Read & Learn Astrology B. K. Chaturvedi, 2014-10-27 The legendary physicist Niels Bohr had put up a horseshoe at his door. Somebody asked him that he was a scientist, how come he believed in a superstition like a horseshoe. The scientist replied : I have been told whether you believe in it or not, it brings good luck to you. Therefore, the best aspect of future telling is that those who say that they don't believe in it, even they can't resist the curiosity to know what is in store for them. However, this book will help you to understand the intricate and complex world of numerology. After reading it, you can practise it for fun, pleasure and even making friends and influencing people.

Venus in Signs Saket Shah, 2022-02-01 Dear Reader, We always wonder that every sign in Vedic astrology has different meaning and results. So how does the planet sitting in it will behave. So in this book I am describing how Venus will give results in different zodiac signs in most possible and descriptive way. The planet behavior changes along with the sign it sits in and give different results. Every sign itself is a mystery and planet sitting in sign becomes more mysterious and gives results in very different pattern. Planet is nothing but a cosmic energy which in particular location in zodiac during our birth impacts our entire life the way we think and the way we behave and also controls our emotions. The glands in our brain reacts to this cosmic energy and creates a certain characteristic in our life pattern and day to day life and we can understand this by understanding our horoscope and by checking which sign the planet is sitting and how it impacts our thinking and life. I hope you will love this book and enjoy reading. Regards, Saket Shah

Be Your Own Astrologer: Ascendant Scorpio a Comprehensive Introduction Dr. Bhojraj Dwivedi, 2017-02-20 Ascendant is the most important element of Astronomy and Astrology. Ascendant is the fundamental factor or seed of Astrology. This is the base on which the entire mansion of Astrology or the vast banyan tree stands. The calculative portion of Astrology can be solved by computer to a great extent, but the predictive portion is out of question. Astrology without prediction is just like a flower without fragrance. Many a time learned Astrologers and professional fortune-tellers are hesitant in giving correct predictions. The present book is intended to combat this challenge, by presenting facts and figures Ascendant-wise in separate books so that a clear and concise avenue may be opened for those who are aspiring to know what is there in store for them in the celestial

world. The practical significance of this book has been enhanced several times due to the birth horoscopes given at the end of the book, it is a proven fact that every lover of Astrology is a master in telling his own future. What could you gather from this book and what knowledge is there in your stock? Kindly acknowledge your experiences by writing them down to me. I shall be awaiting your letter, but do remember to enclose a duly typed and stamped envelope bearing your address for reply.

Virgo Ascendant Secrets Saket Shah,2020-01-05 There are times when people just can't identify with the attributes of their Sun or Moon sign. In fact, they may feel that they are an antithesis of their zodiac sign. You may also have observed it. Your Leo friend may not seek attention, may be because he or she has a Capricorn ascendant. Your Sagittarius friend is very possessive, may be because he or she has a Scorpio Ascendant. It is easy to understand why some people do not correspond to their Sun or Moon signs once you know about what is the rising sign or Ascendant in a horoscope. When seen from Earth, the sky seems to move, so the entire zodiac can be observed in a span of 24 hours day which means the rising sign changes on the Eastern horizon every 2 hours because there are 12 zodiac signs. People tend to associate their physical, emotional and spiritual attributes more with rising sign at times.
