But the good news is, Hotels development is never stop. Although it was hard and seems impossible, but it's happening. Another good news is Bali now open for international tourist. For the International Women's Day, Andrew Newmark, Vice President – Human Resources, Marriott International said “At Marriott International, we are committed to providing a world of opportunity to everyone, and this is powered by our core value of putting people first. We have a strong commitment to women's leadership, and we realized long ago that providing opportunities to create a diverse and inclusive environment only strengthens our company's culture. That's why we were the first hospitality company to establish a Women's Leadership Development Initiative in 1999. Having women in senior leadership roles nourishes a culture that inspires and promotes career opportunities for all, especially for women who are emboldened to set their aspirations high. - 📖 [Strategic Airline Retailing and Solutions Nawal K. Taneja](#),2023-11-07 While airlines have been looking into the next generation of retailing practices for several years, developments since the beginning of 2020 have accelerated the need to take retailing to a new paradigm. A singular focus now is the ever-changing demands of the current and next generation of customers and employees and managing their values. Examples of customer needs include a mobile-first approach, rich content, augmented and personalized end-to-end services with seamless, consistent, and contextualized experiences. While these concepts of retailing are not new, the challenge has been in bringing them to reality due to (a) the constraints of legacy systems and processes while transitioning to next-generation retailing systems, (b) the inaccessibility of real-time data coming from a wide variety of sources such as online shopping, social media, and operations, (c) the inability to monitor real-time behavior of customers and employees, (d) the lack of effective collaboration and cooperation within the travel ecosystem, and (e) the increasing lack of trust on the part of customers. This book provides a framework and technologies to convert retailing concepts—from shopping to fulfillment—into reality by (a) renovating an airline's core and ancillary products, (b) progressing faster on digital and organizational transformation journeys to make better data-based decisions about retailing, (c) getting better at managing customer value by knowing who the customers are, (d) empowering, supporting, and listening to employees to meet their expectations, (e) asking the right questions to solve complex retailing problems relating to customers, competitors, and stakeholders, and (f) questioning common-held beliefs about the airline business. This book is indispensable for all airline executives and senior managers, as well as airline and airport commercial managers. It will also be enormously beneficial for retailers dealing with airlines and airports.
- 📖 [Hilton Honors Worldwide. Loyalty Wars Paul Petersen,Jan Wichmann](#),2018-03-26 Fallstudie aus dem Jahr 2016 im Fachbereich BWL - Offline-Marketing und Online-Marketing, Note: 2,7, Cologne Business School Köln, Sprache: Deutsch, Abstract: Marketing strategies in terms of loyalty programs are very often launched by corporations that employ a specialized team of project managers and data analysts who lead the complex program. The loyalty programs are typically driven by bigger companies due to the technical costs related to the implementation. In fact it is a very popular market for corporations in order to achieve a competitive advantage whether it is highly competitive by virtue of changing conditions in price and customer loyalty. The following paper exhibits the Hilton Honors loyalty program in which the Hilton Group tried to achieve a competitive advantage while concentrating on its “double dipping” strategy which other competitors lacked at this time. Therefore the paper starts with a brief explanation of the research question which is related to the strengths Hilton Honors loyalty program displays. In the following the general marketing strategy of Hilton is declared and evaluated. According to this the main guiding questions are based on the theoretical background and analysed by a service marketing approach. Subsequently the most important issues of the case are stated and summarized. Furthermore, recommendations on the loyalty program have been made.

- 📖 [Checking Out Katherine Doggrell](#),2020-01-23 Is it time for traditional hotels to check out? As one of the world's most established industries, the hotel sector has remained relatively unchanged and unchallenged for decades. Yet traditional hotels have recently come under increasing pressure on two major fronts: from disruptors in the sharing economy such as Airbnb, and by a rising wave of modern consumers who have become re-educated by social media and hotel comparison websites. Can this traditionally slow-moving sector reinvent itself or will it become increasingly marginalized? Is it time for traditional hotels to check out? Increasing numbers of hoteliers believe that traditional hotels are on the brink of a resurgence in popularity. Global hotel chains are catching up to modern trends – adding technologized curation and personalisation to their offerings. In Checking Out, Katherine Doggrell interviews key figures in the hotel industry and draws upon various case studies to explore the ways in which this traditionalist industry can remain relevant in the 21st century. The hotel 'experience' has been redefined, as guests now value fast Wi-Fi and mobile check-ins over room service and mini-fridges. Checking Out is an engaging investigation into the unprecedented challenges that face the hotel sector in the digital era and the strategies that are being employed by its leaders and innovators.
