for the first time. Two hundred game reviews are included, presenting the best (and worst) of commercial video games made in Finland.

Optimum Drive Paul F. Gerrard, 2017-04-18 A champion racer and professional stunt driver reveals the secrets of peak performance in any endeavor. Optimum Drive is the complete step-by-step guide to maximizing human performance. As a professional racing driver and a driving coach for over twenty years, Paul F. Gerrard gives you his unique perspective on what causes people to stagnate with the idea of being merely good, when each of us has the potential to be great. Gerrard believes that peak performance is within our grasp. Gerrard helps you understand the mental toughness that it takes to reach that greatness. He starts off by taking you onto the track as he explores what driving at 200 mph can teach us about who we are. Using his experiences from behind the wheel at death-defying speeds, Gerrard breaks down the psychology of driving, what it takes, and how we can use it to achieve greatness in life. The key, he says, is the nirvana-like sensation of flow psychology, or being in the zone—a mental state in which one who is performing an activity is fully immersed in a feeling of energized focus, full involvement, and joy. It is through flow psychology that Gerrard

introduces a blend of holistic mindset combined with a competitive edge, which is essential to successful professional driving. This mix of guts, tenacity, and endurance is the foundation of Gerrard's philosophy for attaining greatness—and can be put to work for you too, on or off the track.

Vivian & the Board Track Boys Marci Lynn McGuinness, 2015-06-28 Vivian Prescott, silent film star, backs the Uniontown Speedway board track hosting Barney Oldfield, the Chevrolet and Duesenberg brothers and Tommy Milton for seven years of fame and fortune until one Speed King runs to Cuba with the money. This story is inspired by McGuinness' twenty two years of research for her books, *Yesteryear at the Uniontown Speedway* and *Speedway Kings of Southwestern Pennsylvania, 100 Years of Racing History*. Her screenplay, *Speed Kings* is seeking a producer.

Rusch to Glory Rebecca Rusch, Selene Yeager, 2014-10-01 Rebecca Rusch is one of the great endurance athletes of our time. Known today as the Queen of Pain for her perseverance as a relentlessly fast runner, paddler, and mountain bike racer, Rusch was a normal kid from Chicago who abandoned a predictable life for one of adventure. In her new book *Rusch to Glory: Adventure, Risk & Triumph on the Path Less Traveled*, Rusch weaves her fascinating life's story among the exotic locales and extreme conditions that forged an extraordinary athlete from ordinary roots. Rusch has run the gauntlet of endurance sports over her career as a professional athlete-- climbing, adventure racing, whitewater rafting, cross-country skiing, and mountain biking--racking up world championships along the way. But while she might seem like just another superhuman playing out a fistful of aces, her empowering story proves that anyone can rise above self-doubt and find their true potential. First turning heads with her rock climbing and paddling skills, Rusch soon found herself spearheading adventure racing teams like Mark Burnett's Eco-Challenge series. As she fought her way through the jungles of Borneo, raced camels across Morocco, threaded the rugged Tian Shan mountains, and river-boarded the Grand Canyon in the dead of winter, she was forced to stare down her own demons. Through it all, Rusch continually redefined her limits, pushing deep into the pain cave and emerging ready for the next great challenge. At age 38, Rusch faced a tough decision: retire or reinvent herself yet again. Determined to go for broke, she shifted her focus to endurance mountain bike racing and rode straight into the record books at a moment when most athletes walk away. *Rusch to Glory* is more than an epic story of adventure; it is a testament to the rewards of hard work, determination, and resilience on the long road to personal and professional triumph.

The Mountains are Calling Jonny Muir,2018-05-17 Longlisted for the William Hill Sports Book of the Year 2018Jonny Muir was a nine-year-old boy when the silhouette of a runner in the glow of sunset on the Malvern Hills caught his eye. A fascination for running in high places was born – a fascination that would direct him to Scotland. Running and racing, Jonny became the mountainside silhouette that first inspired him.His exploits inevitably led to Scotland's supreme test of hill running: Ramsay's Round, a daunting 60-mile circuit of twenty-four mountains, climbing the equivalent height of Mount Everest and culminating on Ben Nevis, to be completed within twenty-four hours.

Mountains According to G Geraint Thomas,2020-10-29 Geraint Thomas's inside guide to twenty-five of the greatest cycling climbs in the world. Cycling fans obsess about climbs and big mountains. They love reading about their tests and tribulations and they love to ride them - a cricket lover can never bat at Lord's, or a football supporter score at Wembley, but any rider can take on the challenge of an iconic mountain. There have been fine books about the big climbs before but never from the voice of an elite GC winner, taking you inside what these climbs really feel like, where the attacks come, where the pain kicks in. From best-known big-hitters, via pro-peloton favourites, to the secret climbs Geraint has come to love, and featuring Australia, Belgium, France, the Netherlands, Mallorca and Wales, this is the cyclist's secret manual.

Vignettes on the Life Side Michael Williams,2020-10-29 This is the seventh book in Michael Williams' Adventures with Michael series that recaps

events during his life. This book is different from other books in the series because it provides vignettes on various situations Michael has encountered. Included are vignettes from Michael's time in the army which has scenes and humor similar to the movie and television series M.A.S.H. It also reviews some of the difficult aspects all Americans faced during the Vietnam War. The section on running races in Riyadh provides descriptions of racing in the desert and the effects of some unusual circumstances not typically encountered in U.S. road racing. The section on mountain climbing describes 12 experiences. Some of the challenges faced - such as falling in a crevasse or being abandoned on a mountain - provide insights into what it is like to attempt to climb mountains for someone who is a professional economist and not a professional mountaineer. This book is personal as you get a sense of the manner in which Michael responded to various challenges. Michael has been keeping a daily journal since 1980 and the specifics for his racing and mountain climbing vignettes come directly from these journals.

The Mountain Bike Challenge Patrick Morgan, 2000 Join Myra Moller as she trains and rides in a 30-mile race through dense forest, over rocks, streams, mud, and up and down huge hills.

To Be a Runner Martin Dugard, 2019-04-09 Now with a new introduction and additional stories accumulated in the eight years since its original publication, *To Be a Runner* is a fresh and exciting update on a running classic. With an exuberant mix of passion, insight, instruction, and humor, bestselling author and lifelong runner Martin Dugard takes a journey through the world of running to illustrate how the sport helps us fulfill that universal desire to be the best possible version of ourselves each and every time we lace up our shoes. *To Be a Runner* represents a new way to write about running by bridging the chasm between the two categories of running books: how-to and personal narrative. Spinning colorful stories of his running and racing adventures on six continents, Dugard considers what it means to truly integrate running into one's life. As entertaining as it is provocative, *To Be a Runner* is about far more than running: It is about life, and how we should live it.
