Kilmartin Raymond Walker, 2014-11-05 Finally A full compendium of my Kilmartin tales all consigned to the same volume. It is unlikely that I shall write of the place again. Not because I do not wish to nor because I feel that people are bored with those tales but rather just because I am growing older and have so much more to write about. I suspect I will get through only a fraction of the ideas that I have before I pop my clogs and so here you have all The three Kilmartin novels all together in one volume. I also have added, A long introduction to the stories for those that are interested and a new horror story as an introduction to them to tell (fictionally) how I came to Kilmartin in the first place. Actually the rather long and rather dull Introduction tells the same tale with truth. Nestled in a quiet Glen on the west coast of Scotland lies the ancient village of Kilmartin.

Alpha It All Begins Here Tim Epps, 2011-03 Faith by definition is: confidence or trust in God and in His promises as made through Christ; the scriptures by which humans are justified or saved. It is the substance of things hoped for and the evidence of things not seen (Heb. 11:1 KJV). In this story, Faith is the key just as it is in our lives to defeating the enemy. God has given us power over the enemy but for us to use that power we have to believe in the Son Jesus Christ and have Faith that we possess the power He has given us. Not only do we need Faith in defeating the devil, but as well the things he throws at us in life. WE MUST HAVE FAITH TO SURVIVE! In this story a young man is given power to use against evil. The key to using it is having Faith. I ask you, as you read this story, put yourself in his shoes and see if you would be ready for a test of Faith.

Contemporary Issues in Biomedical Ethics John W. Davis, Barry Hoffmaster, Sarah J. Shorten, 2012-12-06 Not long ago, a colleague chided me for using the term the biological revolution. Like many others, I have employed it as an umbrella term to refer to the seemingly vast, rapidly-moving, and frequently bewildering developments of contemporary biomedicine: psychosurgery, genetic counseling and engineering, artificial heart-lung machines, organ transplants-and on and on. The real biological revolution, he pointed out, began back in the nineteenth century in Europe. For it was then that death rates and infant mortality began to decline, the germ theory of disease was firmly established, Darwin took his famous trip on the Beagle, and Gregor Mendel stumbled on to some fundamental principles of heredity. My friend, I think, was both right and wrong. The biological revolution did have its roots in the nineteenth century; that is when it first began to unfold. Yet, like many intellectual and scientific upheavals, its force was not felt for decades. Indeed, it seems fair to say that it was not until after the Second World War that the full force of the earlier discoveries in biology and medicine began to have a major impact, an impact that was all the more heightened by the rapid biomedical developments after the war.

Find 'Em, Chase 'Em, Sink 'Em Mike Ostlund, 2011-11-08 Now in paperback, revised and updated, the stirring and authoritative account of one of World War II's most highly decorated submarines Find 'Em, Chase 'Em, Sink 'Em is the first book to recount the tragic and mysterious loss of the World War II submarine USS Gudgeon. In April 1944, the highly decorated submarine USS Gudgeon slipped beneath the waves in one of the most treacherous patrol areas in the most dangerous military service during World War II. Neither the Gudgeon nor the crew was ever seen again. Author Mike Ostlund's "Uncle Bill," the operator of a farm implements business, was aboard that ship as a lieutenant junior grade. Through extensive research of patrol reports in U.S. and Japanese naval archives, interviews with veterans who had served aboard the Gudgeon before its final patrol, and the personal effects of the lost men's relatives, Ostlund has assembled the most accurate account yet of this remarkably successful submarine's exploits, of the men aboard from steward to captain, and of what we now know about her demise. Find 'Em, Chase 'Em, Sink 'Em details the memories and life lessons of the young men who went to sea aboard Gudgeon before its last patrol knowing hardly anything, and came home having seen too much.

Tyranny Lessons, 2020-08-31 The 21st century has seen a resurgence of authoritarian rule that often replicates past totalitarian systems, but is more refined and nuanced in its strategies of repression and exploitation. Entertainment, media, international travel, and prosperity create the appearance of flourishing individual freedoms while our lives and thoughts are increasingly monitored and manipulated. This disturbing trend raises the question of what exactly is meant by tyranny in its contemporary forms. In Tyranny Lessons, international writers from a dozen countries in Asia, the Middle East, Europe, and the Americas address these challenges as only literary writing can: through the perspective of lived experiences, imagined futures, and personal struggles. Tyranny Lessons also features the photography of Danny Lyon, the first photographer of the Student Non-violent Coordinating Committee, whose work documented the Civil Rights movement in the 1960s.

North Sea Campaign, 1916 André Geraque Kiffer, 2019-10-30 In the scenario of the wargame that will be used, broadly speaking, the plan of the German naval campaign for the year 1916 would have as its main objective to attract and destroy fractions of the British Grand Fleet, by combining the maximum means available in concentrated actions - which were historically attempted but not coordinated throughout 1916 - relying on the most reliable weather forecasts possible, against the dispersed enemy formations and historically having problems to communicate with each other and with the Admiralty.

