An accurate record and proof of ownership can make it easier to receive payment for claim settlements that may be due in case of loss. The Home Inventory Checklist contains blank forms to enter the following: Name of Insurance Company Policy number and contact information Room (Where Item is normally located) Date Inventory Recorded Item (Detailed) Description of Item List Brand, Model, Serial Number or identifying product number Quantity of Item(s) Purchase Date Purchase Price This Home Inventory Checklist makes it easy to record and save a record of all possessions. Enough pages to record over 2000 items.

Home Inventory Simple Start Guides, 2019-05-09 Home Inventory makes it easy to find, list and protect all your household assets, whether for a move, an emergency, or just peace of mind. Insurance claims pay out more when you document details and proof of loss. Home inventory is not a simple checklist. It is a collection of both detailed item descriptions for large items and simple lists for lump sum claims on personal belongings. There are: Areas to list expensive furniture, collectibles, appliance, electronics and so forth Space to write the serial number plus purchase price, age, and replacement value List pages for smaller, bulk everyday items like school clothes A section to note vital documents, identification papers, banking and financial information, and insurance policies In the aftermath of a crisis, it can be hard to remember each individual item that was lost. Be prepared - take your household inventory before it is needed. Then store this book somewhere safe and away from your home (like a safe deposit box). Add Home Inventory to your essential household documents today and save yourself hours of work and worry later.
