Horoscopes and Public Spheres Günther Oestmann,H. Darrel Rutkin,Kocku von Stuckrad,2005 North American and European scholars examine formal approaches to such features of poetry as rhyme, alliteration, and meter, investigating such questions as what rules govern formal elements of poetic language in particular traditions or poets, which line types do poets never produce and why, and why certain metrical patterns sound better than others. English, Greek, Japanese, Somali, and Russian are among the languages explored. Annotation :2006 Book News, Inc., Portland, OR (booknews.com).

Babylonian Horoscopes Francesca Rochberg, 1998 Emerging for the first time in the 5th cent. B.C., horoscopes reflect the application of the idea and practice of celestial divination to the life of the individual. Whereas an

omen focuses on a single astronomical phenomenon, the horoscope takes into account the positions of the moon, sun, and five planets at the moment of a birth. As such, Babylonian horoscopes presuppose the concept of the ecliptic and a methodology for obtaining the positions of heavenly bodies when they are not observable. This is the first complete edition of the extant cuneiform horoscopes -- with transcription and philological and astronomical commentary. This study offers a systematic description of the documents as a definable class of Babylonian astronomical/astrological texts.

The Perfect Horoscope John Willner, 2001-03-20 The majority of horoscopes in current use are terribly wrong. Why? Because spiritual birth times, which are essential to producing an accurate horoscope according to Edgar Cayce, occur up to four-and-a-half hours before physical birth. That difference leaves aspects between planets about the same, but shifts all house cusps backward by up to one or two signs. Compared with most of today's faulty horoscopes, these perfect horoscopes match personas with awesome precision and provide greatly enhanced forecasting capabilities. This revolutionary book on astrology shows you how to (1) arrive at spiritual birth times, (2) apply two other fundamentals of astrology currently omitted from most horoscopes, and (3) verify your now totally functional horoscope. Topics covered in this book include: Who in recorded history may have been responsible for the mistakes of astrology, and its subsequent fall from grace o How to calculate accurate, soul-chosen horoscopes; What steps can be taken to verify a soul chosen horoscope; Why progressions-not transits-mark the stepping-stones of life; When horoscopes can be used to confirm fundamentals and reject damaging false ideas (such as the first breath theory); Which concepts will change as we move from the Piscean Age of tolerant opinions to the Aquarian Age of benevolent intelligence.

Horoscopes of Latin America Marc Penfield, 2008-06 Horoscopes of Latin America is Marc Penfield's fifth book on

countries of the world, each arranged by continent. This encyclopedic tome is divided into four sections: Mexico, the Caribbean, Central America and South America. It's the definitive work on 40 countries and colonies that make up this part of the world. Most countries, except the Caribbean, declared their independence from Spain or Portugal over a brief period of time. Some became monarchies (Mexico and Brasil) while others joined forces with other countries for a while. The nations of Central America (except Panama) bear close scrutiny as they gained their freedom at the same moment in time; their birth dates are identical, but when the charts are relocated there are some major differences, especially for Costa Rica. Marc Penfield outlines the basic character of the Latin American people by delineating the chart for Isabela, the oldest European settlement in the western hemisphere. Charts for over 130 cities have been included, most of them for their founding date, a few for their charter date. Progressed aspects to the angles for each city and country are shown, which makes this book a valuable teaching tool for students learning the mundane, or geopolitical, branch of astrology.

Horoscopes of Afric Marc Penfield, 2009-05 This is Marc Penfield's sixth and final book in his mundane astrology series on the countries of the world, and includes countries from the Mediterranean to the Cape of Good Hope. Most African countries were granted independence from Britain, France, Portugal or Belgium. Only Liberia and Ethiopia escaped being colonies. Marc has also devoted space to the Great Pyramid which has numerous mathematical, scientific, geographical, astronomical and possibly metaphysical references symbolized in stone. Charts for 31 African cities are also included.