The Shelburne Escape Line Réanne Hemingway-Douglass, Don Douglass, 2015-04-30 An account of WWII rescues that "pays tribute to the audacity and heroism of the men and women of the French Resistance and Allied military personnel" (Warship World). The Shelburne was one of the later escape lines that operated within Nazi-occupied Europe. It was established at the end of 1943 by two agents who worked for MI-9, the London-based military intelligence agency responsible for providing assistance to Allied servicemen stranded behind enemy lines. Working with the French Resistance, these agents arranged for groups of Allied airmen to be taken from "safe houses" in Paris to Brittany, where a Royal Navy motor gunboat picked them up from a secluded beach and delivered them back to England. Eight audacious evacuation operations were conducted between January and August, 1944, without the Shelburne Line ever being infiltrated by the Gestapo. Aspects of the Shelburne story have been told previously in memoirs by several of the participants, including the late MP Airey Neave, who was an MI-9 operative. However, Hemingway-Douglass expands the story to include recollections of some of the local Breton people who were involved

with the Line. The second half of the book comprises personal stories of airmen and other individuals who were affiliated with the Shelburne Line or were otherwise caught up in the war in France. A lifelong Francophile, Hemingway-Douglass took eight years to research and write the book. She describes it as a labor of love that pays tribute to the heroism and courage of “ordinary” people, while reinforcing the fact that war touches everybody. “Fascinating . . . A must read for military and espionage enthusiasts.” –The Bulletin (Military Historical Society)

Futan Vice: The Trouble On Drabble Desmond Shepherd,2012-12-30 Tucked away in a remote corner in the basement of a large building, a man from Earth examines traffic patterns. This man's name is Matt Cotter. He likes to be left alone. He likes his job. And he definitely likes being on his home planet. But Matt Cotter can't control everything he likes. For instance, maybe a being from another planet (an intelligent one at that (intelligent being not an intelligent planet)) visits Matt at work and invites him to a planet called Drabble. And maybe, just maybe, that being wants Matt Cotter to help him solve a crime that hasn't happened yet. Why would this being want that? Because Matt Cotter is so good at solving traffic problems by seeing patterns, he must be able to do the same with pre-crime. Can Matt Cotter solve the case? There's one way to know if he does. Think about it ... almost there. Yes! ... That's how to find out! Inspired by such classics as Doctor Who and The Hitchhiker's Guide to the Galaxy, Desmond Shepherd delivers a story mixed with science fiction, mystery, and a little—make that a lot—of humor that solidifies him as one of the most mysterious, humorous, and science fictionous writers around.

Miscorrection: Times Desmond Shepherd,2012-10-30 After escaping imprisonment by the Diamonds, Jago has one purpose: Figure out a way to time travel to the past and ensure the assassination of President Daniel happens. The mission betrays not only the Diamonds but also his parents, who died by Karhath hands. Completing the task will benefit all humanity. It'll bring peace for centuries to come in a way no one could predict. This is how Jago lives with the choice he's made. Traveling into the past will be difficult. Jago has neither the resources or the means to finish his self-assigned mission. He is alone. With no ally to turn to, Jago must work with his enemy—the Karhath—in order to bring the end of their empire and peace to the six-planet system. Miscorrection: Times is the third book in the Miscorrection Trilogy. It is preceded by Miscorrection: Dimensions.

The Cover-Up at Omaha Beach Gary Sterne,2014-05-06 A New York Times bestseller! The untold story of what really happened on D-Day. The Rangers' mission was clear. They were to lead the assault on Omaha Beach and break out inland. Simultaneously, other Ranger units would scale the cliffs at Pointe du Hoc to destroy the ostensibly huge gun battery there and thus protect the invasion fleet from being targeted. But was the Pointe du Hoc mission actually necessary? Why did the Allies plan and execute an attack on a gun battery that they knew in advance contained no field guns? And more importantly, why did they ignore the position at Maisy that did? Using personal interviews with the surviving Rangers who fought on the beach and at Pointe du Hoc, *The Cover-Up at Omaha Beach* presents exceptionally detailed new research that takes the reader into the middle of the action with the Rangers. Gary Sterne has made a painstaking study of what the Allies actually knew in advance of D-Day, including what was known about Maisy Battery. Maps, orders, and assault plans have been found in American, British, and German archives, many of which have only recently been released after staying classified for more than sixty years. Radio communications of the Rangers as they advanced inland have been found, and Royal Air Force intelligence evaluations of bombing missions directed at the site have now been released. All of this combines to make *The Cover-Up at Omaha Beach* one of the most up-to-date references on the subject. Skyhorse Publishing, as well as our Arcade imprint, are proud to publish a broad range of books for readers interested in history--books about World War II, the Third Reich, Hitler and his henchmen, the JFK assassination, conspiracies, the American Civil War, the American Revolution, gladiators, Vikings, ancient Rome, medieval times, the old West, and much more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home.

The Hero Next Door Kristin Gilpatrick,2000 Catherine Thimmes's inspiring look at the role of women in American politics—past, present, and future—is now available with updated sections on Hillary Rodham Clinton, Condoleezza Rice, and Nancy Pelosi.
