Peterson, 2014 Living Language Dothraki brings the world of Game of Thrones to life with a conversational language course teaching Dothraki, the language developed for the HBO series by language and culture consultant David J. Peterson and first seen in George R.R. Martin's A Song of Ice and Fire series. The 128-page coursebook features a step-by-step guide to pronunciation, basic phrases, easy-to-follow grammar explanation and examples, extensive thematic vocabulary lists, dialogue, and exercises for reinforcement. Additional notes about the language and the culture of the Dothraki people appear throughout the coursebook to give the language context.

Facing Mount Kenya Jomo Kenyatta, 1978-12-29 Facing Mount Kenya, first published in 1938, is a monograph on the life and customs of the Gikuyu people of central Kenya prior to their contact with Europeans. It is unique in anthropological literature for it gives an account of the social institutions and religious rites of an African people, permeated by the emotions that give to customs and observances their meaning. It is characterised by both insight and a tinge of romanticism. The author, proud of his African blood and ways of thought, takes the reader through a thorough and clear picture of Gikuyu life and customs, painting an almost utopian picture of their social norms and the sophisticated codes by which all aspects of the society were governed. This book is one of a kind, capturing and documenting traditions fast disappearing. It is therefore a must-read for all who want to learn about African culture.

Nigger Randall Kennedy, 2008-12-18 Randall Kennedy takes on not just a word, but our laws, attitudes, and culture with bracing courage and intelligence—with a range of reference that extends from the Jim Crow south to Chris Rock routines and the O. J. Simpson trial. It's "the nuclear bomb of racial epithets," a word that whites have employed to wound and degrade African Americans for three centuries. Paradoxically, among many Black people it has become a term of affection and even empowerment. The word, of course, is nigger, and in this candid, lucidly argued book the distinguished legal scholar Randall Kennedy traces its origins, maps its multifarious connotations, and explores the controversies that rage around it. Should Blacks be able to use nigger in ways forbidden to others? Should the law treat it as a provocation that reduces the culpability of those who respond to it violently? Should it cost a person his job, or a book like Huckleberry Finn its place on library shelves?

The Kenya Socialist Durrani, Shiraz,Waweru, Kimani,2019-10-22 The Kenya Socialist exists to: Promote socialist ideas, experiences and world outlook; Increase awareness of classes, class contradictions and class struggles in Kenya, both historical and current; Expose the damage done by capitalism and imperialism in Kenya and Africa; Offer solidarity to working class, peasants and other working people and communities in their struggles for equality and justice; Promote internationalism and work in solidarity with people in Africa and around the world in their resistance to imperialism; Make explicit the politics of information and communication as tools of repression and also of resistance in Kenya. This first issue covers several areas that remain neglected in public discourse in Kenya. The study of class remains one such topic and Kimani Waweru's article, Class and Class Struggle in Kenya, fills this gap. Waweru also contributes a briefing on ideology as a weapon of oppression or liberation. He will continue his theoretical explorations in the next issue with an article on gender and women's oppression and liberation. History is never far from any liberation struggle. Nicholas Mwangi looks at Mau Mau and the origin and meaning of the term 'Mau Mau'. Njoki Wamai's contribution is her presentation at the All African Peoples' Conference in Accra in 2018. Linking up with the launch of the Ukombozi Library, the question arises, 'What is the role of information in liberation?' Shiraz Durrani answers some question from Julian Jaravata on various aspects of information. Finally, Durrani looks at the challenge by Wakamba wood carvers to the information embargo under President Moi.

From Invention to Innovation Neil H. Wasserman,1985 By the late nineteenth century, American Bell Telephone had expanded its services across much of the United States. Yet transmission was difficult through overhead wires over distances of more than a few hundred miles, and impossible in cables beyond thirty miles. Wasserman studies the inventions and innovations that

made extension possible.

Turkish-Saudi Relations Sinem Cengiz, 2020-10-31 Are the Middle East's two heavyweights, Turkey and Saudi Arabia, friends or foes? What are the main drivers behind their rivalry or cooperation? The nature of their relationship has region-wide repercussions, affecting the calculations of both regional and global actors. This book is the first to offer a comprehensive and nuanced examination of the main drivers in the complex relationship between Turkey and Saudi Arabia, focusing on the role of domestic, regional and international dynamics. Three decades are examined: the 1990s, the 2000s and the 2010s. Thus a review of the recent history of the relationship outlining the background dynamics goes on to identify the key turning points in the post- 2011 Middle East, in which the two states have frequently found themselves on a collision course due to their widely differing domestic, regional and international agendas.

Romaji Diary and Sad Toys Takuboku Ishikawa, 2011-09-20 The novella *Romaji Diary* represents the first instance of a Japanese writer using romaji (roman script) to tell stories in a way that could not be told in kana or kanji. *Sad Toys* is a collection of 194 Tanka, the traditional 31-syllable poems that are evocative of Japan's misty past and its tentative steps into the wider world. The publication of this edition of two of Takuboku Ishikawa's finest and most popular works together in translation has proven to be interesting from various standpoints. *Romaji Diary* and the collection of tanka, *Sad Toys*, while different forms of literature, are not as dissimilar as they appear on the surface. Takuboku himself wrote that poetry must be an exact report, an honest diary, of the changes in a man's emotional life, and these tanka are indeed as much a diary as a standard prose one. Both works reflect clearly, honestly, and poignantly the emotions and philosophy of a complex individual living in a time of profound change in Japan. *Romaji Diary* is here presented in full in English for the first time.
