Property Inspection Checklist M A Hassan,2020-05-27 The seller has accepted your offer on your dream home and you're ready to move in. Not so fast, though. Before you sign on the dotted line, you'll want to be sure that your new home is in excellent condition. On the surface, it may look fine, but that doesn't mean it is. A home inspection is conducted by a certified home inspection professional who walks through the home and evaluates its condition. Home inspectors generally look at a home's major components and systems (the furnace, air conditioning unit and foundation, for example) to determine if there are any issues that require immediate attention. Think of a home inspection as a deeper insight into the home, whether it has been well-maintained or requires major repairs. The results of an inspection can help you decide whether to move forward with your purchase and be used as a bargaining tool with the seller.

Home Inspection Handbook John E. Traister,1997 Solid information on what you need to inspect: building sites and landscaping, foundations, structures, roofing, chimneys and flues, interior and exterior finishes, electrical systems, HVAC systems, and plumbing systems.
