**We Still Here** Charity Marsh,Mark V. Campbell,2020-10-22 We Still Here maps the edges of hip-hop culture and makes sense of the rich and diverse ways people create and engage with hip-hop music within Canadian borders. Contributors to the collection explore the power of institutions, mainstream hegemonies, and the processes of historical formation in the evolution of hip-hop culture. Throughout, the volume foregrounds the generative issues of gender, identity, and power, in particular in relation to the Black diaspora and Indigenous cultures. The contributions of artists in the scene are front and centre in this collection, exposing the distinct inner mechanics of Canadian hip hop from a variety of perspectives. By amplifying rarely heard voices

within hip-hop culture, *We Still Here* argues for its power to disrupt national formations and highlights the people and communities who make hip hop happen.

*The Black Prairie Archives* Karina

Vernon, 2020-02-19 *The Black Prairie Archives: An Anthology* recovers a new regional archive of "black prairie" literature, and includes writing that ranges from work by nineteenth-century black fur traders and pioneers, all of it published here for the first time, to contemporary writing of the twenty-first century. This anthology establishes a new black prairie literary tradition and transforms inherited understandings of what prairie literature looks and sounds like. It collects varied and unique work by writers who were both conscious and unconscious of themselves as black writers or as "prairie" people. Their letters, recipes, oral literature, autobiographies, rap, and poetry- provide vivid glimpses into the reality of their lived experiences and give meaning to them. The book includes introductory notes for each writer in non-specialist language, and notes to assist readers in their engagement with the literature. This archive and its supporting text offer new scholarly and pedagogical possibilities by expanding the nation's and the region's archives. They enrich our understanding of black Canada by bringing to light the prairies' black histories, cultures, and presences.

**Return of the God Hypothesis** Stephen C. Meyer,2021-03-30 The New York Times bestselling

author of *Darwin's Doubt* presents groundbreaking scientific evidence of the existence of God, based on breakthroughs in physics, cosmology, and biology. Beginning in the late 19th century, many intellectuals began to insist that scientific knowledge conflicts with traditional theistic belief—that science and belief in God are “at war.” Philosopher of science Stephen Meyer challenges this view by examining three scientific discoveries with decidedly theistic implications. Building on the case for the intelligent design of life that he developed in *Signature in the Cell* and *Darwin's Doubt*, Meyer demonstrates how discoveries in cosmology and physics coupled with those in biology help to establish the identity of the designing intelligence behind life and the universe. Meyer argues that theism—with its affirmation of a transcendent, intelligent and active creator—best explains the evidence we have concerning biological and cosmological origins. Previously Meyer refrained from attempting to answer questions about “who” might have designed life. Now he provides an evidence-based answer to perhaps the ultimate mystery of the universe. In so doing, he reveals a stunning conclusion: the data support not just the existence of an intelligent designer of some kind—but the existence of a personal God.
