Converging Clinical and Engineering Research on Neurorehabilitation José L Pons,Diego Torricelli,Marta Pajaro,2013-02-19 Restoring human motor and cognitive function has been a fascinating research area during the last century. Interfacing the human nervous system with electro-mechanical rehabilitation machines is facing its crucial passage from research to clinical practice, enhancing the potentiality of therapists, clinicians and researchers to rehabilitate, diagnose and generate knowledge. The 2012 International Conference on Neurorehabilitation (ICNR2012) brings together researchers and students from the fields of Clinical Rehabilitation, Applied Neurophysiology and Biomedical Engineering, covering a wide range of research topics: · Clinical Impact of Technology · Brain-Computer Interface in Rehabilitation · Neuromotor & Neurosensory modeling and processing · Biomechanics in Rehabilitation · Neural Prostheses in Rehabilitation · Neuro-Robotics in Rehabilitation · Neuromodulation This Proceedings book includes general contributions (2-page extended abstracts) from oral and poster sessions, as well as from special sessions. A section is also dedicated to pre-post conference workshops, including invited contributions from internationally recognized researchers. A selection of most relevant papers have been considered for publication in international journals (e.g. JNER, JACCES, ...), therefore they will appear soon in their extended versions in Special Issues. These Proceedings also contain brief descriptions of keynote lectures from invited world-class professors, and a number of thematic round tables covering technological and institutional issues.

Government In Kano, 1350-1950 M.G. Smith,2021-11-28 This history of the African kingdom that included the famous trans-Saharan trading city of Kano is the third in the late M. G. Smiths series of histories of the Hausa-Fulani kingdoms in West Africa. Combining the approaches of social anthropology and history, Smith provides a fascinating account of this kingdoms complex political and administrative organization from medieval times to the threshold of Nigerian independence. The book relies on written sources in Arabic, Hausa, and English, but it is supplemented by in-depth interviews with Fulani rulers and councilors who were intimately familiar with the organization of the Muslim emirate of Kano before the British arrived in 1903. In the final chapter, Smith continues his analytical inquiry, begun in his earlier books, into the processes of change in political units.

Hong Kong Budi Sulis,2013-06-11 Hong Kong! Mendengar kata ini, apa yang muncul di pikiran kita? Jackie Chan, film action, Disneyland, Ocean Park, kereta tram, belanja barang murah, dim sum atau ramainya warga Indonesia di Causeway Bay? Banyak hal -hal menarik tentang Hong Kong yang pantas untuk dinikmati dan dijelajahi selain apa yang biasa kita lihat di TV atau baca di koran.
