Fiji's Music Ruth Finnegan, 2017-09-18 The amazing story of a small island in the South Pacific, its music and culture and its gifts to the world

Against the Nation Sasanka Perera, Dev Nath Pathak, Ravi Kumar, 2021-12-30 Against the Nation invites readers to explore South Asia as a place and as an idea with a sense of reflection and nuance rather than submitting to conventional understanding of the region merely in geopolitical terms. The authors take the readers across a vast terrain of prospects like visual culture, music, film, knowledge systems and classrooms, myth and history as well as forms of politics that offer possibilities for reading South Asia as a collective enterprise that has historical precedents as well as untapped ideological potential for the future.

MUSIC AND CREATION Ruth Finnegan, 2019-11-05 What is the role of sound in human life? and of music? What do we use it for and how does it vary across the world? Where does it come from and above all why should we - as we do - care about it? This series of reflections by the celebrated anthropologist Ruth Finnegan tackles these questions and more in her inimitable friendly and accessible style. An informative and inspiring book, unique.

Directory of World Cinema: India Adam Bingham, 2015-02-20 Indian cinema teems with a multitude of different voices. The Directory of World Cinema: India provides a broad overview of this rich variety, highlighting distinctions among India's major cinematic genres and movements while illuminating the field as a whole. This volume's contributors – many of them leading experts in the fields – approach film in India from a variety of angles, furnishing in-depth essays on significant directors and major regions; detailed historical accounts; considerations of the many faces of India represented in Indian cinema; and explorations of films made in and about India by European directors including Jean Renoir, Peter Brook, and Powell and Pressburger. Taken together,

these multifaceted contributions show how India's varied local film industries throw into question the very concept of a national cinema. The resulting volume will provide a comprehensive introduction for newcomers to Indian cinema while offering a fresh perspective sure to interest seasonal students and scholars.

Sociology and Music Education Ruth Wright, 2017-07-05 Sociology and Music Education addresses a pressing need to provide a sociological foundation for understanding music education. The music education community, academic and professional, has become increasingly aware of the need to locate the issues facing music educators within a broader sociological context. This is required both as a means to deeper understanding of the issues themselves and as a means to raising professional consciousness of the macro issues of power and politics by which education is often constrained. The book outlines some introductory concepts in sociology and music education and then draws together seminal theoretical insights with examples from practice with innovative applications of sociological theory to the field of music education. The editor has taken great care to select an international community of experienced researchers and practitioners as contributors who reflect current trends in the sociology of music education in Europe and the UK. The book concludes with an Afterword by Christopher Small.

The Future as Cultural Fact Arjun

Appadurai, 2020-05-05 This major collection of essays, a sequel to *Modernity at Large* and *Fear of Small Numbers*, is the product of ten years' research and writing, constituting an important contribution to globalization studies. Appadurai takes a broad analytical look at the genealogies of the present era of globalization through essays on violence, commodification, nationalism, terror and materiality. Alongside a discussion of these wider debates, Appadurai situates India at the heart of his work, offering writing based on firsthand research among urban slum dwellers in Mumbai, in which he examines their struggle to achieve equity, recognition and self-governance in

conditions of extreme inequality. Finally, in his work on design, planning, finance and poverty, Appadurai embraces the politics of hope and lays the foundations for a revitalized, and urgent, anthropology of the future.

50 Years of Indian Community in Singapore
Gopinath Pillai, K Kesavapany, 2016-07-04 From Tamils to Malayalees, from Bengalis to Punjabis, the diverse Indian community in Singapore has played a large part in building the country. To understand the Indian community, one must know certain basic facts about them. First is their

love for culture which transcends religious and linguistic differences. Some of the best classical Hindustani singers are Muslims. The best Malayalam singer of Hindu religious songs is a Christian. Second is their love of debates. Argument is part of Indian tradition because of the belief that truth can only be arrived at vigorous debate. The third characteristic is the community's respect for education. Indians, across castes and religions have always venerated knowledge and learning as being a value in itself. The fourth characteristic of the Indians is their devoutness: they take their religious duties seriously and perform them regularly. This celebratory volume highlights the progress, contributions and challenges of the community for the past 50 years since Singapore's independence in 1965.

Multilingual La La Land Claire Hitchins

Chik, 2021-09-30 Home to immigrants from more than 140 countries speaking over 180 languages, Los Angeles is a microcosm of the world. While Los Angeles' ethnic enclaves have been the subject of study by researchers from a wide range of fields, these enclaves remain under-researched from a linguistic standpoint. *Multilingual La La Land* addresses the sociolinguistic landscape of the Greater Los Angeles (GLA) area, providing in-depth accounts of the sixteen most spoken languages other than English in the region. Each chapter introduces the history of the language in the L.A. region, uses census figures and residential densities to examine location-based and network-based speech communities, and discusses the patterns of usage that characterize the language, including motivations to maintain the language. How these patterns and trends bear on the vitality of each language is a central consideration of this book.

Modernizing Composition Garrett Field, 2017-03-22
A free ebook version of this title is available through Luminos, University of California Press's Open Access publishing program. Visit www.luminosoa.org to learn more. The study of South Asian music falls under the purview of ethnomusicology, whereas that of South Asian literature falls under South Asian studies. As a consequence of this academic separation, scholars rarely take notice of connections between South Asian song and poetry. *Modernizing Composition* overcomes this disciplinary fragmentation by examining the history of Sinhala-language song and poetry in twentieth-century Sri Lanka. Garrett Field describes how songwriters and poets modernized song and poetry in response to colonial

and postcolonial formations. The story of this modernization is significant in that it shifts focus from India's relationship to the West to little-studied connections between Sri Lanka and North India.
