Ascendancy Day William Goodman,2008-03 Seven years ago Simon Rabin came back from the dead; no small event, but still just the precursor to something infinitely more extreme. Seven years later Greencoat is employed by a provocatively beautiful witch to find a missing researcher, who in turn believes he can prove there is no longer any such thing as a random number. In this dangerous hybrid reality though, nothing is what it seems. Other forces are at work, symbolic, fundamental and totally without mercy. As Greencoat begins to uncover the truth behind the Alternation, the world splitting cataclysm which created the Alter-Earths, he is caught in the middle as those forces begin to gather, preparing for an apocalyptic confrontation with men of incomparable power and unsurpassed evil - the Ascendancy.

A New York Times bestseller! JOSEF is a Jewish boy living in 1930s Nazi Germany. With the threat of concentration camps looming, he and his family board a ship bound for the other side of the world... ISABEL is a Cuban girl in 1994. With riots and unrest plaguing her country, she and her family set out on a raft, hoping to find safety in America... MAHMOUD is a Syrian boy in 2015. With his homeland torn apart by violence and destruction, he and his family begin a long trek toward Europe... All three kids go on harrowing journeys in search of refuge. All will face unimaginable dangers -- from drownings to bombings to betrayals. But there is always the hope of tomorrow. And although Josef, Isabel, and Mahmoud are separated by continents and decades, shocking connections will tie their stories together in the end. As powerful and poignant as it is action-packed and page-turning, this highly acclaimed novel has been on the New York Times bestseller list for more than four years and continues to change readers' lives with its meaningful takes on survival, courage, and the quest for home.

The First 20 Hours Josh Kaufman, 2013-06-13 Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

Super Mario Jeff Ryan, 2011-08-04 The story of Nintendo's rise and the beloved icon who made it possible. Nintendo has continually set the standard for video-game innovation in America, starting in 1981 with a plucky hero who jumped over barrels to save a girl from an ape. The saga of Mario, the portly plumber who became the most successful franchise in the history of gaming, has plot twists

worthy of a video game. Jeff Ryan shares the story of how this quintessentially Japanese company found success in the American market. Lawsuits, Hollywood, die-hard fans, and face-offs with Sony and Microsoft are all part of the drama. Find out about: *Mario's eccentric yet brilliant creator, Shigeru Miyamoto, who was tapped for the job because he was considered expendable. *Minoru Arakawa, the son-in-law of Nintendo's imperious president, who bumbled his way to success. *The unexpected approach that allowed Nintendo to reinvent itself as the gaming system for the non-gamer, especially now with the Wii Even those who can't tell a Koopa from a Goomba will find this a fascinating story of striving, comeuppance, and redemption.
